DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

49. (*c*.) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 3rd day of August, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to approve the annexed regulations for the disposal of the right to divert and use the water from any stream or lake, and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Yukon Territory, and the said regulations are hereby approved accordingly.

His Excellency is further pleased to order that the said annexed regulations shall and the same do hereby form part of the regulations governing placer mining in the Provisional District of Yukon established by the Governor in Council on the 18th January, 1898, and of the regulations for the disposal of quartz mining claims in the said District as made by the Governor in Council on the 21st March, 1898.

JOHN J. McGEE,
Clerk of the Privy Council.

REGULATIONS for the disposal of the right to divert and use the water from any stream or lake and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Provisional District of Yukon.

1. A Mining Recorder may, upon application hereinafter mentioned, grant to any person or persons, for any term not exceeding five years, or in special cases for such length of time as he may determine, the right to divert and use the water from any stream or

lake, at any particular part thereof, and the right of way through and entry upon any mining ground, for the purpose of constructing ditches and flumes to convey such water; provided always, that every such grant shall be deemed as appurtenant to the mining claim in respect of which it has been obtained, or is required in connection with reduction works, sampling works, stamp mills, concentrating works, or other works connected with mining operations; and whenever the claim shall have been worked out or abandoned, or whenever the occasion for the use of such water upon the claim or in connection with such works shall have permanently ceased, the grant shall cease and determine.

2. Twenty days' notice of the application shall be given, in accordance with form M in the schedule to these regulations, by affixing the same to a post planted in some conspicuous part of the ground, and a copy thereof conspicuously posted upon the inner walls of the Mining Recorder's Office, and any person may protest within such twenty days, but not afterwards, against such application being wholly or partially granted.

3. Every application for a grant of water exceeding 200 inches shall be accompanied by a deposit of $50, which shall be refunded in case the application is refused, but not otherwise.

4. Every such application shall state the names of the applicants, the name or description of the stream or lake to be diverted, the quantity of water to be taken, the locality for its distribution, the price (if any) to be charged for the use of such water, and the time necessary for the completion of the ditch. The grant shall be in the form N in the schedule hereto.

5. Every grant of a water privilege on occupied creeks shall be subject to the rights of such miners as shall, at the time of such grant, be working on the stream above or below the ditch head, and of any other persons lawfully using such water for any purpose whatsoever.

6. If after the grant has been made, any miner or miners locate and *bona fide* work any mining claim below the ditch head, on any stream so diverted, he or they collectively shall be entitled to 40 inches of water if 200 inches be diverted, and 60 inches if 300 inches be diverted, and no more, except upon paying to the owner of the ditch, and all other persons interested therein, compensation equal to the amount of damage sustained by the diversion of such extra quantity of water as may be required; and in computing such damage, the loss sustained by any claims using water therefrom, and all other reasonable losses shall be considered.

7. No person shall be entitled to a grant of the water of any stream for the purpose of selling the water to present or future claim holders on any part of such stream. The Mining Recorder may, however, grant such privilege as he may deem just, when such ditch is intended to work bench or hill claims fronting on any such stream, provided that the rights of miners then using the water so applied for be protected.

8. The Mining Recorder may, if he thinks such action desirable, obtain the enlargement or alterations of any ditch, and fix the compensation (if any) to be paid by parties to be benefited thereby.

9. Every owner of a ditch or water privilege shall take all reasonable means for utilizing the water granted to him; and, if he wilfully take and waste any unreasonable quantity of water, the Mining Recorder may, if such offence be persisted in, declare all rights to the water forfeited.

10. The owner of any ditch or water privilege may distribute the water to such persons and on such terms as he may deem advisable, within the limits mentioned in this grant; provided always, that such owner shall be bound to supply water to all miners who make application therefor in a fair proportion, and shall not demand more from one person than from another, except where the difficulty of supply is enhanced.

11. Any person desiring to bridge any stream, claim or other place, for any purpose, or to mine under or through any ditch or flume, or to carry water through or over any land already occupied, may, in proper cases, do so with the written sanction of the Mining Recorder. In all such cases the right of the party first in possession shall prevail so as to entitle him to compensation if the same be just.

12. In measuring water in any ditch or sluice, the following rules shall be observed:—The water taken into a ditch or sluice shall be measured at the ditch or sluice head; no water shall be taken into a ditch or sluice, except in a trough placed horizontally at the place at which the water enters it, and which trough shall be extended two feet beyond the orifice for the discharge of the water; one inch of water shall mean the quantity that will pass through a rectangular orifice two inches high by half an inch wide, with a constant head of seven inches above the upper side of the orifice.

13. Whenever it shall be intended, in forming or upholding any ditch, to enter upon and occupy any part of an entered claim, or to dig or loosen any earth or rock, within four feet of any ditch not belonging solely to the registered owner of such claim, three days' notice, in writing, of such intention shall be given before entering or approaching within four feet of such other property

14. Any person engaged in the construction of any road or work may, with the sanction of the Mining Recorder, cross, divert, or otherwise interfere with any ditch, water privilege or other mining rights whatsoever, for such period as the Mining Recorder shall approve.

15. The Mining Recorder shall order what compensation for every such damage or interference shall be paid, and when, and to whom, and whether any and what works, damaged or affected by such interference as aforesaid, shall be replaced by flumes or otherwise repaired by the person or persons causing any such damage.

16. The owners of any ditch, water privilege, or mining right shall, at their own expense, construct, secure and maintain all culverts necessary for the passage of waste and superfluous water flowing through or over any such ditch, water privilege or right.

17. The owners of any ditch or water privilege shall construct and secure the same in a proper and substantial manner, and maintain the same in good repair, to the satisfaction of the Mining Recorder, and so that no damage shall occur to any road or work in its vicinity from any part of the works of such ditch, water privilege or right.

18. The owners of any ditch, water privilege or right, shall be liable, and shall make good in such manner as the Mining Recorder shall determine, all damages which may be occasioned by or through any part of the works of such ditch, water privilege, or right, breaking or being imperfect.

19. Nothing herein contained shall be construed to limit the right of the Commissioner in Council to lay out from time to time public roads across, through, along, or under any ditch, water privilege or mining right, without compensation.

20. The Commissioner of the Yukon Territory may alter or amend the foregoing regulations as he may deem advisable, and such alterations or amendments shall be and remain in force until disallowed by the Minister of the Interior.

ON a report, dated 28th June, 1898, from the Minister of the Interior, stating that applications have been received at the Department of the Interior to prospect for Petroleum on lands in Southern Alberta, North-West Territories.

The Minister recommends, as it is most desirable in the public interest that the question as to whether petroleum is to be found in paying quantities in the North-West Territories should be ascertained, that he be authorized to reserve for an applicant for a period of six months an area not exceeding 640 acres of land to prospect thereon for petroleum, and that if oil is found in paying quantities to sell the land to the applicant at the rate of one dollar per acre, with a provision that a royalty of two and one-half per cent upon the sales of the petroleum be paid to the Crown.

The Minister further recommends that the authority asked for be confined to lands situated south of the Canadian Pacific Railway in the District of Alberta.

The Committee submit the above recommendations for Your Excellency's approval.

NOTICE TO MARINERS.

No. 43 of 1898.

DOMINION OF CANADA—QUEBEC.

I.—Changes in Aids to Navigation in River Saguenay.

The following changes have been made in aids to navigation in the approach to Chicoutimi, River Saguenay, Province of Quebec :—

1. The red buoy marking the outer edge of the sand flats, Anse au Foin, on the north side of the channel, has been moved 2,640 ft. S. 50° E. to the outermost and most dangerous extremity of the shoal.
2. A black can buoy has been moored in 12 feet water on the south side of the channel, in the new alignment of the Poste St. Martin range lights, to better mark the curve between the alignments of the Poste St. Martin range lights and the River Valin range lights.
3. The front range light at Poste St. Martin has been moved 14½ feet south from its former position so as to throw the line of range 1° 5′ southward.

The new alignment leads through the middle of the deep water channel clear of the flats off Anse au Foin and clear of the east extremity of the Batture aux Loups-Marins.

4. The checkered buoy moored in the middle of the crossing marked by the River Valin range lights, being a starboard buoy, has been painted red.
5. The red can buoy in the middle of the alignment marked by River Caribou range lights has been moved 500 feet S. 64° E. to mark a 9-foot spot.
6. A black spar buoy has been moored on the south side at the River Caribou curve to show the limit of the channel to the southward at that point.

The following bearings and distances between the lights in this part of the channel are taken from a survey made in 1897, under the direction of the Department of Public Works, by Mr. F. W. Cowie, assistant engineer :—

From Poste St. Martin front light, in its new position, River Valin front light bears N. 3° 30′ E., distant 6,530 ft., and Poste St. Martin back light bears N. 52° 45′ W., distant 830 ft.

From River Valin front light, Savards front light bears N. 71° 30′ W., distant 5,740 ft., and River Valin back range light bears N. 25° W., distant 710 ft.

From Savards front light, River Caribou front light bears S. 79° 30′ W., distant 3,145 ft., and Savards back light bears N. 48° W., distant 490 ft.

From River Caribou front light, River du Moulin front light bears S. 44° W., distant 7,385 ft., and River Caribou back light bears N. 62° 30′ W., distant 720 ft.

From River du Moulin front light Chicoutimi wharf light bears N. 82° 15′ W. distant 6,945 feet, and River du Moulin back light bears S. 55° 30′ W. distant 400 ft.

The following buoys are maintained by the Government of Canada in the channel between Anse au Foin and Chicoutimi :

II.—Lights on Lake St. John.

1. No lights are now maintained at the mouth of the River Metabetchouan, or on Snake Island, in Lake St. John, and these lights Nos. 597 and 600 should be dropped from the Canadian List of Lights and Fog Signals.
2. In the month of June last, the range lights in Roberval Village were re-established and made electric lights. The front light stands on the beach at high water mark. It consists of an incandescent electric light enclosed in a square lantern and strengthened in the line of range by a reflector. It is shown from the top of a pole 16 feet high and the light is 15 feet above high water mark.

The back range pole stands 95 feet back from the front one ; it is 25 feet high, and the light, which is similar to the front one, is 30 feet above high water mark. The lights should be visible 5 miles, and are intended to lead vessels through the channel up to Roberval wharf.

3. A light has been established on the extremity of Pointe Bleue. It is a fixed white light, elevated 28 feet above high water mark, and should be visible 5 miles from all points of approach by water. It is

shown from a lantern with pressed lens, hoisted on a white pole 25 feet high, having a small shed painted red at its base.

This light should be entered in the Canadian List of Lights and Fog Signals under the No. 596.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 30th June, 1898.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested, are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

9–3

NOTICE TO MARINERS.

No. 44 of 1898.

DOMINION OF CANADA—BRITISH COLUMBIA.

I.—Fishing Light on Garry Point.

A light, established by the Department of Marine and Fisheries on Garry Point, at the mouth of the main channel of the Fraser River, British Columbia, was put in operation on the 24th July last.

Lat.	N.	49°	7'	18"
Long.	W.	123°	11'	12"

The light is a fixed red light, shown from an anchor lens lantern standing on the platform of the tide gauge, which is supported on pile work. The light is elevated 22 feet above high water mark, and should be visible 6 miles from all points of approach by water. The illuminating apparatus is dioptric of the 7th order.

This light is intended for the benefit of light draft fishing boats which can cross the Sand heads at high tide. In consequence of the turns in the channel, it will be impossible to use it as a guide in the main channel through the Sand heads.

This notice affects Admiralty charts Nos. 579, 1,917 and 2,689, and the substance of it should be entered in the Canadian list of lights and fog signals under the number 1182.

II.—Change in position of Sand heads bell buoy.

In consequence of a change in the outer end of the navigable channel through the Sand heads, at the mouth of the Fraser river, it has been found necessary to remove the bell buoy which marks the point where the channel reaches deep water of the Gulf of Georgia from its former station and to moor it in 17 fathoms in a new position distant 2,550 feet S. S. E. from the old one.

Lat.	N.	49°	6'	55"
Long.	W.	123°	18'	18"

The following sextant angles were taken from the new position of the bell buoy :

Former position of Buoy......	0°	
Point Grey..................................	5°	56'
No. 1 black buoy........................	55°	0'
Fraser river lighthouse..................	89°	20'
Beacon nearest lighthouse............	25°	0'

From the bell buoy the first black buoy bears N. E. ¾ N., distant 1,350 feet.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689 ; British Columbia pilot, 1888, page 133 ; and Canadian list of lights and fog signals, No. 1181.

III.—Discontinuance of North Sand head black beacon.

The black beacon of pilework, heretofore maintained on the North Sand head, near the mouths of the Fraser river, has been washed away, and as it had become useless for purposes of navigation, owing to the silting up of the former entrance channel it will not be replaced.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689.

IV.—Additional particulars respecting range lights on Yellow Island.

In part I of Notice to mariners No. 38 of 1898, some particulars respecting the new range lights and buildings on Yellow island were omitted.

The towers are enclosed wooden buildings, square in plan, with sloping sides, surmounted by square wooden lanterns, and are painted entirely in white. The back building is 28 feet in height over all, the front one 20 feet high.

The front range light is elevated 57 feet above high water mark and should be visible 12 miles in, and over a small arc on each side of, the line of range. The illuminating apparatus in the back tower, which is also the main lighthouse, is dioptric of the 7th order. The illuminating apparatus in the front range tower is catoptric.

In consequence of the short distance obtainable between the range lights, and the long distance in the alignment to the Reef buoy, it is important to keep the lights very closely in alignment until the Reef buoy has been passed.

The lantern and upper part of the large lighthouse tower previously used have been razed, and the dwelling roof has been continued over the tower portion, converting the whole building into a dwelling house.

This notice affects Admiralty charts Nos. 580 and 1917, British Columbia Pilot, 1888, pages 156 and 157, and Canadian list of lights and fog signals Nos. 1192 and 1193.

V.—Beacon on Beacon Rock, Nanaimo Harbour.

Part II of Notice to Mariners No. 38 of 1898 does not make it clear that the stone beacon on Beacon rock, in Nanaimo harbour, has been re-erected. This is however the case. The new beacon was completed in June last and the platform buoy which marked the rock pending the erection of the beacon has been removed.

The new beacon is in the form of the frustum of a cone, 9 feet in diameter at the rock, 5 feet in diameter at the top, and 15 feet high, surmounted by a pole carrying a spherical topmark.

UNITED STATES OF AMERICA.

RE-ESTABLISHMENT OF AIDS TO NAVIGATION.

Notices have been published by the Lighthouse Board of the United States of America to the effect that the lights in the approaches to New York, Cape Fear river and Mobile bay respectively, have been re-established.

It is probable that all channels on the coasts of the United States have been cleared of mines, and that all aids to navigation have been re-established, and that the conditions affecting commerce with United States ports are now on the footing on which they existed previous to the declaration of war with Spain. No further notice of the re-establishment of United States aids to navigation in this connection will consequently be given by this government.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

Greffier du Sénat.

HIS Excellency, in virtue of the provisions of subclause "*h*" of clause 90 of "The Dominion Lands Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the annexed regulations shall be and the same are hereby confirmed and declared to be the regulations in force governing the administration of Dominion Lands in the Yukon Territory.

JOHN J. McGEE,
Clerk of the Privy Council.

Regulations governing the Administration of Dominion Lands in the Provisional District of the Yukon.

1. All applications for the purchase of land received by the Crown Timber and Land Agent shall, before being acted upon, be submitted to the Commissioner of the Yukon Territory who is empowered to dispose of any public lands by sale at a price not less than ten dollars per acre, payable in cash at the time of sale, and the maximum area so sold to the same applicant in the same locality shall not exceed forty acres. Such sale shall be subject to the reservation to the Crown of all minerals which may be found to exist within, upon or under such lands, together with full power to work the same, and for this purpose to enter upon and use and occupy the said lands or so much thereof and to such extent as may be necessary for the effectual working of such minerals.

2. If at any time subsequent to the date of sale any land so sold should be shown to be of value as a town site, and if the owner thereof decides to survey it into town lots, or if the same within ten years from the date of sale is used or occupied as a town site by the residence thereon upon a tract not exceeding one mile square of two hundred persons or upwards, then it is a condition of the original sale that the Government of Canada shall own absolutely for its own use or sale, one-third of the blocks of lots in such town site, that is to say, the owner will hold two blocks and the Government one block in turn on an arrangement to be approved by the Commissioner of the District, and the sale of such Government Blocks shall be by public auction at such time as may be determined by the Commissioner.

3. The Commissioner of the Territory is empowered and instructed to locate town sites where in his opinion it is likely the business of the locality may require them, and shall particularly at once proceed to locate such town sites at the following places:—Dawson City, Fort Selkirk or thereabouts, the Mouth of the Stewart River, as well as other places as aforesaid. The area of such sites shall be of such dimensions as the Commissioner of the Territory may deem advisable and shall be divided into lots of 50

feet frontage by 120 feet in depth, with streets 66 feet in width, unless there be circumstances which prevent the surveying of the lots and streets to the size and width named, in which case the Commissioner may alter these regulations to suit the necessities of the case.

4. At all important points a reserve for public purposes of 40 acres, or more, if deemed necessary, shall be made.

5. No land shall be sold within a distance of one hundred feet of the water's edge of a navigable steam.

6. The first sale of the lots shall be at public auction and shall take place at the town site after a notice thereof has been published in one or more of the newspapers published in the Yukon District and in such other papers as the Minister of the Interior may direct, for a period of not less than thirty days. The notice advertising the sale shall fix an upset price for the lots, which price shall be graded according to the location of the lots.

7. After the first sale by auction the Commissioner may hold other sales by auction in his discretion. Lots undisposed of by auction may be sold by private sale at prices fixed by the Commissioner and approved by the Minister of the Interior.

8. All sale of lots shall be on the following terms, namely :—One-third of the purchase price to be paid in cash at the time of sale, and the balance in two equal payments at six and twelve months respectively after the date of the sale, together with interest upon the unpaid balance at the rate of six per cent per annum.

9. The Commissioner shall have the power, when directing the survey of a town site, to reserve a reasonable number of lots as sites for market places, jails, court-houses, places of public worship, and squares. The Commissioner is also empowered to set apart sufficient blocks of land to be used for burying grounds.

10. All applications for coal lands shall be made to the Crown Timber and Land Agent who will be empowered to sell such lands, subject to the approval of the Commissioner, at forty dollars per acre cash if the coal is anthracite, and twenty dollars per acre cash for any other class of coal. The sale of such lands to be subject to the other conditions imposed in the sale of other public lands, with reference to their maintenance or town site purposes.

11. Licenses and permits for hay and grazing lands shall be granted by the Crown Timber and Land Agent subject to the general authorization of the Commissioner and the regulations of the Department in that behalf.

12. Where land is deemed to be especially valuable the Minister may authorize the Commissioner to have the same surveyed into blocks of such size as may be thought advisable and sold by public auction.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 3rd day of August, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to approve the annexed regulations for the disposal of the right to divert and use the water from any stream or lake, and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Yukon Territory, and the said regulations are hereby approved accordingly.

His Excellency is further pleased to order that the said annexed regulations shall and the same do hereby form part of the regulations governing placer mining in the Provisional District of Yukon established by the Governor in Council on the 18th January, 1898, and of the regulations for the disposal of quartz mining claims in the said District as made by the Governor in Council on the 21st March, 1898.

JOHN J. McGEE,
Clerk of the Privy Council.

REGULATIONS for the disposal of the right to divert and use the water from any stream or lake and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Provisional District of Yukon.

1. A Mining Recorder may, upon application hereinafter mentioned, grant to any person or persons, for any term not exceeding five years, or in special cases for such length of time as he may determine, the right to divert and use the water from any stream or

ake, at any particular part thereof, and the right of way through and entry upon any mining ground, for the purpose of constructing ditches and flumes to convey such water ; provided always, that every such grant shall be deemed as appurtenant to the mining claim in respect of which it has been obtained, or is required in connection with reduction works, sampling works, stamp mills, concentrating works, or other works connected with mining operations ; and whenever the claim shall have been worked out or abandoned, or whenever the occasion for the use of such water upon the claim or in connection with such works shall have permanently ceased, the grant shall cease and determine.

2. Twenty days' notice of the application shall be given, in accordance with form M in the schedule to these regulations, by affixing the same to a post planted in some conspicuous part of the ground, and a copy thereof conspicuously posted upon the inner walls of the Mining Recorder's Office, and any person may protest within such twenty days, but not afterwards, against such application being wholly or partially granted.

3. Every application for a grant of water exceeding 200 inches shall be accompanied by a deposit of $50, which shall be refunded in case the application is refused, but not otherwise.

4. Every such application shall state the names of the applicants, the name or description of the stream or lake to be diverted, the quantity of water to be aken, the locality for its distribution, the price (if any) to be charged for the use of such water, and the ime necessary for the completion of the ditch. The grant shall be in the form N in the schedule hereto.

5. Every grant of a water privilege on occupied creeks shall be subject to the rights of such miners as shall, at the time of such grant, be working on the stream above or below the ditch head, and of any other persons lawfully using such water for any purpose whatsoever.

6. If after the grant has been made, any miner or miners locate and *bona fide* work any mining claim below the ditch head, on any stream so diverted, he or hey collectively shall be entitled to 40 inches of water if 200 inches be diverted, and 60 inches if 300 nches be diverted, and no more, except upon paying o the owner of the ditch, and all other persons interested therein, compensation equal to the amount of damage sustained by the diversion of such extra quantity of water as may be required ; and in computing such damage, the loss sustained by any claims using water therefrom, and all other reasonable losses shall be considered.

7. No person shall be entitled to a grant of the water of any stream for the purpose of selling the water to present or future claim holders on any part of such stream. The Mining Recorder may, however, grant such privilege as he may deem just, when such ditch is intended to work bench or hill claims fronting on any such stream, provided that the rights of miners then using the water so applied for be protected.

8. The Mining Recorder may, if he thinks such action desirable, obtain the enlargement or alterations of any ditch, and fix the compensation (if any) to be paid by parties to be benefited thereby.

9. Every owner of a ditch or water privilege shall take all reasonable means for utilizing the water granted to him ; and, if he wilfully take and waste any unreasonable quantity of water, the Mining Recorder may, if such offence be persisted in, declare all rights to the water forfeited.

10. The owner of any ditch or water privilege may distribute the water to such persons and on such terms as he may deem advisable, within the limits mentioned in this grant ; provided always, that such owner shall be bound to supply water to all miners who make application therefor in a fair proportion, and shall not demand more from one person than from another, except where the difficulty of supply is enhanced.

11. Any person desiring to bridge any stream, claim or other place, for any purpose, or to mine under or through any ditch or flume, or to carry water through or over any land already occupied, may, in proper cases, do so with the written sanction of the Mining Recorder. In all such cases the right of the party first in possession shall prevail so as to entitle him to compensation if the same be just.

12. In measuring water in any ditch or sluice, the following rules shall be observed :—The water taken into a ditch or sluice shall be measured at the ditch or sluice head ; no water shall be taken into a ditch or sluice, except in a trough placed horizontally at the place at which the water enters it, and which trough shall be extended two feet beyond the orifice for the discharge of the water ; one inch of water shall mean the quantity that will pass through a rectangular orifice two inches high by half an inch wide, with a constant head of seven inches above the upper side of the orifice.

13. Whenever it shall be intended, in forming or upholding any ditch, to enter upon and occupy any part of an entered claim, or to dig or loosen any earth or rock, within four feet of any ditch not belonging solely to the registered owner of such claim, three days' notice, in writing, of such intention shall be given before entering or approaching within four feet of such other property.

14. Any person engaged in the construction of any road or work may, with the sanction of the Mining Recorder, cross, divert, or otherwise interfere with any ditch, water privilege or other mining rights whatsoever, for such period as the Mining Recorder shall approve.

15. The Mining Recorder shall order what compensation for every such damage or interference shall be paid, and when, and to whom, and whether any and what works, damaged or affected by such interference as aforesaid, shall be replaced by flumes or otherwise repaired by the person or persons causing any such damage.

16. The owners of any ditch, water privilege, or mining right shall, at their own expense, construct, secure and maintain all culverts necessary for the passage of waste and superfluous water flowing through or over any such ditch, water privilege or right.

17. The owners of any ditch or water privilege shall construct and secure the same in a proper and substantial manner, and maintain the same in good repair, to the satisfaction of the Mining Recorder, and so that no damage shall occur to any road or work in its vicinity from any part of the works of such ditch, water privilege or right.

18. The owners of any ditch, water privilege or right, shall be liable, and shall make good in such manner as the Mining Recorder shall determine, all damages which may be occasioned by or through any part of the works of such ditch, water privilege, or right, breaking or being imperfect.

19. Nothing herein contained shall be construed to limit the right of the Commissioner in Council to lay out from time to time public roads across, through, along, or under any ditch, water privilege or mining right, without compensation.

20. The Commissioner of the Yukon Territory may alter or amend the foregoing regulations as he may deem advisable, and such alterations or amendments shall be and remain in force until disallowed by the Minister of the Interior.

The Minister further recommends that the authority asked for be confined to lands situated south of the Canadian Pacific Railway in the District of Alberta.

When the companies are of a less strength than 16 files, the drill will be in single rank. The Commanding Officer and Majors will be called upon to drill the battalion.

At the inspection of Cavalry in camps of instruction, one day is to be allotted to the drill of each squadron, and another to that of the regiment under the Commanding Officer and Major.

NOTICE TO MARINERS.

No. 47 of 1898.

DOMINION OF CANADA—ONTARIO.

ENTRANCE TO OWEN SOUND HARBOUR.

Removal of old pier.—The cribwork pier on which the front range light at the entrance to Owen Sound Harbour, Georgian Bay, Ontario, originally stood, on the west side of the channel, 900 feet N. 29° 30' E. from the outer extremity of the west breakwater pier, has been removed by the Government dredge, in the course of work in progress in widening the entrance to the harbour. This is the pier referred to in Notice to Mariners No. 61 of 1897.

Buoyage of channel.—It is understood that the edges of the dredged channel leading from the deep water of Owen Sound to the opening between the Government breakwaters have been well marked by spar buoys, established by the Corporation of the Town of Owen Sound. There is said to be two distinct rows of buoys, red on the starboard and black on the port side of the channel, but no particulars have reached this Department respecting their number and positions.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 22nd August, 1898.

☞All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

NOTICE TO MARINERS.

No. 48 of 1898.

DOMINION OF CANADA.—NOVA SCOTIA.

I.—BUOY ON JERSEYMAN ISLAND SHOAL.

A conical steel buoy, painted red, has been established by the Government of Canada off the outer end of the shoal extending westerly from Jerseyman Island, on the southern side of Crid Pass, entrance to Arichat Harbour, South coast of Cape Breton.

Lat.	N.	45°	29'	85"
Long.	W.	61°	4'	0"

The buoy is moored in 6 fathoms water. From it Jerseyman island light bears E. by N., distant ¾ mile.

This notice affects Admiralty charts Nos. 2342 and 2756.

II.—CHANGE IN CHETICAMP LIGHTHOUSE.

In 1896 a change was made in the lighthouse building near the south-west end of Cheticamp Island, on the Gulf of St. Lawrence coast of Cape Breton Island, which somewhat altered its appearance and slightly changed the position of the light. The tower, which rose from the roof on the western face of the low white wooden dwelling, was removed, and a new tower was built on the north side of the dwelling and connected therewith by a short covered passage way.

The new tower is a square wooden building with sloping sides, painted white, surmounted by a polygonal iron lantern painted red. The height from the base of the building to the vane on the lantern is 36 feet.

The light remains as heretofore, a revolving white catoptric light, the flashes attaining their greatest brilliancy every 45 seconds. It is elevated 149 feet above high water mark, and should be visible 18 miles from all points of approach by water except where shut in by the high land of Cheticamp Island.

This notice affects Canadian List of Lights and Fog Signals, No. 312.

III.—ROCK NORTHWARD OF COAL POINT.

Information, dated 21st June, 1898, has been received from Commander H. E. Purey-Cust, H.M.S. "Rambler," that the rock locally known as Davis head shoal, on which the S.S. "Ailsa Craig" struck in 1897, lies N. ¾ W. 8 cables from Coal point, Indian bay, Cape Breton island.

Lat.	N.	46°	15'	30"
Long.	W.	60°	2'	10"

This rock is of small extent, with 12 feet least water on it ; there is deeper water between the rock and the shore. As far as the examination showed, this is the outside danger, but vessels should give Coal point, as well as the other points in this locality, a berth of one mile in passing.

This notice affects Admiralty charts Nos. 232a and 2727, and St. Lawrence Pilot, vol. ii., 1895, page 296.

NOTICE TO MARINERS.

No. 50 of 1898.

NEWFOUNDLAND.

I.—IMPROVEMENT OF LIGHT AND ESTABLISHMENTS OF FOG SIGNAL ON CHANNEL HEAD.

The Acting Minister of Marine and Fisheries of the Colony of Newfoundland has given notice to mariners that the light and fog signal on Channel head, referred to in Canadian Notice to Mariners No. 4 of 1898, part II, are completed and were to be put in operation on the 25th July last, as follows :—

The fixed red light heretofore shown from a wooden tower has been replaced by a fixed red fourth order dioptric light, exhibited from a circular iron tower, painted white. The focal plane of the light is 101⅓ feet above water, and 29⅓ feet above the base of the tower, and the light should be visible 15½ miles from all points seaward.

A fog signal structure has been established 60 feet south of the light tower, from which a 4-ounce cotton-powder cartridge will be fired automatically every 8 minutes.

The fog signal structure, lighthouse and keeper's dwelling are connected by covered ways, the side of which are painted white, roof black. A red brick magazine stands 30 feet north-east from the light tower.

II.—BUOYAGE OF BALDWIN ROCKS.

Further, that to indicate the position of Baldwin rocks, entrance to Port aux Basques three spar buoys have been moored, one on the Western Baldwin, in 3½ fathoms, painted black and white in horizontal bands ; one on the Eastern Baldwin, in 3½ fathoms, painted red ; one on a shoal lying between the Eastern Baldwin and Road island, in 3½ fathoms, painted white " luminous " paint.

III.—RANGE LIGHTS AT PORT AUX BASQUES.

Further, that the proposed range lights to mark the channel between Baldwin rock, entrance to Port aux Basques were to be put in operation on the 28th July last, as follows :—

Front light.—An occulting white light, giving equal periods of light and darkness of 1½ seconds' duration, elevated 22½ feet above water. The structure is erected on the extreme south-west point of Road island and is a square pyramidal tower, surmounted by a square lantern, with a single window, and is painted white.

Rear light.—An occulting white light, giving eqnal periods of light and darkness of 1 seconds' duration, elevated 81 feet above water. The structure, 15 feet high from base to window, is similar to the front range building, and stands on the mainland 490 yards N. W. by N. ¼ N. from the front light.

These notices affect Admiralty charts Nos. 232*a*, 302 and 2828.

IV.—SHOALS BETWEEN SNAP ROCK AND IRELAND ROCKS.

Information dated 3rd July, 1898, has been received from Staff Commander W. Tooker, of the surveying vessel *Gulnare*, that an examination confirmed the existence of shoals reported between Snap rock and Ireland rocks in the approach to Notre Dame Bay, in the east coast of Newfoundland, the details of which are as follows :—

Cromwell ledge is about ¾ mile in extent, with irregular rocky bottom ; the least depth ascertained was 6 fathoms at low water springs. Two patches with this depth were found (North *true*), N.E. by N. *mag.* ½ mile apart, the approximate position of the southern 6-fathom patch being latitude N. 49° 50' 00", longitude W. 53° 51' 00".

Jacobs ledge is a patch of small extent with 5½ fathoms on it, lying about 1½ miles easward of Ireland rocks, in approximately latitude N. 49° 52' 10", longitude W. 53° 59' 40".

During bad weather these shoals break heavily.

It is considered that the shoals formerly reported are identical with these, but the bottom in this locality is so foul and irregular that it is quite possible that other rocks may exist.

This notice affects Admiralty charts Nos. 293 and 232*b*.

The new alignment leads through the middle of the deep water channel clear of the flats off Anse au Foin and clear of the east extremity of the Batture aux Loups-Marins.

4. The checkered buoy moored in the middle of the crossing marked by the River Valin range lights, being a starboard buoy, has been painted red.

The light is a fixed red light, shown from an anchor lens lantern standing on the platform of the tide gauge, which is supported on pile work. The light is elevated 22 feet above high water mark, and should be visible 6 miles from all points of approach by water. The illuminating apparatus is dioptric of the 7th order.

This light is intended for the benefit of light draft fishing boats which can cross the Sand heads at high tide. In consequence of the turns in the channel, it will be impossible to use it as a guide in the main channel through the Sand heads.

This notice affects Admiralty charts Nos. 579, 1,917 and 2,689, and the substance of it should be entered in the Canadian list of lights and fog signals under the number 1182.

II.—Change in position of Sand heads bell buoy.

In consequence of a change in the outer end of the navigable channel through the Sand heads, at the mouth of the Fraser river, it has been found necessary to remove the bell buoy which marks the point where the channel reaches deep water of the Gulf of Georgia from its former station and to moor it in 17 fathoms in a new position distant 2,550 feet S. S. E. from the old one.

Lat. N. 49° 6' 55"
Long. W. 123° 18' 18"

The following sextant angles were taken from the new position of the bell buoy:

Former position of Buoy	0°	
Point Grey	5°	56'
No. 1 black buoy	55°	0'
Fraser river lighthouse	89°	30'
Beacon nearest lighthouse	25°	0'

From the bell buoy the first black buoy bears N. E. ¾ N., distant 1,350 feet.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689; British Columbia pilot, 1888, page 133; and Canadian list of lights and fog signals, No. 1181.

III.—Discontinuance of North Sand head black beacon.

The black beacon of pilework, heretofore maintained on the North Sand head, near the mouths of the Fraser river, has been washed away, and as it had become useless for purposes of navigation, owing to the silting up of the former entrance channel it will not be replaced.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689.

IV.—Additional particulars respecting range lights on Yellow Island.

In part I of Notice to mariners No. 38 of 1898, some particulars respecting the new range lights and buildings on Yellow island were omitted.

The towers are enclosed wooden buildings, square in plan, with sloping sides, surmounted by square wooden lanterns, and are painted entirely in white. The back building is 28 feet in height over all, the front one 20 feet high.

The front range light is elevated 57 feet above high water mark and should be visible 12 miles in, and over a small arc on each side of, the line of range. The illuminating apparatus in the back tower, which is also the main lighthouse, is dioptric of the 7th order. The illuminating apparatus in the front range tower is catoptric.

In consequence of the short distance obtainable between the range lights, and the long distance in the alignment to the Reef buoy, it is important to keep the lights very closely in alignment until the Reef buoy has been passed.

The lantern and upper part of the large lighthouse tower previously used have been razed, and the dwelling roof has been continued over the tower portion, converting the whole building into a dwelling house.

This notice affects Admiralty charts Nos. 580 and 1917, British Columbia Pilot, 1888, pages 156 and 157, and Canadian list of lights and fog signals Nos. 1192 and 1193.

V.—Beacon on Beacon Rock, Nanaimo Harbour.

Part II of Notice to Mariners No. 38 of 1898 does not make it clear that the stone beacon on Beacon rock, in Nanaimo harbour, has been re-erected. This is however the case. The new beacon was completed in June last and the platform buoy which marked the rock pending the erection of the beacon has been removed.

The new beacon is in the form of the frustum of a cone, 9 feet in diameter at the rock, 5 feet in diameter at the top, and 15 feet high, surmounted by a pole carrying a spherical topmark.

UNITED STATES OF AMERICA.

RE-ESTABLISHMENT OF AIDS TO NAVIGATION.

Notices have been published by the Lighthouse Board of the United States of America to the effect that the lights in the approaches to New York, Cape Fear river and Mobile bay respectively, have been re-established.

It is probable that all channels on the coasts of the United States have been cleared of mines, and that all aids to navigation have been re-established, and that the conditions affecting commerce with United States ports are now on the footing on which they existed previous to the declaration of war with Spain. No further notice of the re-establishment of United States aids to navigation in this connection will consequently be given by this government.

AVIS AUX MARINS.

No. 43 de 1898.

CANADA—QUÉBEC.

I. CHANGEMENTS DANS LES AIDES À LA NAVIGATION DANS LA RIVIÈRE SAGUENAY.

Les changements suivants ont été apportés aux aides à la navigation dans l'abord à Chicoutimi, rivière Saguenay, province de Québec:—

1. La bouée rouge qui marque le bord extérieur des battures de sable, Anse au Foin, sur la côte nord du chenal, a été reculée 2,640 pieds S. 50° E. à l'extrémité la plus dangereuse de la batture.

2. Une bouée-boîte noire a été ancrée dans 12 pieds d'eau sur le côté sud du chenal, dans le nouvel alignement des feux du Poste St. Martin, pour mieux marquer la courbe entre les alignements des feux du Poste St. Martin et les feux de la rivière à Valin.

3. Le feu d'avant du Poste St. Martin a été reculé 14½ pieds au sud de son ancienne position de manière à jeter l'alignement à 1° 5' au sud.

Le nouvel alignement conduit par le milieu du chenal à eau profonde loin des battures vis-à-vis l'Anse au Foin, et évite l'extrémité est de la Batture aux Loups-Marins.

4. La bouée à carreaux ancrée dans le milieu de la traverse marquée par les feux d'alignement de la rivière à Valin, étant une bouée de tribord, a été peinturée en rouge.

5. La bouée-boîte rouge au centre de l'alignement marqué par les feux de la rivière Caribou, a été reculée 500 pieds S. 64° E. pour marquer un endroit de 9 pieds.

6. Une bouée-espar noire a été ancrée sur le côté sud à la courbe de la rivière Caribou pour indiquer la limite du chenal au sud à cet endroit.

Les orientations et distances suivantes entre les feux dans cette partie du chenal sont prises d'une étude faite en 1897, sous le contrôle du ministère des Travaux Publics, par M. F. W. Cowie, aide-ingénieur:—

Du feu d'avant du Poste St. Martin dans sa nouvelle position, le feu d'avant de la rivière à Valin est dans une direction N. 3° 30' E., à une distance de 6,530 pieds, et le feu d'arrière du Poste St. Martin est dans une direction N. 52° 45' O. à une distance de 830 pieds.

Du feu d'avant de la rivière à Valin, le feu d'avant de Savard est dans une direction N. 71° 30' O. à une distance de 5,740 pieds, et le feu d'arrière de la rivière à Valin est dans une direction N. 25° O., à une distance de 710 pieds.

Du feu d'avant de Savard, le feu d'avant de la rivière Caribou est dans une direction S. 79° 30' O., à une distance de 3,145 pieds, et le feu d'arrière de Savard est dans une direction N. 48° O., à une distance de 490 pieds.

Du feu d'avant de la rivière Caribou, le feu d'avant de la rivière du Moulin est dans une direction S. 44° O., à une distance de 7,385 pieds, et le feu d'arrière de la rivière Caribou est dans une direction N. 62° 30' O., à une distance de 720 pieds.

Du feu d'avant de la rivière du Moulin, le feu du quai de Chicoutimi est dans une direction N. 82° 15' O., à une distance de 6,945 pieds, et le feu d'arrière de la rivière du Moulin est dans une direction S. 55° 30' O., à une distance de 400 pieds.

Les bouées suivantes sont entretenues par le gouvernement du Canada dans le chenal entre l'Anse au Foin et Chicoutimi:—

Cet avis concerne la carte de l'Amirauté No. 1370, le St. Lawrence Pilot, 1891, vol. 1, pages 328 à 336, et la Liste des phares et signaux de brume canadiens, Nos. 582 à 594.

II. Feux sur le lac Saint-Jean.

1. Il n'est pas entretenu de feux maintenant à l'embouchure de la rivière Metabetchouan, ou sur l'île aux Serpents, dans le lac Saint-Jean, et ces feux Nos. 597 et 600 devraient être rayés de la Liste des phares et signaux de brume canadiens.

2. En juin dernier, les feux d'alignement dans le village de Roberval ont été rétablis, et convertis en feux électriques. Le feu d'avant est posé sur la grève à la marque des hautes eaux. Il consiste en une lumière incandescente électrique renfermée dans une lanterne carrée, et renforcée dans l'alignement par un réflecteur. Il est exhibé du haut d'un poteau de 16 pieds, et le feu est à 15 pieds au-dessus de la marque des hautes eaux.

Le poteau du feu d'arrière est à 95 pieds de celui d'avant ; il est haut de 25 pieds, et le feu, qui est semblable à celui d'avant, est à 30 pieds au-dessus de la marque des hautes eaux. Les feux devraient être visibles à 5 milles, et sont destinés à guider les vaisseaux dans le chenal jusqu'au quai de Roberval.

3. Un feu a été établi à l'extrémité de la Pointe Bleue. C'est un feu blanc fixe, à 28 pieds au-dessus de la marque des hautes eaux, et devrait être visible de tous les points d'approche par eau. Il est exhibé dans une lanterne avec des lentilles pressées, hissée sur un poteau blanc haut de 25 pieds, et ayant un petit hangar peinturé en rouge à sa base.

Ce feu devrait être inscrit dans la Liste des phares et signaux de brume canadiens sous le No. 596.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos " Demande de bill privé "

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

Règle spéciale du Sénat.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b.* Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir:—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district: autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

14. And whilst such ship is so detained no person shall leave the same, nor shall communication be allowed with such vessel, without permission from the quarantine officer.

15. The quarantine officer detaining any ship as aforesaid shall immediately notify the Minister of Agriculture, stating the cause of such detention.

16. Within the meaning of these Regulations an infected port or country is a port or country where Asiatic Cholera or other epidemic disease has been communicated to one or more persons through the medium of an infected person, personal effects or otherwise. A port or country is not considered infected when a single case or a small number of cases has been imported, and the disease has not been communicated from such cases.

Hours of Inspection—Putting Back—Costs.

17. Every vessel may be inspected during any hour of the twenty-four ;

(*a.*) With the exception that in times of epidemic the Minister of Agriculture may direct that inspection shall only take place during the hours of daylight ;

(*b.*) All quarantine inspections, except those under section 46 (*a*), shall be made without any charge against the vessel.

Quarantinable Diseases.

20. The graver quarantinable diseases are : Asiatic cholera, small pox, typhus fever, yellow fever and the plague. The minor : scarlet fever, enteric , fever (typhoid), diphtheria, measles and chicken-pox ;

(*a.*) In addition to the above recital, it is the duty of every quarantine officer to satisfy himself as to the presence or absence of any other contagious or infectious disease ;

(*b.*) With respect to leprosy it is the duty of every quarantine officer, particularly on the Pacific coast, to satisfy himself as to the fact of the presence or absence of such disease among the passengers ; and in the event of any case of such disease being found, the person affected shall not be allowed to land, but must be taken back by the vessel to the place whence he or she came.

Pilots furnish Regulations.

21. It shall be the duty of every pilot to furnish the master of every vessel arriving at any port of Canada with a copy of these Regulations, under the penalty hereinafter prescribed.

Relating to Vaccination.

22. Every passenger shall be required to furnish evidence, to the satisfaction of a quarantine officer, of having been vaccinated, or having had the small-pox.

23. The production of a certificate by a ship's surgeon called "a protection card," and his testimony under oath verifying the truth of such certificate, may be taken by a quarantine officer as evidence of such vaccination and protection. Such quarantine officer shall, however, from time to time, make personal examination of holders of such certificates to satisfy himself of the manner in which they have been issued.

24. Any person not having shown satisfactory evidence of having been vaccinated, or of having had small-pox, shall be vaccinated by a quarantine officer; or in the event of refusal shall be landed at the quarantine station, subject to detention for observation, and the expense of the maintenance of such person during such detention shall be a charge against the vessel;

25. In the event of small-pox having occurred on any vessel, every person on board not showing satisfactory evidence of having been vaccinated within seven previous years, or of having had the small-pox within that period, shall be vaccinated by or under the supervision of the quarantine officer; or in the event of refusal, shall be landed at the quarantine station, subject to detention for observation, and the expense of maintenance of such person or persons during such detention shall be a charge against the vessel.

Every vessel provided with an isolated hospital for men, and another for women, on the upper deck, ventilated from above and not by the door only, may, if the quarantine officer is furnished with satisfactory evidence that such hospital accommodation has been promptly and intelligently made use of, be allowed to proceed after the landing of the sick and the disinfection of such hospital as has been used; any vessel, however, arriving with any infectious disease, without having such special isolated and ventilated hospital accommodation, or if having it, without satisfactory evidence that it has been promptly and intelligently made use of, shall be liable to be detained for disinfection at a quarantine station.

Mails at Rimouski.

28. In the case of a vessel carrying Her Majesty's mails and arriving by the St. Lawrence, clearance certificate shall be from a quarantine officer at Rimouski or Grosse Isle, and in the case of every other vessel from Grosse Isle only, unless special permission to the contrary be obtained from the Minister of Agriculture.

(*a.*) With the exception that during a time of cholera or other epidemic, the permission to a mail steamer from an infected port or country to land passengers at Rimouski may be suspended by direction of the Minister of Agriculture;

(*b.*) And, in such conditions, the mails only to be landed at Rimouski, and the vessel to proceed to Grosse Isle for inspection;

(*c.*) In the event of cholera having occurred on board of such vessel during the voyage, the outer bags containing the mail matter to be left on board the steamship for disinfection at Grosse Isle.

Disinfection of Luggage.

29. During a time of cholera or other epidemic, the luggage of immigrants or passengers by every vessel arriving at any port in Canada, whether from an infected or healthy port or country, may by direction of the Minister of Agriculture be disinfected in each case.

(*a.*) When this disinfection is carried out at a substation, subsequent to the inspection and clearance at the main station, the clearance granted by the quarantine officer shall be conditional on the landing of immigrants and their luggage for disinfection;

(*b.*) The supervising officer of such disinfection to count the immigrants as they land, and if he finds the number tallies with that marked on the clearance of the quarantine officer and has satisfactory evidence that all their luggage has been landed with them, he shall punch the clearance at the place marked for that purpose, which shall then become valid for Customs entry.

Passenger's Certificates.

Rags.

32. Rags coming from a port or country in which infectious disease prevails, may be prohibited, and the name of any port or country so infected shall, from time to time, be published in the *Canada Gazette*;

(*a.*) Rags arriving from prohibited ports at a quarantine station shall be liable to be burnt or otherwise treated on the order of the Minister of Agriculture based on a report of the quarantine officer.

New Merchandise.

33. New merchandise in general may be accepted without question.

In Times of Epidemics.

34. Passengers during a period of epidemic disease should be notified by steamship agents to dispense as far as possible with luggage that may be injured by wetting, in case of having to undergo disinfection—such as fabrics, of which the dyes are likely to run—as the owners will be compelled to assume all risks of injury.

35 Vessels during a period of epidemic disease should dispense as far as possible with woollen hangings, curtains, carpets and upholstering, substituting non-absorbing coverings.

36. Every vessel carrying cargo, and liable to be disinfected, should have provided a plain frame shaft allowing a clear inside space of 12 inches each way, placed in the main hatch, in a sailing vessel: and one in each hatch of a steamship, divided by bulkheads. The frame work in this shaft to be set before loading and to extend from the hatchway to the bottom of the vessel. This simple arrangement would receive the fumigating pipe and avoid shifting cargo.

Passengers.

37. Passengers, for the purpose of these regulations are divided into two classes, cabin and steerage. Steerage passengers are those occupying compartments other than those of first and second cabin.

Methods of Disinfection.

38. The methods of disinfection at the Quarantine Stations of Canada shall be as follow :—

(*a.*) Exposure to steam not less than 30 minutes, steam to be of the temperature of not less than 100° Centigrade (212° Fahrenheit) nor greater than 115° Centigrade (239° Fahrenheit) ;

(*b.*) Articles that would be destroyed by the above method, to be disinfected by thoroughly wetting with a solution of mercuric chloride, of one part to one thousand, or approximately one drachm to one gallon, wine measure, applied by means of a brush, or by drenching, or by immersion ; or,

(*c.*) Where sulphur dioxide is used, it is to be provided by burning not less than 3 pounds of rolled sulphur per 1,000 cubic feet of space or it is used in liquid form in the same proportionate strength, and the period of exposure to be not less than 6 hours ; or,

(*d.*) Where formaldehyde gas is used, it is to be employed of not less than 2 per cent per volume strength, the time of exposure to be not less than twelve hours. The gas may be generated by one of the following methods ;

(1) From methyl (wood) alcohol by means of special lamps, using not less than 600 grams (750 cubic centimeters, $1\frac{3}{5}$ pints) of methyl alcohol for each 25·5 cubic meters (1000 cubic feet) of space, the time of exposure to be not less than twelve hours.

Lamps used for generating formaldehyde gas from methyl alcohol should change not less than 1 liter (1·0 quarts) of the alcohol within an hour.

(2) From an aqueous solution, containing 40 per cent of the gas, known under the names of formalin, formol or formalose. The gas is best evolved from these solutions by the addition of from 10 to 30 per cent of a neutral salt, preferably calcium chloride or sodium nitrate, and heating the mixture in a special boiler. One liter of a 40 per cent solution of formaldehyde gas will evolve about 1,425 liters (50·1 cubic feet) of the gas at 20° C. (68° F.) and will be sufficient for 71 cubic meters (2,505·5 cubic feet) of space.

After the disinfection of apartments (steerage, cabin and forecastle) by formaldehyde gas, the latter should be neutralized by ammonia gas, evolved from water of ammonia by heat, or by evaporation from water of ammonia sprinkled upon the floor.

NOTE—The quantity of water of ammonia required for neutralization after each of the above named methods is as follows :—After method (1) 1 *liter* (1·01 *quarts) of water of ammonia for each* 1,000 *cubic centimeters* (1·01 *quarts) of wood alcool used ; after method* (2) $1\frac{1}{4}$ *liters* (1·26 *quarts) of water of ammonia for each liter* (1·01 *quarts) of formal in ; after method* (3), 1 *liter of water of ammonia for each* 150 *grams* (5 *ounces) of trioxy methylene.*

Formalehyde may also be employed in the ordinary steam disinfection chamber, where this is provided with a vacuum apparatus and special apparatus for generating and applying the gas. The gas should be applied in a dry state in not less than 20 per cent per volume strength, the time of exposure to be not less than one hour. Clothing, bedding, &c., thus disinfected, should be exposed *in situ* to an equal amount of ammonia gas generated by the special apparatus attached to the chamber, using 1 liter of water of ammonia to each liter of formalin ; or compressed ammonia gas may be used.

NOTE.—The special apparatus must consist of a generator, constructed of copper, for evolving formaldehyde gas from its solutions, and a similar one of iron for evolving ammonia gas from neutralization.

39. The disinfection of iron vessels shall be as follows, as may be required :—

(*a.*) *Holds*—After mechanical cleansing, the hold to be thoroughly washed with an acid solution of mercuric chloride, 1 to 800 (mercuric chloride 1 part, hydrochloric acid 2 parts, water 800 parts), applied to all surfaces by means of a hose. If danger is apprehended from the poisonous effects of the mercury deposited on the surfaces, they can be subsequently washed down with clean water. Fumigation by sulphur dioxide or by formaldehyde may also be employed ;

(*b.*) *Steerage*—The same treatment should be given the steerage as the hold, but when there is a steam pipe provided for each compartment (for the prevention of fire), steam disinfection of the steerage should be practised. The temperature in all parts of each compartment to be not less than 100° C. (212° Fahr.) ;

(*c.*) *The forecastle or apartment for crew*—After mechanical cleansing the application of mercuric chloride in the manner hereinbefore prescribed, or sulphur dioxide or formaldehyde or steam disinfection, if facilities are provided for the same, should be employed ;

(*d.*) *Officers' quarters, cabin, state rooms, &c.*—Each compartment to receive the same treatment, under the same conditions as hereinbefore specified, it being borne in mind that the decorative metal work in cabins, saloons, &c., would be injured by the use of the mercuric chloride solution, and therefore in such cases other forms of disinfection are to be used as determined by the quarantine officer.

40. The disinfection of wooden vessels shall be as follows, as may be required :—

(*a.*) Fumigation by sulphur dioxide made by burning not less than 3 pounds of rolled sulphur to each 1,000 cubic feet of space ; or by the use of liquid sulphur dioxide in the same proportionate strength ; and the period of exposure to be not less than 24 hours.

(*b.*) Or fumigation by formaldehyde as above described.

(*c.*) Washing or flushing with acid solution of mercuric chloride (1 to 800). Cabins, forecastle and other apartments to be thoroughly washed with mercuric solution.

41. In all classes of vessels all clothing, bedding, curtains, &c., to be subjected to steam for 30 minutes at from 100° C. (212° Fahr.) to 115° C. (239° Fahr.)

42. In all classes of vessels, the bilges to be first flushed with sea or river water, pumped out, and then treated with acid solution of mercuric chloride in large quantity, and allowed to remain in long contact.

Unorganized Maritime Quarantine Stations.

43. At every port at which there is no regular quarantine station, the Collector of Customs shall be the quarantine officer for the purposes of these Regulations ; and in the event of disease, such collector may for the purposes of these Regulations call in the services of a medical man, who shall, while so acting, be held to be a quarantine officer ; and every such port shall be designated an Unorganized Maritime Quarantine Station.

44. Every vessel arriving at an unorganized maritime quarantine station from an infected port, or on board of which any death from infectious disease or outbreak of infectious disease has occurred during the voyage, shall remain outside until it receives permission to enter from the quarantine officer.

45. All the Regulations applicable to regularly organized maritime quarantine stations shall also apply to every unorganized maritime quarantine station in so far as circumstances will admit, and particularly the provisions in relation to inspection, anchoring or mooring, disinfecting, customs clearance, putting back to sea before breaking bulk, questions to ship's surgeon or officers, and penalties.

46. Any collector or sub-collector of customs in his quality of quarantine officer at any unorganized maritime quarantine station in Canada, if he is informed of or has reason to suspect the presence of any of the graver quarantinable diseases recited in section 20 of these Regulations, shall order a medical inspection to be made of the vessel bringing such disease ;

(*a.*) In the event of a vessel arriving at an unorganized maritime quarantine station with quarantinable disease on board, the master shall pay a fee of $4 for each medical inspection ordered by the quarantine officer, and such fee or fees must be paid before customs clearance is granted ;

(*b.*) If no disease is found on board a vessel arriving at an unorganized maritime quarantine station and ordered to be inspected by the quarantine officer, the cost of such inspection shall not be a charge against the vessel, but will be defrayed by the Government.

(*c*.) If the disease found on board a vessel, or the history, conditions, or circumstances of a vessel be such as may seem to the collector or sub-collector of customs to be beyond the capabilities for isolation or disinfection existing at an unorganized maritime quarantine station, he shall at once report the same to the Minister of Agriculture, who may, at his discretion, order that the vessel proceed to an organized quarantine station for quarantine clearance, before being allowed to make customs entry. And in such case the expense of the transfer of the vessel to the organized maritime quarantine station shall be a charge against the vessel.

Unorganized Inland Quarantine Stations.

47. Every inland port on the frontier of Canada between the Atlantic and the Pacific Oceans, at which there is a collector or a sub-collector of customs shall for the purpose of these Regulations, be constituted an unorganized inland quarantine station.

48. Every collector or sub-collector of customs at every such inland frontier port shall be the quarantine officer.

49. (*a*.) And such quarantine officer is empowered to detain such car, carriage, vehicle, boat or thing, until such medical inspection shall have been made to his satisfaction ;

(*b*.) A medical man making such inspection by order of the quarantine officer shall, while engaged in such service, be the quarantine medical officer.

50. The fee payable to such quarantine medical officer for each such inspection shall not exceed the sum of $4, and in the event of any quarantinable disease being found, such fee shall be payable by the company or owner of the car, carriage, vehicle, boat or thing, bringing such disease.

51. The customs collector or sub-collector in his quality of quarantine officer shall, on the report of the quarantine medical officer, in a time of epidemic disease, in the event of any of the graver quarantinable diseases being found, cause the detention of the car, carriage, vehicle, boat or thing, bringing any person ill with such infectious disease until the requirements of these Regulations are in his judgment satisfied ;

(*a*.) Any such person shall not be allowed to enter Canada until in the opinion of the quarantine medical officer he or she can safely do so ;

(*b*.) Any car, carriage, vehicle, boat or thing, bringing such person to the frontier shall have the option of returning as an alternative to quarantine detention ; or

(*c*.) The customs collector or sub-collector in his quality of quarantine officer shall in his discretion, on the report of the quarantine medical office, cause the removal and isolation of such person in any car or boat, set apart for the purpose, or in any suitable building sufficiently separated from other buildings to prevent contact or infection ;

(*d*.) And such quarantine officer may cause the disinfection of the car, carriage, vehicle, boat or thing bringing such person, by means of sulphurous fumes, or any other mode of disinfection prescribed in these Regulations adapted to the circumstances of the particular case.

52. In the event of cholera or other epidemic disease prevailing in any part of the United States through which a railway crossing the frontier of Canada runs, the Governor in Council may, on an order published in the *Canada Gazette* or in an extra of the *Canada Gazette*, made on a report of the Minister of Agriculture, and where there may not happen to be at that point of the frontier any adequate quarantine arrangements and apparatus to cope with an inroad of such epidemic disease, direct the complete cessation of passenger traffic at such point ; or such restriction thereof as may, in the circumstances, be deemed advisable.

Quarantine Officers give all Necessary Orders—Prohibited from Receiving Fees or Gratuities.

53. Every quarantine officer is empowered to give any necessary order, or do any necessary act, to enforce these regulations, and it is his duty to report immediately to the Minister of Agriculture any breach or attempted breach of them.

(*a*.) No quarantine officer nor other person employed in the quarantine service of Canada shall directly or indirectly receive or take any fee or private gratuity or reward for any service rendered to any company, or owner, master, or crew, passenger, or other person at or detained in any quarantine, maritime or inland ;

(*b*.) Every person to whom the knowledge of any breach of these Regulations may come should forthwith report the same to the Minister of Agriculture.

Penalties for customs officers, pilots, masters, surgeons and officers of vessels, etc.

54. Every pilot shall be furnished with printed copies of these Regulations, one of which it shall be his duty to hand to the master of every vessel coming from a port outside of Canada, immediately on boarding such vessel, under a penalty of $50.

JOHN J. McGEE,

—

REGULATIONS governing the Administration of Dominion Lands in the Provisional District of the Yukon.

1. All applications for the purchase of land received by the Crown Timber and Land Agent shall, before being acted upon, be submitted to the Commissioner of the Yukon Territory who is empowered to dispose of any public lands by sale at a price not less than ten dollars per acre, payable in cash at the time of sale, and the maximum area so sold to the same applicant in the same locality shall not exceed forty acres. Such sale shall be subject to the reservation to the Crown of all minerals which may be found to exist within, upon or under such lands, together with full power to work the same, and for this purpose to enter upon and use and occupy the said lands or so much thereof and to such extent as may be necessary for the effectual working of such minerals.

2. If at any time subsequent to the date of sale any land so sold should be shown to be of value as a town site, and if the owner thereof decides to survey it into town lots, or if the same within ten years from the date of sale is used or occupied as a town site by the residence thereon upon a tract not exceeding one mile square of two hundred persons or upwards, then it is a condition of the original sale that the Government of Canada shall own absolutely for its own use or sale, one-third of the blocks of lots in such town site, that is to say, the owner will hold two blocks and the Government one block in turn on an arrangement to be approved by the Commissioner of the District, and the sale of such Government Blocks shall be by public auction at such time as may be determined by the Commissioner.

3. The Commissioner of the Territory is empowered and instructed to locate town sites where in his opinion it is likely the business of the locality may require them, and shall particularly at once proceed to locate such town sites at the following places :—Dawson City, Fort Selkirk or thereabouts, the Mouth of the Stewart River, as well as other places as aforesaid. The area of such sites shall be of such dimensions as the Commissioner of the Territory may deem advisable and shall be divided into lots of 50

feet frontage by 120 feet in depth, with streets 66 feet in width, unless there be circumstances which prevent the surveying of the lots and streets to the size and width named, in which case the Commissioner may alter these regulations to suit the necessities of the case.

5. No land shall be sold within a distance of one hundred feet of the water's edge of a navigable steam.

The notice advertising the sale shall fix an upset price for the lots, which price shall be graded according to the location of the lots.

8. All sale of lots shall be on the following terms, namely :—One-third of the purchase price to be paid in cash at the time of sale, and the balance in two equal payments at six and twelve months respectively after the date of the sale, together with interest upon the unpaid balance at the rate of six per cent per annum.

9. The Commissioner shall have the power, when directing the survey of a town site, to reserve a reasonable number of lots as sites for market places, jails, court-houses, places of public worship, and squares. The Commissioner is also empowered to set apart sufficient blocks of land to be used for burying grounds.

10. All applications for coal lands shall be made to the Crown Timber and Land Agent who will be empowered to sell such lands, subject to the approval of the Commissioner, at forty dollars per acre cash if the coal is anthracite, and twenty dollars per acre cash for any other class of coal. The sale of such lands to be subject to the other conditions imposed in the sale of other public lands, with reference to their maintenance or town site purposes.

11. Licenses and permits for hay and grazing lands shall be granted by the Crown Timber and Land Agent subject to the general authorization of the Commissioner and the regulations of the Department in that behalf.

12. Where land is deemed to be especially valuable the Minister may authorize the Commissioner to have the same surveyed into blocks of such size as may be thought advisable and sold by public auction. 10–4

ON a report, dated 28th June, 1898, from the Minister of the Interior, stating that applications have been received at the Department of the Interior to prospect for Petroleum on lands in Southern Alberta, North-West Territories.

The Minister recommends, as it is most desirable in the public interest that the question as to whether petroleum is to be found in paying quantities in the North-West Territories should be ascertained, that he be authorized to reserve for an applicant for a period of six months an area not exceeding 640 acres of land to prospect thereon for petroleum, and that if oil is found in paying quantities to sell the land to the applicant at the rate of one dollar per acre, with a provision that a royalty of two and one-half per cent upon the sales of the petroleum be paid to the Crown.

The Minister further recommends that the authority asked for be confined to lands situated south of the Canadian Pacific Railway in the District of Alberta.

The Committee submit the above recommendations for Your Excellency's approval.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Wednesday, the 3rd day of August, 1898.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to approve the annexed regulations for the disposal of the right to divert and use the water from any stream or lake, and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Yukon Territory, and the said regulations are hereby approved accordingly.

His Excellency is further pleased to order that the said annexed regulations shall and the same do hereby form part of the regulations governing placer mining in the Provisional District of Yukon established by the Governor in Council on the 18th January, 1898, and of the regulations for the disposal of quartz mining claims in the said District as made by the Governor in Council on the 21st March, 1898.

JOHN J. McGEE,
Clerk of the Privy Council.

REGULATIONS for the disposal of the right to divert and use the water from any stream or lake and the right of way through and entry upon any mining ground for the purpose of constructing ditches and flumes to convey such water for mining purposes in the Provisional District of Yukon.

1. A Mining Recorder may, upon application hereinafter mentioned, grant to any person or persons, for any term not exceeding five years, or in special cases for such length of time as he may determine, the right to divert and use the water from any stream or lake, at any particular part thereof, and the right of way through and entry upon any mining ground, for the purpose of constructing ditches and flumes to convey such water ; provided always, that every such grant shall be deemed as appurtenant to the mining claim in respect of which it has been obtained, or is required in connection with reduction works, sampling works, stamp mills, concentrating works, or other works connected with mining operations ; and whenever the claim shall have been worked out or abandoned, or whenever the occasion for the use of such water upon the claim or in connection with such works shall have permanently ceased, the grant shall cease and determine.

2. Twenty days' notice of the application shall be given, in accordance with form M in the schedule to these regulations, by affixing the same to a post planted in some conspicuous part of the ground, and a copy thereof conspicuously posted upon the inner walls of the Mining Recorder's Office, and any person may protest within such twenty days, but not afterwards, against such application being wholly or partially granted.

3. Every application for a grant of water exceeding 200 inches shall be accompanied by a deposit of $50, which shall be refunded in case the application is refused, but not otherwise.

4. Every such application shall state the names of the applicants, the name or description of the stream or lake to be diverted, the quantity of water to be taken, the locality for its distribution, the price (if any) to be charged for the use of such water, and the time necessary for the completion of the ditch. The grant shall be in the form N in the schedule hereto.

5. Every grant of a water privilege on occupied creeks shall be subject to the rights of such miners as shall, at the time of such grant, be working on the stream above or below the ditch head, and of any other persons lawfully using such water for any purpose whatsoever.

6. If after the grant has been made, any miner or miners locate and *bona fide* work any mining claim below the ditch head, on any stream so diverted, he or they collectively shall be entitled to 40 inches of water if 200 inches be diverted, and 60 inches if 300 inches be diverted, and no more, except upon paying to the owner of the ditch, and all other persons interested therein, compensation equal to the amount of damage sustained by the diversion of such extra quantity of water as may be required ; and in computing such damage, the loss sustained by any claims using water therefrom, and all other reasonable losses shall be considered.

7. No person shall be entitled to a grant of the water of any stream for the purpose of selling the water to present or future claim holders on any part of such stream. The Mining Recorder may, however, grant such privilege as he may deem just, when such ditch is intended to work bench or hill claims fronting on any such stream, provided that the rights of miners then using the water so applied for be protected.

8. The Mining Recorder may, if he thinks such action desirable, obtain the enlargement or alterations of any ditch, and fix the compensation (if any) to be paid by parties to be benefited thereby.

9. Every owner of a ditch or water privilege shall take all reasonable means for utilizing the water granted to him ; and, if he wilfully take and waste any unreasonable quantity of water, the Mining Recorder may, if such offence be persisted in, declare all rights to the water forfeited.

10. The owner of any ditch or water privilege may distribute the water to such persons and on such terms as he may deem advisable, within the limits mentioned in this grant ; provided always, that such owner shall be bound to supply water to all miners who make application therefor in a fair proportion, and shall not demand more from one person than from another, except where the difficulty of supply is enhanced.

11. Any person desiring to bridge any stream, claim or other place, for any purpose, or to mine under or through any ditch or flume, or to carry water through or over any land already occupied, may, in proper cases, do so with the written sanction of the Mining

Recorder. In all such cases the right of the party first in possession shall prevail so as to entitle him to compensation if the same be just.

12. In measuring water in any ditch or sluice, the following rules shall be observed:—The water taken into a ditch or sluice shall be measured at the ditch or sluice head; no water shall be taken into a ditch or sluice, except in a trough placed horizontally at the place at which the water enters it, and which trough shall be extended two feet beyond the orifice for the discharge of the water; one inch of water shall mean the quantity that will pass through a rectangular orifice two inches high by half an inch wide, with a constant head of seven inches above the upper side of the orifice.

13. Whenever it shall be intended, in forming or upholding any ditch, to enter upon and occupy any part of an entered claim, or to dig or loosen any earth or rock, within four feet of any ditch not belonging solely to the registered owner of such claim, three days' notice, in writing, of such intention shall be given before entering or approaching within four feet of such other property

14. Any person engaged in the construction of any road or work may, with the sanction of the Mining Recorder, cross, divert, or otherwise interfere with any ditch, water privilege or other mining rights whatsoever, for such period as the Mining Recorder shall approve.

15. The Mining Recorder shall order what compensation for every such damage or interference shall be paid, and when, and to whom, and whether any and what works, damaged or affected by such interference as aforesaid, shall be replaced by flumes or otherwise repaired by the person or persons causing any such damage.

16. The owners of any ditch, water privilege, or mining right shall, at their own expense, construct, secure and maintain all culverts necessary for the passage of waste and superfluous water flowing through or over any such ditch, water privilege or right.

17. The owners of any ditch or water privilege shall construct and secure the same in a proper and substantial manner, and maintain the same in good repair, to the satisfaction of the Mining Recorder, and so that no damage shall occur to any road or work in its vicinity from any part of the works of such ditch, water privilege or right.

18. The owners of any ditch, water privilege or right, shall be liable, and shall make good in such manner as the Mining Recorder shall determine, all damages which may be occasioned by or through any part of the works of such ditch, water privilege, or right, breaking or being imperfect.

19. Nothing herein contained shall be construed to limit the right of the Commissioner in Council to lay out from time to time public roads across, through, along, or under any ditch, water privilege or mining right, without compensation.

20. The Commissioner of the Yukon Territory may alter or amend the foregoing regulations as he may deem advisable, and such alterations or amendments shall be and remain in force until disallowed by the Minister of the Interior.

NOTICE TO MARINERS.

No. 47 of 1898.

DOMINION OF CANADA—ONTARIO.

ENTRANCE TO OWEN SOUND HARBOUR.

Removal of old pier.—The cribwork pier on which the front range light at the entrance to Owen Sound Harbour, Georgian Bay, Ontario, originally stood, on the west side of the channel, 900 feet N. 29° 30' E. from the outer extremity of the west breakwater pier, has been removed by the Government dredge, in the course of work in progress in widening the entrance to the harbour. This is the pier referred to in Notice to Mariners No. 61 of 1897.

Buoyage of channel.—It is understood that the edges of the dredged channel leading from the deep water of Owen Sound to the opening between the Government breakwaters have been well marked by spar buoys, established by the Corporation of the Town of Owen Sound. There is said to be two distinct rows of buoys, red on the starboard and black on the port side of the channel, but no particulars have reached this Department respecting their number and positions.

NOTICE TO MARINERS.

No. 48 of 1898.

DOMINION OF CANADA.—NOVA SCOTIA.

I.—BUOY ON JERSEYMAN ISLAND SHOAL.

A conical steel buoy, painted red, has been established by the Government of Canada off the outer end of the shoal extending westerly from Jerseyman Island, on the southern side of Crid Pass, entrance to Arichat Harbour, South coast of Cape Breton.

Lat.	N.	45°	29'	85"
Long.	W.	61°	4'	0"

The buoy is moored in 6 fathoms water. From it Jerseyman island light bears E. by N., distant ¾ mile.

This notice affects Admiralty charts Nos. 2342 and 2756.

II.—CHANGE IN CHETICAMP LIGHTHOUSE.

In 1896 a change was made in the lighthouse building near the south-west end of Cheticamp Island, on the Gulf of St. Lawrence coast of Cape Breton Island, which somewhat altered its appearance and slightly changed the position of the light. The tower, which rose from the roof on the western face of the low white wooden dwelling, was removed, and a new tower was built on the north side of the dwelling and connected therewith by a short covered passage way.

The new tower is a square wooden building with sloping sides, painted white, surmounted by a polygonal iron lantern painted red. The height from the base of the building to the vane on the lantern is 36 feet.

The light remains as heretofore, a revolving white catoptric light, the flashes attaining their greatest brilliancy every 45 seconds. It is elevated 149 feet above high water mark, and should be visible 18 miles from all points of approach by water except where shut in by the high land of Cheticamp Island.

This notice affects Canadian List of Lights and Fog Signals, No. 312.

III.—ROCK NORTHWARD OF COAL POINT.

Information, dated 21st June, 1898, has been received from Commander H. E. Purey-Cust, H.M.S. "Rambler," that the rock locally known as Davis head shoal, on which the S.S. "Ailsa Craig" struck in 1897, lies N. ¾ W. 8 cables from Coal point, Indian bay, Cape Breton island.

Lat.	N.	46°	15'	30"
Long.	W.	60°	2'	10"

This rock is of small extent, with 12 feet least water on it ; there is deeper water between the rock and the shore. As far as the examination showed, this is the outside danger, but vessels should give Coal point, as well as the other points in this locality, a berth of one mile in passing.

This notice affects Admiralty charts Nos. 232a and 2727, and St. Lawrence Pilot, vol. ii., 1895, page 296.

Referring to Notice to Mariners No. 61 of 1895, further notice is hereby given that the Government breakwater at Andersons Hollow, Chignecto Channel, County of Albert, New Brunswick, has been repaired and a new lighthouse tower has been erected on it near its outer end.

Lat.	N.	45°	37'	30"
Long.	W.	64°	49'	45"

The light is a fixed red light elevated 23 feet above high water mark, and should be visible 6 miles from all points of approach by water. The illuminating apparatus is dioptric of the 7th order.

The tower is an enclosed wooden building, square in plan, with sloping sides, surmounted by a square wooden lantern, and is painted white throughout. It is 24 feet high from the pier to the vane on the lantern.

This notice affects Admiralty charts Nos. 353, 2516 and 2617, and Canadian List of Lights and Fog Signals No. 77.

NOTICE TO MARINERS.

No. 50 of 1898.

NEWFOUNDLAND.

I.—IMPROVEMENT OF LIGHT AND ESTABLISHMENTS OF FOG SIGNAL ON CHANNEL HEAD.

The Acting Minister of Marine and Fisheries of the Colony of Newfoundland has given notice to mariners that the light and fog signal on Channel head, referred to in Canadian Notice to Mariners No. 4 of 1898, part II, are completed and were to be put in operation on the 25th July last, as follows :—

The fixed red light heretofore shown from a wooden tower has been replaced by a fixed red fourth order dioptric light, exhibited from a circular iron tower, painted white. The focal plane of the light is 101⅓ feet above water, and 29⅓ feet above the base of the tower, and the light should be visible 15½ miles from all points seaward.

A fog signal structure has been established 60 feet south of the light tower, from which a 4-ounce cotton-powder cartridge will be fired automatically every 8 minutes.

The fog signal structure, lighthouse and keeper's dwelling are connected by covered ways, the side of which are painted white, roof black. A red brick magazine stands 30 feet north-east from the light tower.

II.—BUOYAGE OF BALDWIN ROCKS.

Further, that to indicate the position of Baldwin rocks, entrance to Port aux Basques three spar buoys have been moored, one on the Western Baldwin, in 3½ fathoms, painted black and white in horizontal bands ; one on the Eastern Baldwin, in 3½ fathoms, painted red ; one on a shoal lying between the Eastern Baldwin and Road island, in 3½ fathoms, painted white " luminous " paint.

III.—RANGE LIGHTS AT PORT AUX BASQUES.

Further, that the proposed range lights to mark the channel between Baldwin rock, entrance to Port aux Basques were to be put in operation on the 28th July last, as follows :—

Front light.—An occulting white light, giving equal periods of light and darkness of 1½ seconds' duration, elevated 22½ feet above water. The structure is erected on the extreme south-west point of Road island and is a square pyramidal tower, surmounted by a square lantern, with a single window, and is painted white.

Rear light.—An occulting white light, giving equal periods of light and darkness of 1 seconds' duration, elevated 81 feet above water. The structure, 15 feet high from base to window, is similar to the front range building, and stands on the mainland 490 yards N. W. by N. ¼ N. from the front light.

These notices affect Admiralty charts Nos. 232*a*, 302 and 2828.

IV.—SHOALS BETWEEN SNAP ROCK AND IRELAND ROCKS.

Information dated 3rd July, 1898, has been received from Staff Commander W. Tooker, of the surveying vessel *Gulnare*, that an examination confirmed the existence of shoals reported between Snap rock and Ireland rocks in the approach to Notre Dame Bay, in the east coast of Newfoundland, the details of which are as follows :—

Cromwell ledge is about ¾ mile in extent, with irregular rocky bottom ; the least depth ascertained was 6 fathoms at low water springs. Two patches with this depth were found (North *true*), N.E. by N. *mag.* ½ mile apart, the approximate position of the southern 6-fathom patch being latitude N. 49° 50' 00", longitude W. 53° 51' 00".

Jacobs ledge is a patch of small extent with 5½ fathoms on it, lying about 1½ miles easward of Ireland rocks, in approximately latitude N. 49° 52' 10", longitude W. 53° 59' 40".

During bad weather these shoals break heavily.

It is considered that the shoals formerly reported are identical with these, but the bottom in this locality is so foul and irregular that it is quite possible that other rocks may exist.

This notice affects Admiralty charts Nos. 293 and 232*b*.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 23rd August, 1898.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

NOTICE TO MARINERS.

No. 43 of 1898.

DOMINION OF CANADA—QUEBEC.

I.—CHANGES IN AIDS TO NAVIGATION IN RIVER SAGUENAY.

The following changes have been made in aids to navigation in the approach to Chicoutimi, River Saguenay, Province of Quebec :—

1. The red buoy marking the outer edge of the sand flats, Anse au Foin, on the north side of the channel, has been moved 2,640 ft. S. 50° E. to the outermost and most dangerous extremity of the shoal.

2. A black can buoy has been moored in 12 feet water on the south side of the channel, in the new alignment of the Poste St. Martin range lights, to better mark the curve between the alignments of the Poste St. Martin range lights and the River Valin range lights.

3. The front range light at Poste St. Martin has been moved 14½ feet south from its former position so as to throw the line of range 1° 5' southward.

The new alignment leads through the middle of the deep water channel clear of the flats off Anse au Foin and clear of the east extremity of the Batture aux Loups-Marins.

4. The checkered buoy moored in the middle of the crossing marked by the River Valin range lights, being a starboard buoy, has been painted red.

5. The red can buoy in the middle of the alignment marked by River Caribou range lights has been moved 500 feet S. 64° E. to mark a 9-foot spot.

6. A black spar buoy has been moored on the south side at the River Caribou curve to show the limit of the channel to the southward at that point.

The following bearings and distances between the lights in this part of the channel are taken from a survey made in 1897, under the direction of the Department of Public Works, by Mr. F. W. Cowie, assistant engineer :—

From Poste St. Martin front light, in its new position, River Valin front light bears N. 3° 30' E., distant 6,530 ft., and Poste St. Martin back light bears N. 52° 45' W., distant 830 ft.

From River Valin front light, Savards front light bears N. 71° 30' W., distant 5,740 ft., and River Valin back range light bears N. 25° W., distant 710 ft.

From Savards front light, River Caribou front light bears S. 79° 30' W., distant 3,145 ft., and Savards back light bears N. 48° W., distant 490 ft.

From River Caribou front light, River du Moulin front light bears S. 44° W., distant 7,385 ft., and River Caribou back light bears N. 62° 30' W., distant 720 ft.

From River du Moulin front light Chicoutimi wharf light bears N. 82° 15' W. distant 6,945 feet, and River du Moulin back light bears S. 55° 30' W. distant 400 ft.

The following buoys are maintained by the Government of Canada in the channel between Anse au Foin and Chicoutimi :

This notice affects Admiralty Chart No. 1370, St. Lawrence Pilot, 1894, vol. 1, pages 328 to 336, and Canadian List of Lights and Fog Signals, Nos. 582 to 594.

II.—LIGHTS ON LAKE ST. JOHN.

1. No lights are now maintained at the mouth of the River Metabetchouan, or on Snake Island, in Lake St. John, and these lights Nos. 597 and 600 should be dropped from the Canadian List of Lights and Fog Signals.

2. In the month of June last, the range lights in Roberval Village were re-established and made electric lights. The front light stands on the beach at high water mark. It consists of an incandescent electric light enclosed in a square lantern and strengthened in the line of range by a reflector. It is shown from the top of a pole 16 feet high and the light is 15 feet above high water mark.

The back range pole stands 95 feet back from the front one ; it is 25 feet high, and the light, which is similar to the front one, is 30 feet above high water mark. The lights should be visible 5 miles, and are intended to lead vessels through the channel up to Roberval wharf.

3. A light has been established on the extremity of Pointe Bleue. It is a fixed white light, elevated 28 feet above high water mark, and should be visible 5 miles from all points of approach by water. It is

shown from a lantern with pressed lens, hoisted on a white pole 25 feet high, having a small shed painted red at its base.

This light should be entered in the Canadian List of Lights and Fog Signals under the No. 596.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.
Department of Marine and Fisheries,
Ottawa, Canada, 30th June, 1898. 9–3

NOTICE TO MARINERS.

No. 44 of 1898.

DOMINION OF CANADA—BRITISH COLUMBIA.

I.—Fishing Light on Garry Point.

A light, established by the Department of Marine and Fisheries on Garry Point, at the mouth of the main channel of the Fraser River, British Columbia, was put in operation on the 24th July last.

Lat. N. 49° 7' 18"
Long. W. 123° 11' 12"

The light is a fixed red light, shown from an anchor lens lantern standing on the platform of the tide gauge, which is supported on pile work. The light is elevated 22 feet above high water mark, and should be visible 6 miles from all points of approach by water. The illuminating apparatus is dioptric of the 7th order.

This light is intended for the benefit of light draft fishing boats which can cross the Sand heads at high tide. In consequence of the turns in the channel, it will be impossible to use it as a guide in the main channel through the Sand heads.

This notice affects Admiralty charts Nos. 579, 1,917 and 2,689, and the substance of it should be entered in the Canadian list of lights and fog signals under the number 1182.

II.—Change in position of Sand heads bell buoy.

In consequence of a change in the outer end of the navigable channel through the Sand heads, at the mouth of the Fraser river, it has been found necessary to remove the bell buoy which marks the point where the channel reaches deep water of the Gulf of Georgia from its former station and to moor it in 17 fathoms in a new position distant 2,550 feet S. S. E. from the old one.

Lat. N. 49° 6' 55"
Long. W. 123° 18' 18"

The following sextant angles were taken from the new position of the bell buoy:

Former position of Buoy	0°	
Point Grey	5°	56'
No. 1 black buoy	55°	0'
Fraser river lighthouse	89°	30'
Beacon nearest lighthouse	25°	0'

From the bell buoy the first black buoy bears N. E. ¾ N., distant 1,350 feet.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689; British Columbia pilot, 1888, page 133; and Canadian list of lights and fog signals, No. 1181.

III.—Discontinuance of North Sand head black beacon.

The black beacon of pilework, heretofore maintained on the North Sand head, near the mouths of the Fraser river, has been washed away, and as it had become useless for purposes of navigation, owing to the silting up of the former entrance channel it will not be replaced.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689.

IV.—Additional particulars respecting range lights on Yellow Island.

In part I of Notice to mariners No. 38 of 1898, some particulars respecting the new range lights and buildings on Yellow island were omitted.

The towers are enclosed wooden buildings, square in plan, with sloping sides, surmounted by square wooden lanterns, and are painted entirely in white. The back building is 28 feet in height over all, the front one 20 feet high.

The front range light is elevated 57 feet above high water mark and should be visible 12 miles in, and over a small arc on each side of, the line of range. The illuminating apparatus in the back tower, which is also the main lighthouse, is dioptric of the 7th order. The illuminating apparatus in the front range tower is catoptric.

In consequence of the short distance obtainable between the range lights, and the long distance in the alignment to the Reef buoy, it is important to keep the lights very closely in alignment until the Reef buoy has been passed.

The lantern and upper part of the large lighthouse tower previously used have been razed, and the dwelling roof has been continued over the tower portion, converting the whole building into a dwelling house.

This notice affects Admiralty charts Nos. 580 and 1917, British Columbia Pilot, 1888, pages 156 and 157, and Canadian list of lights and fog signals Nos. 1192 and 1193.

V.—Beacon on Beacon Rock, Nanaimo Harbour.

Part II of Notice to Mariners No. 38 of 1898 does not make it clear that the stone beacon on Beacon rock, in Nanaimo harbour, has been re-erected. This is however the case. The new beacon was completed in June last and the platform buoy which marked the rock pending the erection of the beacon has been removed.

The new beacon is in the form of the frustum of a cone, 9 feet in diameter at the rock, 5 feet in diameter at the top, and 15 feet high, surmounted by a pole carrying a spherical topmark.

UNITED STATES OF AMERICA.

RE-ESTABLISHMENT OF AIDS TO NAVIGATION.

Notices have been published by the Lighthouse Board of the United States of America to the effect that the lights in the approaches to New York, Cape Fear river and Mobile bay respectively, have been re-established.

It is probable that all channels on the coasts of the United States have been cleared of mines, and that all aids to navigation have been re-established, and that the conditions affecting commerce with United States ports are now on the footing on which they existed previous to the declaration of war with Spain. No further notice of the re-establishment of United States aids to navigation in this connection will consequently be given by this government.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du paragraphe "*h*" de l'article 90 de "l'Acte des terres fédérales," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements ci-joints soient et ils sont par le présent confirmés et déclarés être les règlements qui régissent les terres fédérales dans le territoire du Yukon.

JOHN J. McGEE,
Greffier du Conseil privé.

—

RÈGLEMENTS pour l'administration des terres fédérales dans le district provisoire du Yukon.

1. Toutes demandes d'achat de terre reçues par l'agent des bois et des terres de la Couronne, avant de leur donner suite, seront soumises au commissaire du territoire du Yukon qui est autorisé à disposer de toutes terres publiques par la vente à un prix d'au moins dix piastres par acre, payables comptant lors de la vente, et l'étendue maximum ainsi vendue à la même personne dans la même localité n'excèdera pas quarante acres. Cette vente sera sujette à la réserve à la Couronne de tous les minéraux qui se trouveront dans, sur ou au dessous de ces terres, avec plein pouvoir de les exploiter, et à cette fin d'entrer sur et occuper les dites terres ou telles parties d'icelles et sur telle étendue qui sera nécessaire pour exploiter effectivement ces minéraux.

2. Si en aucun temps après la date de la vente, une terre ainsi vendue se trouve de valeur comme emplacement de ville, et si le propriétaire d'icelle se décide de l'arpenter en lots de ville, ou si dans le cours de dix ans à compter de la date de la vente cette terre est utilisée ou occupée comme emplacement de ville par le fait que deux cents personnes ou plus résident sur icelle dans un rayon d'un mille carré, alors la condition de la vente primitive est que le gouvernement du Canada possèdera absolument pour son propre usage ou vente, un tiers des blocs ou lots dans cet emplacement de ville, c'est-à-dire le propriétaire possèdera deux blocs et le gouvernement un bloc alternativement d'après un arrangement que devra approuver le commissaire du district, et la vente de ces blocs du gouvernement aura lieu à l'enchère publique à l'époque que fixera le commissaire.

3. Le commissaire du territoire est autorisé et chargé de localiser des emplacements de ville aux endroits qu'ils jugera les plus convenables pour le commerce, et il commencera immédiatement à localiser ces emplacement de ville aux endroits suivants :—Dawson-City, Fort Selkirk ou les environs, l'embouchure de la rivière Stewart, ainsi qu'à d'autres endroits comme susdit. Ces emplacements auront les dimensions que le commissaire du territoire jugera convenable, et seront divisés en lots de 50 pieds de front sur 120 pieds de profondeur, avec des rues de 66 pieds de largeur, à moins que certaines circonstances n'empêchent l'arpentage des lots et rues de la dimension nommée, auquel cas le commissaire pourra changer les présents règlements de manière à faire face aux nécessités du cas.

4. A tous les points importants, il sera réservé pour les fins publiques 40 acres, ou plus, si la chose est jugée nécessaire.

5. Aucune terre ne sera vendue plus près que cent pieds du bord d'un cours d'eau navigable.

6. La première vente des lots sera faite à l'enchère publique, et aura lieu sur l'emplacement de ville après qu'avis de cette vente aura été publié dans un ou des papiers-nouvelles publiés dans le district du Yukon, et dans tels autres papiers-nouvelles que le ministre de l'Intérieur décidera, pendant au moins trente jours. L'avis annonçant la vente fixera une mise à l'enchère pour les lots, et ce prix sera gradué selon la situation des lots.

7. Après la première vente à l'enchère, le commissaire pourra faire d'autres ventes à l'enchère à son choix. Les lots non vendus à l'enchère pourront être vendus privément à des prix fixés par le commissaire et approuvés par le ministre de l'Intérieur.

8. Toute vente de lots le sera aux conditions suivantes :—Un tiers du prix d'achat sera payé comptant au temps de la vente, et la balance en deux paiements égaux six et douze mois respectivement après la date de la vente, avec intérêt au taux de six pour cent sur la balance qui restera due.

9. Le commissaire aura le pouvoir en faisant faire l'arpentage d'un emplacement de ville, de réserver un nombre raisonnable de lots comme emplacements pour places de marché, prisons, palais de justice, endroits de culte public, et carrés. Le commissaire est aussi autorisé à mettre à part des blocs de terrain pour servir de cimetières.

10. Toutes demandes pour terrains houillers seront adressées à l'agent des bois et terres de la Couronne, qui sera autorisé à vendre ces terrains, avec l'approbation du commissaire, à quarante piastres l'acre au comptant si la houille est anthracite, et vingt piastres l'acre au comptant pour toute autre espèce de houille. La vente de ces terrains sera soumise aux autres conditions imposées dans la vente des autres terres publiques, relativement à leur entretien pour des fins d'emplacements de ville.

11. Les licences et permis pour des terres à foin ou à pâturage seront accordés par l'agent des bois et terres de la couronne, avec l'autorisation générale du commissaire et conformément aux règlements du département à cet égard.

12. Là où la terre est réputée d'une valeur spéciale le Ministre pourra autoriser le commissaire à la faire arpenter en blocs de dimensions jugées convenables, et les vendre à l'enchère publique. 11-4

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plait à Son Excellence, en vertu des dispositions du chapitre 6 de l'acte 61 Victoria, intitulé “Acte du Territoire du Yukon,” et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'émettre et de donner les instructions suivantes, et elles sont par le présent émises et données comme instructions pour l'administration du gouvernement du territoire du Yukon par le commissaire ou le commissaire en conseil du dit territoire :—

Des réunions du conseil auront lieu aux époques et auront la durée qui seront prescrites par des ordonnances du commissaire en conseil, et en sus des réunions régulières du conseil, le commissaire pourra en tout temps convoquer le conseil en en donnant avis aux membres du conseil, selon qu'il le jugera nécessaire. Le lieu de réunion du conseil sera fixé par le commissaire de temps à autre.

Toutes les ordonnances passées par le commissaire en conseil seront, avant de devenir exécutoires, signées par le commissaire, qui est autorisé à réserver toute ordonnance qu'il considérera n'être pas dans l'intérêt du public d'approuver.

Chaque fois que le commissaire réservera une ordonnance il en transmettra, à la première occasion, une copie au ministre de l'Intérieur, et en même temps il énoncera ses raisons pour ne pas l'approuver, après quoi l'ordonnance et l'explication du commissaire seront soumises au Gouverneur général en conseil, pour que ce dernier en dispose selon qu'il le jugera convenable.

Les nominations à des charges créées par ordonnances du commissaire en conseil et les autres nominations de fonctionnaires qui sont payés à même les revenus locaux du territoire, ou au moyen d'honoraires exigés en conformité de ces ordonnances ou autrement, seront dans tous les cas faites par le commissaire.

Sous un délai raisonnable après la date où un fonctionnaire est nommé, le commissaire fera communiquer le fait de cette nomination au ministre de l'Intérieur.

Une nomination faite par le commissaire aura force et effet jusqu'à ce qu'elle soit désapprouvée par le Gouverneur en conseil. Si la nomination d'un fonctionnaire est désapprouvée par le Gouverneur en conseil, cette nomination sera réputée être annulée depuis le jour où le commissaire aura reçu avis de cette désapprobation.

Tous les revenus provenant de sources locales en vertu d'ordonnances du commissaire en conseil, seront administrés en conformité d'ordonnances passées à leur sujet par le commissaire en conseil. Ces revenus seront déposés au crédit conjoint du commissaire et du contrôleur, et ils ne seront déboursés que sur des comptes appuyés de pièces justificatives, au moyen d'un chèque du contrôleur contresigné par le commissaire.

Toutes pièces justificatives pour la dépense de ces revenus seront transmises à l'auditeur général du Canada à la fin de chaque trimestre, accompagnées d'un état financier signé par le contrôleur et contresigné par le commissaire.

Greffier du Conseil privé.

RÈGLEMENTS DE QUARANTAINE.

Par arrêté en conseil daté le 18 d'août 1898, en vertu du chapitre 68, Statuts revisés, intitulé: "Acte concernant la quarantaine."

Tout le service quarantenaire du Canada est sous le contrôle du Ministre de l'Agriculture.

Il y a un officier médical comme Surintendant général des Quarantaines Canadiennes.

Sur la côte du Pacifique il y a un Surintendant médical des quarantaines pour la Colombie-Britannique.

Chaque station de quarantaine est sous la charge immédiate d'un officier médical de quarantaine spécialement nommé.

A chaque station de quarantaine maritime non organisée ou station de quarantaine de l'intérieur, le percepteur des douanes de l'endroit est l'officier de quarantaine pour les fins des présents règlements.

Stations de quarantaine.

Les stations de quarantaine du Canada, sont :—

1. Sur la côte de l'Atlantique,—

(*a.*) Grosse-Ile, dans le fleuve Saint-Laurent, avec Rimouski, la levée Louise et le quai du Grand-Tronc à Lévis, comme stations auxiliaires, province de Québec ;

(*b.*) Halifax, le havre et l'île Lawlor, dans la province de la Nouvelle-Ecosse ;

(*c.*) Saint-Jean, le havre et l'île aux Perdrix, dans la province du Nouveau-Brunswick ;

(*d.*) Sydney, Cap-Breton, dans la province de la Nouvelle-Ecosse ;

(*e.*) Chatham, dans la province du Nouveau-Brunswick ;

(*f.*) Charlottetown, dans la province de l'Ile du Prince-Edouard.

2. Sur la côte du Pacifique,—

(*a.*) William Head, y compris Albert Head, dans le détroit de Fuca, province de la Colombie-Britannique, et comprenant aussi le port de Victoria comme station auxiliaire ; et

(*b.*) Vancouver.

3. Tout autre port, sur les deux côtes, chaque tel port étant désigné comme Station de quarantaine maritime non organisée.

4. Et tout port douanier intérieur sur la frontière canadienne, entre les océans Pacifique et Atlantique, chaque tel port étant désigné comme Station de quarantaine intérieure non organisée.

5. Tout officier de quarantaine à une station de quarantaine en Canada, et tout percepteur des douanes en sa capacité d'officier de quarantaine, seront, pour les fins des présents règlements, juges de paix en vertu des dispositions de l'article 5 de l'*Acte concernant la quarantaine*, chap. 68 des Statuts revisés.

Dispositions générales.

6. Tout navire arrivant d'un port en dehors du Canada à une station de quarantaine organisée sera inspecté par un officier de quarantaine dûment nommé, à l'endroit dûment fixé pour cette inspection, et il ne lui sera pas permis de faire une déclaration à la douane à aucun port du Canada tant qu'il n'aura pas reçu une patente de santé.

(*a.*) Si un navire venant d'un port infecté et en destination d'un port en Canada qui est une station de quarantaine non organisée, a à passer une station de quarantaine organisée, il lui faudra arrêter à cette dernière station avant de continuer sa route.

7. Il ne sera permis à aucune personne de débarquer d'un navire tant que cette personne n'aura pas été déclarée par un officier de quarantaine exempte de maladie contagieuse, ni tant que cet officier ne sera pas satisfait que ce débarquement peut s'effectuer sans danger pour la salubrité publique.

8. Tout navire venant d'un port en dehors du Canada, et ayant besoin d'une inspection quarantenaire, devra, en arrivant à un port quelconque du Canada hisser un pavillon jaune à l'avant comme signal distinct de quarantaine, de façon à informer l'officier de quarantaine que ses services sont requis, et tout navire arrivant la nuit exhibera un feu rouge à l'avant comme tel signal.

9. Les cabotiers de Terreneuve et de ports des Etats-Unis contigus au Canada, et exempts de maladie contagieuse pourront, de temps à autre, être exemptés des présents règlements par ordre du Ministre de l'Agriculture.

10. Tout navire de guerre de Sa Majesté ou tout transport portant des troupes de Sa Majesté, accompagné d'un médecin, et n'ayant pas de maladie à bord, est exempt de l'inspection et de la détention quarantenaires.

Détention quarantenaire.

11. Chaque officier de quarantaine devra s'assurer de la présence ou de l'absence d'une maladie infectieuse par une inspection personnelle des personnes à bord, ou par la déclaration assermentée du capitaine ou du chirurgien, en la formule ci-jointe, ou par les deux.

12. Tout navire ayant de la maladie contagieuse à bord, ou venant d'un port ou pays infecté, sera sujet à être détenu à une station de quarantaine pour y être désinfecté, ainsi que ses passagers, son équipage et son pilote, et le bagage des passagers et la cargaison.

(*a.*) Un navire pourra être détenu à la quarantaine, pour être désinfecté, pendant tout le temps que la chose sera nécessaire ;

(*b.*) Le temps pendant lequel un navire pourra être détenu en quarantaine d'observation, est la période acceptée de l'incubation de la maladie contre laquelle l'on se garde à compter de la date constatée de la dernière exposition possible.

13. Tout navire ainsi détenu par ordre de l'officier de quarantaine sera sans délai ancré ou mouillé à l'endroit que fixera l'officier de quarantaine.

14. Et tant que ce navire est ainsi détenu, personne ne quittera le navire, ni n'aura de communication avec tel navire, sans la permission de l'officier de quarantaine.

15. L'officier de quarantaine qui détiendra un navire comme susdit, devra immédiatement avertir le Ministre de l'Agriculture, et donner la cause de cette détention.

16. D'après l'interprétation des présents règlements, un port ou pays infecté est un port ou pays où le choléra asiatique ou autre maladie épidémique a été communiqué à une ou plusieurs personnes par la voie d'une personne ou d'effets d'habillement infectés ou autrement. Un port ou pays n'est pas considéré infecté lorsqu'il ne s'est déclaré qu'un simple cas ou un petit nombre de cas et que la maladie n'a pas été communiqué par ces cas.

Heures d'inspection—Retour en mer—Frais.

17. Tout navire pourra être inspecté en tout temps pendant les vingt-quatre heures.

(*a.*) Sauf que dans les temps d'épidémie le Ministre de l'Agriculture pourra ordonner que l'inspection ne se fasse que pendant les heures de jour ;

(*b.*) Toutes les inspections quarantenaires, à l'exception de celles faites en vertu de l'article 46 (*a*), seront faites sans frais contre le navire.

18. Tout navire aura le droit, avant de rompre son chargement, de retourner en mer au lieu de se mettre en quarantaine, tel que prévu par l'article 9 de l'acte intitulé *Acte concernant la quarantaine*, chap. 68, Statuts revisés.

19. Tous les frais encourus pour l'entretien des personnes en santé qui pourraient avoir été exposées à l'infection, et sont détenues en quarantaine d'observation, seront à la charge du navire.

(*a.*) Et le capitaine d'un navire pourra faire des arrangements avec l'officier de quarantaine pour débarquer les provisions nécessaires et les serviteurs ou économes pour les distribuer à l'endroit où les passagers sont débarqués ;

(*b.*) Les personnes actuellement malades seront traitées et soignées dans les hôpitaux de quarantaine, aux frais du gouvernement ;

(*c.*) S'il est permis à un navire de continuer en route et de laisser ses passagers en quarantaine, le transport subséquent de tels passagers de la quarantaine au port de destination sera à la charge du navire ;

(*d.*) Les appareils, les matériaux et la main-d'œuvre pour désinfection sont fournis par le gouvernement sans frais contre le navire.

Maladies quarantenaires.

20. Les principales maladies quarantenaires sont : le choléra asiatique, la petite vérole, le typhus, la fièvre jaune et la peste. Les maladies secondaires, sont la fièvre scarlatine, les fièvres entériques (typhoïdes), la diphtérie, la rougeole et la varicelle (petite vérole volante).

(*a.*) En sus de ce qui précède il est du devoir de tout officier de quarantaine de s'assurer de la présence ou de l'absence de toute autre maladie contagieuse ou infectieuse ;

(*b.*) Et quant à la lèpre, il est du devoir de chaque officier de quarantaine, surtout sur la côte du Pacifique, de bien s'assurer de la présence ou de l'absence de cette maladie parmi les passagers ; et advenant la découverte de quelque cas de cette maladie, la personne atteinte n'aura pas la permission de descendre à terre, mais elle devra être ramenée par le navire à l'endroit d'où elle vient.

Les pilotes fourniront les règlements.

21. Chaque pilote devra fournir au capitaine de tout navire arrivant à un port en Canada, un exemplaire des présents règlements sous peine de l'amende ci-après prescrite.

Vaccination.

22. Chaque passager sera tenu de prouver à la satisfaction de l'officier de quarantaine qu'il a été vacciné ou qu'il a déjà eu la petite vérole.

23. La production d'un certificat par le chirurgien du navire, appelé "Carte de protection," et sa déclaration sous serment à l'appui de la vérité de ce certificat, seront considérées par l'officier de quarantaine comme preuve de cette vaccination et de cette protection. Toutefois, l'officier de quarantaine pourra, de temps à autre, faire un examen personnel des porteurs de ces certificats, afin de s'assurer de la manière que ces certificats ont été émis.

24. Toute personne qui ne donnera pas une preuve satisfaisante d'avoir été vaccinée ou d'avoir eu la petite vérole, sera vaccinée par un officier de quarantaine, ou, dans le cas de refus, sera débarquée à la station de quarantaine, pour y subir une quarantaine d'observation ; et les frais d'entretien de cette personne pendant cette quarantaine d'observation seront une dette sur le navire.

(*a.*) Un navire qui arrive à une station de quarantaine en Canada sera moins sujet d'être détenu si la vaccination de tous les passagers d'entrepont qui n'offrent aucune preuve d'avoir été vaccinés dans les derniers sept ans, est exigée avant l'embarquement. Le chirurgien du navire devrait s'assurer du fait vis-à-vis de chaque passager au début de la traversée, ou au temps de l'embarquement si possible, afin d'être en état de répondre aux questions que lui posera l'officier de quarantaine.

25. Si la petite vérole s'est déclarée sur un navire, chaque passager à bord qui n'offre aucune preuve satisfaisante d'avoir été vacciné dans le cours des derniers sept ans, ou d'avoir eu la petite vérole durant cette période, sera vacciné par ou sous la surveillance de l'officier de quarantaine ; ou, dans le cas de refus, il sera débarqué à la station de quarantaine, sujet à la détention pour observation, et les frais d'entretien de cette personne ou de ces personnes pendant cette détention sera une dette sur le navire.

Examen.

26. L'officier de quarantaine examinera le chirurgien ou tout officier d'un navire, sous serment, touchant l'état de santé de ce navire et de chaque personne à bord, dans la forme de questions annexées aux présents règlements.

Isolement.

27. Tout navire muni d'un hôpital isolé pour les hommes, et un autre pour les femmes, sur le pont supérieur, ventilé d'en haut et non par la porte seulement, pourra, s'il est prouvé à la satisfaction de l'officier de quarantaine que cet hôpital a été promptement et intelligemment employé, continuer sa route après avoir mis à terre les malades, et après la désinfection de l'hôpital qui aura servi ; néanmoins, tout navire qui arrivera avec quelque maladie infectieuse, sans être muni de ces hôpitaux spéciaux isolés et ventilés, ou, étant muni de ces hôpitaux, sans preuve satisfaisante qu'ils ont été promptement ou intelligemment employés, sera sujet à être détenu pour être désinfecté à une station de quarantaine.

Malles à Rimouski.

28. Dans le cas d'un navire portant les malles de Sa Majesté et arrivant par la voie du Saint-Laurent, le certificat d'acquit sera accordé par un officier de quarantaine à Rimouski ou Grosse-Ile, et dans le cas de tout autre navire à la Grosse-Ile seulement, à moins qu'une permission spéciale au contraire ne soit obtenue du ministre de l'Agriculture.

(*a.*) Sauf que durant un temps de choléra ou autre épidémie, la permission accordée à un paquebot-poste venant d'un port ou pays infecté, de débarquer des passagers à Rimouski, pourra être suspendue par ordre du ministre de l'Agriculture ;

(*b.*) Et dans ces conditions les malles seules seront débarquées à Rimouski, le navire continuant sa route à la Grosse-Ile pour inspection ;

(*c.*) Si le choléra s'était déclaré à bord de ce navire dans le cours de la traversée, les sacs extérieurs contenant les matières postales seront laissés à bord du vapeur pour être désinfectés à la Grosse-Ile.

Désinfection du bagage.

29. En temps de choléra ou autre épidémie, le bagage des immigrants ou passagers sur un navire arrivant à un port du Canada, que ce navire vienne ou non d'un port ou pays infecté, pourra, par ordre du Ministre de l'Agriculture, être désinfecté dans chaque cas.

(*a.*) Lorsque cette désinfection est faite à une station auxiliaire, subséquemment à l'inspection et acquit à la station principale, l'acquit accordé par l'officier quarantenaire portera comme condition que les immigrants et leur bagage seront débarqués pour être désinfectés.

(*b.*) L'officier surveillant cette désinfection comptera les immigrants à mesure qu'ils débarquent, et s'il trouve que le nombre s'accorde avec le nombre marqué sur l'acquit de l'officier de quarantaine, et a une preuve satisfaisante que tout leur bagage a été débarqué avec eux, il poinçonnera l'acquit à l'endroit marqué à cette fin, et cet acquit sera alors reçu à la douane.

Certificats de passage.

30. Chaque officier de quarantaine maritime poinçonnera le "Certificat de passage International" d'immigrants, quand ce certificat est en usage, de manière à faire connaître aux officiers de santé à l'intérieur le résultat de l'inspection quarantenaire, tel que prévu par cette carte ou certificat.

(*a.*) Chaque officier de quarantaine maritime poinçonnera la liste des immigrants par destination, province, (ou Etat s'ils sont en destination des Etats-Unis), quand de telles listes sont en usage, que fournira le chirurgien du navire sur des formules fournies par le gouvernement, et transmettra ces listes sans délai au secrétaire du bureau d'hygiène dans la province ou Etat où ces immigrants sont destinés.

Remorqueurs à vapeur.

31. Tout remorqueur ou autre navire à vapeur qui aura remorqué ou autrement communiqué avec un navire de la classe de ceux sujets à la quarantaine ou l'inspection quarantenaire, sera, par ce fait, soumis aux mêmes règlements et exigences qui s'appliquent au navire avec lequel il y aura eu communication.

(*a.*) Si la communication entre le navire et le remorqueur à vapeur se borne à l'amarrage d'un câble, qui est ensuite relâché, l'officier de quarantaine pourra décider d'exempter ce remorqueur de la détention quarantenaire.

Guenilles.

32. Les guenilles venant d'un port ou pays où sévit une maladie infectieuse, pourront être prohibées, et le nom de tout port ou pays ainsi infecté sera, de temps à autre, publié dans la *Gazette du Canada.*

(*a.*) Les guenilles venant de ports prohibés à une station de quarantaine, seront sujettes à être brûlées ou autrement traitées sur l'ordre du ministre de l'Agriculture basé sur un rapport de l'officier de quarantaine.

Nouvelles marchandises.

33. Les nouvelles marchandises en général pourront être acceptées sans question.

Periodes d'épidémie.

34. Pendant une période de maladie épidémique les passagers devraient être avertis par les agents de vapeurs de se dispenser, autant que possible, de bagage que l'eau pourrait gâter, dans le cas où il leur faudrait subir la désinfection—tels que les tissus dont les couleurs pourraient déteindre—vu que les propriétaires seront obligés de supporter tous les risques de dommages.

35. Durant une période de maladie épidémique les navires devraient se dispenser, autant que possible, des tentures, rideaux, tapis, etc., de laine, et y substituer des couvertures non absorbantes.

36. Chaque navire portant cargaison, et sujet à être désinfecté, devrait être muni d'un conduit en charpente uni, donnant un espace libre de 12 pouces partout à l'intérieur, placé dans la grande écoutille, pour un navire à voiles ; et un dans chaque écoutille d'un vapeur, divisé par des cloisons. La charpente de ce conduit serait posée avant le chargement, et s'étendrait de l'écoutille au fond de cale. Ce simple arrangement recevrait le tuyau de fumigation et éviterait de déranger la cargaison.

Passagers.

37. Pour les fins des présents règlements, les passagers sont divisés en deux classes : cabine et entrepont. Les passagers d'entrepont sont ceux qui occupent des compartiments autres que ceux de premières et de secondes.

Méthodes de désinfection.

38. Les méthodes de désinfection aux stations de quarantaine du Canada seront comme suit :—

(*a.*) Exposition à la vapeur pas moins que 30 minutes, température de la vapeur pas moindre que 100° centigrade (212° Fahrenheit) ni plus élevée que 115° centigrade (239° Fahrenheit) ;

(*b.*) Les articles susceptibles d'être détruits par la susdite méthode seront désinfectés en les mouillant parfaitement avec une solution de chlorure mercurique, dans la proportion d'une partie dans mille, ou disons un drachme dans un gallon, mesure de vin, ce qui peut se faire par le moyen d'une brosse, ou par l'arrosage ou le trempage ; ou,

(*c.*) Si l'on emploie du dioxyde de soufre, on l'obtient en brûlant pas moins de 3 livres de soufre en canon par 1,000 pieds cubes d'espace, ou si on l'emploie sous forme liquide, de la même force proportionnée, et la période d'exposition sera d'au moins 6 heures.

(*d*) Lorsque l'on se sert du gaz formaldehyde, il doit être employé à une force d'au moins 2 pour cent par volume, la durée de l'exposition n'étant pas moins que douze heures. Le gaz peut être produit par une des méthodes suivantes :

(1.) De l'alcool méthylique (de bois) au moyen de lampes spéciales, employant pas moins de 600 grammes (750 centimètres cubes, $1\frac{4}{5}$ chopine) d'alcool méthylique pour chaque 25.5 mètres cubes (1,000 pieds cubes) d'espace, la durée de l'exposition étant d'au moins douze heures.

Les lampes qui servent à dégager le gaz formaldehyde de l'alcool méthylique devaient changer au moins 1 litre (1.0 pinte) de l'alcool dans une heure.

(2.) D'une solution aqueuse, contenant 40 pour cent du gaz, appelé formaline, formol ou formalose. Le gaz est mieux dégagé de ces solutions par l'addition de 10 à 30 pour 100 d'un sel neutre, chlorure de calcium ou nitrate de soude préféré, et en chauffant le mélange dans une chaudière spéciale. Un litre d'une solution de 40 pour 100 de gaz formaldehyde dégage environ 1,425 litres (50.1 pieds cubes) du gaz à 20° C. (68° F.) et suffira pour 71 mètres cubes (2,505·5 pieds cubes) d'espace.

Après la désinfection des appartements (d'entrepont, de cabines ou du gaillard d'avant) au moyen du gaz formaldehyde, ce dernier devrait être neutralisé par du gaz ammoniacal produit de l'eau d'ammoniaque par la chaleur, ou par l'évaporation de l'eau d'ammoniaque arrosée sur le plancher.

Note.—La quantité d'eau d'ammoniaque requise pour la neutralisation après chacune des susdites méthodes est comme suit : Après la méthode (1) (1.01 pinte) d'eau d'ammoniaque par chaque 1,000 centimètres cubes (1.01 pinte) d'alcool de bois employé ; après la méthode (2) $1\frac{1}{4}$ litre (1.26 pinte) d'eau d'ammoniaque pour chaque litre (1.01) pinte de formaline ; après la méthode (3) 1 litre d'eau d'ammoniaque pour chaque 150 grammes (5 onces) de trioxyméthylène.

Le formaldehyde peut aussi être employé dans la chambre ordinaire de désinfection à la vapeur, où elle est munie d'un appareil pour créer le vide et d'un appareil spécial pour dégager et appliquer le gaz. Le gaz devrait être appliqué sec dans au moins 20 pour 100 de force par volume, la durée de l'exposition étant d'au moins une heure. Les hardes, literies, etc., ainsi désinfectés devraient être exposées *in situ* à une égale somme de gaz ammoniacal produit par l'appareil spécial attaché à la chambre, employant 1 litre d'eau d'ammoniaque pour chaque litre de formaline ; ou bien l'on peut employer du gaz ammoniacal comprimé.

Note.—L'appareil spécial doit consister en un générateur construit en cuivre rouge, pour dégager le gaz formaldehyde de ses solutions, et d'un autre générateur en fer pour dégager le gaz ammoniacal de la neutralisation.

9. La désinfection des navires en fer se fera comme suit, selon le cas :—

(*a.*) *Cales.*—Après le nettoyage mécanique, la cale sera parfaitement lavée avec une solution acidique de chlorure mercurique, 1 dans 800 (chlorure mercurique, 1 partie, acide hydrochlorique 2 parties, eau 800 parties), appliquée à toutes les surfaces au moyen d'un boyau. Si l'on redoute les effets dangereux du mercure déposé sur les surfaces, on pourra les laver plus tard avec de l'eau nette ; on peut aussi faire la fumigation au moyen du dioxyde de soufre ou du formaldehyde ;

(*b.*) *Entrepont.*—Le même traitement devrait être appliqué à l'entrepont qu'à la cale, mais quand le navire est muni d'un tuyau à vapeur pour chaque compartiment (en cas d'incendie), la désinfection à la vapeur de l'entrepont sera pratiquée. La température dans toutes les parties de chaque compartiment ne sera pas moindre que 100° C. (212° Fahr.) ;

(*c.*) *Gaillard d'avant ou département de l'équipage.*—Après le nettoyage mécanique, l'application du chlorure mercurique de la manière ci-dessus décrite, ou le dioxyde de soufre ou formaldehyde, ou la désinfection à la vapeur, si des facilités sont fournies à cette fin :

(*d.*) *Quartiers des officiers, cabines, etc.*—Chaque compartiment recevra le même traitement, dans les mêmes conditions que ci-dessus, mais il faudra se rappeler que les décorations en métal dans les cabines, salons, etc., seraient gâtées par l'usage de la solution de chlorure mercurique, et en conséquence, il faudra employer d'autres formes de désinfection, selon que le décidera l'officier de quarantaine.

40. La désinfection des navires de bois se fera comme suit, selon le cas :—

(*a.*) Fumigation au moyen de dioxyde de soufre obtenu en brûlant pas moins que 3 livres de soufre en canon pour chaque 1,000 pieds cubes d'espace ; ou au moyen du dioxyde de soufre liquide dans la même proportion ; et la durée de l'exposition sera d'au moins 24 heures ;

(*b.*) Ou la fumigation par le formaldehyde, tel que dit ci-dessus ;

(*c.*) Lavage ou arrosage avec une solution acidique de chlorure mercurique (1 dans 800). Cabines, gaillard d'avant et autres appartements seront parfaitement lavés avec une solution mercurique.

41. Dans toutes les catégories de navires, tous les vêtements, literie, rideaux, etc., seront exposés à la vapeur pendant 30 minutes, a une température de 100° C. (212° Fahr.) à 115° C. (239° Fahr.)

42. Dans toutes les classes de navires les fonds de cales seront d'abord remplis d'eau de mer ou de rivière, vidés par les pompes et ensuite traités d'une solution de chlorure mercurique en grande quantité, laissée en contact longtemps.

Stations de quarantaine maritime non organisées.

43. A tout port où il n'y aura pas de station de quarantaine régulière, le percepteur des douanes sera

l'officier de quarantaine pour les fins des présents règlements ; et dans le cas de maladie, ce percepteur pourra, pour les fins des présents règlements, appeler un médecin, qui sera, tant qu'il sera ainsi employé, censé être un officier de quarantaine ; et chaque tel port sera désigné comme station de quarantaine maritime non organisée.

44. Tout navire arrivant d'un port infecté à une station de quarantaine maritime non organisée, ou à bord duquel serait survenu quelque décès d'une maladie infectieuse ou se serait déclarée quelque maladie infectieuse pendant la traversée, restera au large jusqu'à ce qu'il reçoive de l'officier de quarantaine la permission d'entrer.

45. Tous les règlements applicables aux stations de quarantaine maritime régulièrement organisées s'appliqueront aussi à chaque station de quarantaine maritime non organisée en tant que les circonstances le permettront, et surtout les dispositions touchant l'inspection, l'ancrage et le mouillage, la désinfection, les acquits de douane, le retour en mer avant de rompre le chargement, les questions au chirurgien ou aux officiers du navire, et les amendes.

46. Tout percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine à une station de quarantaine maritime non organisée en Canada, qui apprend ou a raison de soupçonner la présence d'aucune des principales maladies quarantenaires citées à l'article 20 des présents règlements, ordonnera qu'il soit fait une inspection médicale du navire apportant cette maladie ;

(*a.*) Si un navire arrive à une station de quarantaine maritime non organisée avec de la maladie sujette à quarantaine à bord, le capitaine paiera un honoraire de $4 pour chaque inspection médicale ordonnée par l'officier de quarantaine, et cet honoraire devra être payé avant que l'acquit de douane ne soit accordé ;

(*b.*) S'il ne se trouve pas de maladie à bord d'un navire arrivant à une station de quarantaine maritime non organisée et que l'officier de quarantaine a ordonné d'inspecter, les frais de cette inspection ne seront pas une charge contre le navire, mais seront défrayés par le gouvernement.

(*c.*) Si la maladie trouvée à bord d'un navire, ou l'historique, les conditions, ou les circonstances d'un navire sont telles qu'il paraîtrait au percepteur ou sous-percepteur des douanes que les capacités d'isolation ou de désinfection existant à une station de quarantaine maritime non organisée, sont insuffisantes pour faire face à cette maladie, il en fera rapport immédiatement au ministre de l'Agriculture, lequel pourra, à sa discrétion, ordonner que le navire se rende à une station de quarantaine organisée afin d'obtenir une patente de santé avant de pouvoir faire une déclaration en douane. Et dans ce cas les frais de transfert du navire à la station de quarantaine maritime sera une dette sur le navire.

Stations de quarantaine non organisées de l'intérieur.

47. Chaque port de l'intérieur, sur la frontière du Canada, entre les océans Atlantique et Pacifique, où il se trouve un percepteur ou un sous-percepteur des douanes, sera, pour les fins des présents règlements constitué en station de quarantaine non organisée de l'intérieur.

48. Chaque percepteur ou sous-percepteur des douanes à tout tel port de frontière, sera l'officier de quarantaine.

49. Tout percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine à une station de quarantaine non organisée de l'intérieur en Canada, s'il est informé ou s'il a raison de soupçonner la présence d'une des principales maladies quarantenaires citées à l'article 20 des présents règlements, devra, en temps de choléra ou autre maladie épidémique, faire faire une inspection médicale du char, wagon, véhicule, bateau ou chose apportant cette maladie ;

(*a.*) Et cet officier de quarantaine est autorisé à détenir ce char, wagon, véhicule, bateau ou chose, jusqu'à ce que cette inspection médicale ait été faite à sa satisfaction ;

(*b.*) Tout médecin faisant cette inspection par ordre de l'officier de quarantaine, sera, tant qu'il sera ainsi engagé, le médecin de quarantaine.

50. L'honoraire payable à ce médecin de quarantaine pour chaque telle inspection n'excèdera pas la somme de $4, et dans le cas où il se découvrirait une maladie sujette à la quarantaine, cet honoraire sera payable par la compagnie ou propriétaire du char, wagon, véhicule, bateau ou chose apportant la maladie.

51. Le percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine devra, sur le rapport du médecin de quarantaine, dans un temps de maladie épidémique, s'il découvrait quelqu'une des principales maladies quarantenaires, faire détenir le char, wagon, véhicule, bateau ou chose apportant une personne atteinte de cette maladie infectieuse, jusqu'à ce que les exigences des présents règlements aient été remplies à sa satisfaction ;

(*a.*) Toute telle personne malade ne pourra pas entrer au Canada tant que le médecin de quarantaine ne jugera pas sûr de le lui permettre ;

(*b.*) Tout char, wagon, véhicule, bateau ou chose apportant cette personne malade à la frontière pourra s'en retourner plutôt que de subir la détention quarantenaire ; ou

(*c.*) Le percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine devra, à sa discrétion sur le rapport du médecin de quarantaine, faire enlever et isoler cette personne malade dans un char ou bateau mis à part dans ce but, ou dans une bâtisse convenable, assez éloignée des autres bâtiments pour prévenir tout contact ou infection ;

(*d.*) Et cet officier de quarantaine pourra faire désinfecter le char, wagon, véhicule, bateau ou chose apportant cette personne malade, au moyen des fumées sulfureuses, ou tout autre mode de désinfection prescrite par les présents règlements adapté aux circonstances du cas.

52. Dans le cas où le choléra ou autre maladie épidémique sévirait dans une partie des Etats-Unis par où passe une voie ferrée qui traverse la frontière du Canada le Gouverneur en conseil pourra, par arrêté publié dans la *Gazette du Canada*, ou dans un extra de la *Gazette du Canada*, basé sur un rapport du Ministre de l'Agriculture, et dans le cas où il n'y aurait pas à ce point de la frontière d'arrangements et d'appareils propices pour enrayer la marche de cette maladie épidémique, ordonner la cessation complète du trafic des passagers à cet endroit ; ou y apporter telle restriction que les circonstances justifieront.

Les officiers de quarantaine donneront les ordres nécessaires —ne pourront recevoir d'honoraire ou de gratification.

53. Chaque officier de quarantaine est autorisé à donner tout ordre nécessaire, ou faire tout acte nécessaire pour l'exécution des présents règlements, et il est de son devoir de signaler toute infraction à ces règlements, immédiatement au ministre de l'Agriculture ;

(*a.*) Aucun officier de quarantaine ni autre personne employée au service quarantenaire du Canada ne devra, directement ou indirectement, recevoir ou prendre d'honoraire ou de gratification ou récompense pour services rendus à toute compagnie, ou propriétaire, capitaine, ou équipage, passagers ou autre personne détenue à une quarantaine, soit maritime soit de l'intérieur ;

(*b.*) Toute personne qui connaîtra de quelque infraction aux présents règlements devrait de suite en faire rapport au ministre de l'Agriculture.

Amendes imposées aux officiers de douanes, pilotes, capitaines, chirurgiens et officiers de navires, etc.

54. Chaque pilote sera muni d'exemplaires imprimés les présents règlements, et il en donnera un au capitaine de tout navire venant d'un port en dehors du Canada, aussitôt en montant à bord, sous peine d'une amende de $50.

55. Chaque percepteur des douanes, ou officier des douanes, sera passible d'une amende de $400, et de l'emprisonnement pendant six mois, s'il permet la déclaration en douane d'un navire qui n'aura pas un acquit de quarantaine conformément aux prescriptions des présents règlements.

56. Chaque capitaine d'un navire sera passible d'une amende de $400 et d'un emprisonnement de six mois, s'il contrevient à aucun des susdits règlements. Le navire répondra de l'amende imposée au capitaine.

57. Tout chirurgien de navire ou autre officier qui manquera de répondre avec exacte vérité aux questions contenues dans la formule ci-jointe, sera passible d'une amende de $400, ou d'un emprisonnement de six mois.

58. Toute infraction au paragraphe *a* de l'article 53 des présents règlements sera considérée être un manquement de devoirs entraînant la démission, l'amende ou l'emprisonnement.

Questions posées sur les officiers de quarantaine, auxquelles les capitaines, chirurgiens ou officiers de navires devront répondre sous serment.

3. Le directeur général du personnel médical inspectera les camps d'instruction, leur arrangements médicaux, hygiéniques, etc., et questionnera les médecins militaires sur les sujets traités dans le précédent cours de conférences, ainsi que sur leurs devoirs en général.

(4.) Les directeurs du service de santé seront responsables de l'équipement d'hôpital et du renvoi en magasin de district ou à l'hôpital divisionnaire permanent, des effets et médicaments non utilisés.

(5.) Ils tiendront, (1°) Un livre d'admissions et de congés, Formule de milice B. 283. (2°) Un journal de traitement et d'ordonnances (Formule de milice B. 16. (3°) Un livre d'ordres des directeurs du service de santé (Formule de milice C. 92). (4°) Un registre des visiteurs à l'hôpital.

(6.) Ils tiendront le contrôle des médecins militaires en camp ; ce contrôle sera publié tous les jours dans le registre des ordres des directeurs du service de santé ; ils fourniront au major de brigade, tous les jours avant 10 heures a.m. le détail des médecins militaires en devoir pour le jour—en qualité de médecin militaire pour les champs de tir.

(7.) Ils soumettront à l'approbation du commandant tels règlements relatifs au département médical qu'ils croiront utile de publier dans les ordres.

(8.) Les directeurs du service de santé seront tenus responsables pour toute dépense non autorisée qui sera encourue relativement au service de santé du camp. Nulle dépense encourue par des médecins militaires régimentaires, sans autorisation, ne sera reconnue.

(9.) Sur la recommandation du directeur du service de santé, le commandant pourra approuver des arrangements pour certain régime, mais un compte distinct en double de la dépense sera soumis, avec le rapport du médecin, à la levée du camp. Nul compte pour vins ou liqueurs spiritueuses ne sera admis. Si ces choses sont ordonnées le patient devra les payer.

MÉDECINS MILITAIRES RÉGIMENTAIRES.

(1.) Lorsqu'il y a deux médecins militaires appartenant à un corps, ils assisteront au camp alternativement.

(2.) Les médecins militaires se présenteront en personne au directeur du service de santé à l'hôpital de campagne aussitôt en arrivant au camp, et recevront leurs ordres de lui. Les infractions à la discipline, la négligence des devoirs ou désobéissance aux ordres seront censurées par le directeur du service de santé, ou portées à la connaissance du commandant du camp. Les médecins militaires doivent comprendre que leurs devoirs en camp ne sont pas simplement professionnels, et qu'ils ont à suivre un cours d'instruction dans leurs devoirs militaires comme ceux d'autres grades dans la milice.

(3.) Les médecins militaires seront aidés dans leurs devoirs régimentaires par un sergent-infirmier choisi sur leur recommandation ; son éligibilité sera basée sur son éducation, ses aptitudes spéciales, sa conduite exemplaire, et sa bonne réputation. Il sera aussi disponible pour devoirs à l'hôpital de campagne et pour un cours spécial d'instruction.

(4.) Dans les unités à pied, les médecins militaires régimentaires d'un rang supérieur, en possession d'un certificat d'équitation auront droit à une monture et à un cheval de l'effectif régimentaire.

(5.) Un officier médical sera choisi par le directeur du service de santé pour prendre la charge de l'instruction des sergents-infirmiers Le Manuel pour le corps de personnel médical sera le livre de classe.

13. INSPECTION VÉTÉRINAIRE.

(1.) Les chevaux des unités à cheval seront inspectés par l'officier vétérinaire régimentaire avant de se rendre au camp.

(2.) Nul cheval qui n'est pas réellement propre au service ne doit être admis à faire ce devoir.

(3.) Le commandant du camp prendra des mesures pour que les chevaux des unités (ou des officiers d'état-major) auxquels n'est attaché aucun officier vétérinaire régimentaire, soient inspectés (et soignés si c'est nécessaire) par un officier vétérinaire.

(4.) Les officiers commandants d'unités à cheval produiront, à l'inspection, le livre de milice C.55, " Etat descriptif des chevaux "—dûment rempli jusqu'à date.

14. INSPECTIONS.

(1.) Les rapports d'inspection faits par les commandants de camp seront envoyés au quartier général dans les quinze jours qui suivront l'inspection. L'état comparatif de l'efficacité sera transmis, après promulgation avec le rapport d'inspection.

(2.) Le commandant du camp examinera aussi le système suivi dans la manière de donner les ordres, la tenue du registre de la correspondance et des archives régimentaires, ainsi que toutes matières ayant rapport à la discipline et à l'économie interne du corps. Il fera l'inspection des rôles de service des compagnies et le registre des congédiements, il mentionnera également si les dispositions de l'Acte de la milice et des règlements au sujet des enrôlements et des congédiements, ont été mis en force.

Lorsque l'infanterie sera en campagne, il fera, à pied, l'examen de chaque compagnie, séparément, afin de s'assurer de l'état des armes, des habillements et du physique des soldats. Les capitaines seront alors appelés à faire exécuter par leurs compagnies les divers mouvements et formations de compagnies. Lorsque les compagnies compteront moins de 16 files, les exercices se feront sur un seul rang. L'officier commandant et les majors seront appelés à faire exécuter les exercices de bataillon.

A l'inspection de la cavalerie en camp d'instruction, une journée sera consacrée aux exercices de chaque escadron, et une journée aux exercices de régiment sous les ordres de l'officier commandant et du major.

(3.) Il n'est pas nécessaire que l'inspection en camp se fasse le même jour que l'inspection " en campagne." Celle-là, ainsi que l'examen des officiers sur des questions pour efficacité comparative, peut avoir lieu le soir, suivant la commodité des officiers.

(4.) Les formules de milice C.64 et C.65 serviront pour l'état comparatif d'efficacité de l'infanterie et de la cavalerie.

(5.) Les officiers inspecteurs se rappelleront qu'une revue et un défilement, ou autres mouvements de cérémonie, ne constituent pas une inspection, et n'en font pas même nécessairement partie. Le but d'une inspection est de s'assurer de l'état de l'organisation de chaque corps, ainsi que de la valeur du travail de ce corps, et d'en prendre note.

15. Rapports.

(1.) Les commandants de camps sont tenus de transmettre leurs rapports au quartier général, dans les quinze jours qui suivent la levée du camp.

(2.) Les rapports comprendront :

(*a.*) Un état du nombre des corps en camp ;

(*b.*) Un état de l'ouvrage fait en camp, afin de montrer le système suivi pour l'instruction;

(*c.*) Un état des cas traités à l'hôpital ;

(*d.*) Un état des exercices du tir, mentionnant les meilleurs tireurs des régiments et au camp ;

(*e.*) Formule No 215, du bureau de l'adjudant-général dûment rempli.

(3.) Les rapports doivent être courts et précis, et tout ce qui est étranger au sujet doit être omis.

(4.) Les officiers commandant les camps veilleront à ce que les femmes, amies ou enfants des officiers ou des soldats, ne soient pas logés dans la limite du camp ; et que nul officier ou soldat ne couchera ailleurs qu'au camp sans une permission spéciale. Les officiers commandants, dans leurs rapports, feront connaître si cet ordre a été strictement mis en force.

AVIS AUX MARINS.

No. 43 de 1898.

CANADA—QUÉBEC.

I. Changements dans les aides à la navigation dans la rivière Saguenay.

Les changements suivants ont été apportés aux aides à la navigation dans l'abord à Chicoutimi, rivière Saguenay, province de Québec :—

1. La bouée rouge qui marque le bord extérieur des battures de sable, Anse au Foin, sur la côte nord du chenal, a été reculée 2,640 pieds S. 50° E. à l'extrémité la plus dangereuse de la batture.

2. Une bouée-boîte noire a été ancrée dans 12 pieds d'eau sur le côté sud du chenal, dans le nouvel alignement des feux du Poste St. Martin, pour mieux marquer la courbe entre les alignements des feux du Poste St. Martin et les feux de la rivière à Valin.

3. Le feu d'avant du Poste St. Martin a été reculé 14½ pieds au sud de son ancienne position de manière à jeter l'alignement à 1° 5' au sud.

Le nouvel alignement conduit par le milieu du chenal à eau profonde loin des battures vis-à-vis l'Anse au Foin, et évite l'extrémité est de la Batture aux Loups-Marins.

4. La bouée à carreaux ancrée dans le milieu de la traverse marquée par les feux d'alignement de la rivière à Valin, étant une bouée de tribord, a été peinturée en rouge.

5. La bouée-boîte rouge au centre de l'alignement marqué par les feux de la rivière Caribou, a été reculée 500 pieds S. 64° E. pour marquer un endroit de 9 pieds.

6. Une bouée-espar noire a été ancrée sur le côté sud à la courbe de la rivière Caribou pour indiquer la limite du chenal au sud à cet endroit.

Les orientations et distances suivantes entre les feux dans cette partie du chenal sont prises d'une étude faite en 1897, sous le contrôle du ministère des Travaux Publics, par M. F. W. Cowie, aide-ingénieur :—

Du feu d'avant du Poste St. Martin dans sa nouvelle position, le feu d'avant de la rivière à Valin est dans une direction N. 3° 30' E., à une distance de 6,530 pieds, et le feu d'arrière du Poste St. Martin est dans une direction N. 52° 45' O. à une distance de 830 pieds.

Du feu d'avant de la rivière à Valin, le feu d'avant de Savard est dans une direction N. 71° 30' O. à une distance de 5,740 pieds, et le feu d'arrière de la rivière à Valin est dans une direction N. 25° O., à une distance de 710 pieds.

Du feu d'avant de Savard, le feu d'avant de la rivière Caribou est dans une direction S. 79° 30' O., à une distance de 3,145 pieds, et le feu d'arrière de Savard est dans une direction N. 48° O., à une distance de 490 pieds.

Du feu d'avant de la rivière Caribou, le feu d'avant de la rivière du Moulin est dans une direction S. 44° O., à une distance de 7,385 pieds, et le feu d'arrière de la rivière Caribou est dans une direction N. 62° 30' O., à une distance de 720 pieds.

Du feu d'avant de la rivière du Moulin, le feu du quai de Chicoutimi est dans une direction N. 82° 15' O., à une distance de 6,945 pieds, et le feu d'arrière de la rivière du Moulin est dans une direction S. 55° 30' O., à une distance de 400 pieds.

II. FEUX SUR LE LAC SAINT-JEAN.

1. Il n'est pas entretenu de feux maintenant à l'embouchure de la rivière Metabetchouan, ou sur l'île aux Serpents, dans le lac Saint-Jean, et ces feux Nos. 597 et 600 devraient être rayés de la Liste des phares et signaux de brume canadiens.

2. En juin dernier, les feux d'alignement dans le village de Roberval ont été rétablis, et convertis en feux électriques. Le feu d'avant est posé sur la grève à la marque des hautes eaux. Il consiste en une lumière incandescente électrique renfermée dans une lanterne carrée, et renforcée dans l'alignement par un réflecteur. Il est exhibé du haut d'un poteau de 16 pieds, et le feu est à 15 pieds au-dessus de la marque des hautes eaux.

Le poteau du feu d'arrière est à 95 pieds de celui d'avant ; il est haut de 25 pieds, et le feu, qui est semblable à celui d'avant, est à 30 pieds au-dessus de la marque des hautes eaux. Les feux devraient être visibles à 5 milles, et sont destinés à guider les vaisseaux dans le chenal jusqu'au quai de Roberval.

3. Un feu a été établi à l'extrémité de la Pointe Bleue. C'est un feu blanc fixe, à 28 pieds au-dessus de la marque des hautes eaux, et devrait être visible de tous les points d'approche par eau. Il est exhibé dans une lanterne avec des lentilles pressées, hissée sur un poteau blanc haut de 25 pieds, et ayant un petit hangar peinturé en rouge à sa base.

Ce feu devrait être inscrit dans la Liste des phares et signaux de brume canadiens sous le No. 596.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français' ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Règle spéciale du Sénat.

49. (*c*.) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

34. Passengers during a period of epidemic disease should be notified by steamship agents to dispense as far as possible with luggage that may be injured by wetting, in case of having to undergo disinfection—such as fabrics, of which the dyes are likely to run—as the owners will be compelled to assume all risks of injury.

35 Vessels during a period of epidemic disease should dispense as far as possible with woollen hangings, curtains, carpets and upholstering, substituting non-absorbing coverings.

36. Every vessel carrying cargo, and liable to be disinfected, should have provided a plain frame shaft allowing a clear inside space of 12 inches each way, placed in the main hatch, in a sailing vessel : and one in each hatch of a steamship, divided by bulkheads. The frame work in this shaft to be set before loading and to extend from the hatchway to the bottom of the vessel. This simple arrangement would receive the fumigating pipe and avoid shifting cargo.

Passengers.

37. Passengers, for the purpose of these regulations are divided into two classes, cabin and steerage. Steerage passengers are those occupying compartments other than those of first and second cabin.

Methods of Disinfection.

38. The methods of disinfection at the Quarantine Stations of Canada shall be as follow :—

(*a.*) Exposure to steam not less than 30 minutes, steam to be of the temperature of not less than 100° Centigrade (212° Fahrenheit) nor greater than 115° Centigrade (239° Fahrenheit) ;

(*b.*) Articles that would be destroyed by the above method, to be disinfected by thoroughly wetting with a solution of mercuric chloride, of one part to one thousand, or approximately one drachm to one gallon, wine measure, applied by means of a brush, or by drenching, or by immersion ; or,

(*c.*) Where sulphur dioxide is used, it is to be provided by burning not less than 3 pounds of rolled sulphur per 1,000 cubic feet of space or if it is used in liquid form in the same proportionate strength, and the period of exposure to be not less than 6 hours ; or,

(*d.*) Where formaldehyde gas is used, it is to be employed of not less than 2 per cent per volume strength, the time of exposure to be not less than twelve hours. The gas may be generated by one of the following methods ;

(1) From methyl (wood) alcohol by means of special lamps, using not less than 600 grams (750 cubic centimeters, 1⅘ pints) of methyl alcohol for each 25·5 cubic meters (1000 cubic feet) of space, the time of exposure to be not less than twelve hours.

Lamps used for generating formaldehyde gas from methyl alcohol should change not less than 1 liter (1·0 quarts) of the alcohol within an hour.

(2) From an aqueous solution, containing 40 per cent of the gas, known under the names of formalin, formol or formalose. The gas is best evolved from these solutions by the addition of from 10 to 30 per cent of a neutral salt, preferably calcium chloride or sodium nitrate, and heating the mixture in a special boiler. One liter of a 40 per cent solution of formaldehyde gas will evolve about 1,425 liters (50·1 cubic feet) of the gas at 20° C. (68° F.) and will be sufficient for 71 cubic meters (2,505·5 cubic feet) of space.

After the disinfection of apartments (steerage, cabin and forecastle) by formaldehyde gas, the latter should be neutralized by ammonia gas, evolved from water of ammonia by heat, or by evaporation from water of ammonia sprinkled upon the floor.

NOTE—The quantity of water of ammonia required for neutralization after each of the above named methods is as follows :—After method (1) 1 *liter* (1·01 *quarts*) *of water of ammonia for each* 1,000 *cubic centimeters* (1·01 *quarts*) *of wood alcohol used ; after method* (2) 1¼ *liters* (1·26 *quarts*) *of water of ammonia for each liter* (1·01 *quarts*) *of formalin ; after method* (3), 1 *liter of water of ammonia for each* 150 *grams* (5 *ounces*) *of trioxymethylene.*

Formaldehyde may also be employed in the ordinary steam disinfection chamber, where this is provided with a vacuum apparatus and special apparatus for generating and applying the gas. The gas should be applied in a dry state in not less than 20 per cent per volume strength, the time of exposure to be not less than one hour. Clothing, bedding, &c., thus disinfected, should be exposed *in situ* to an equal amount of ammonia gas generated by the special apparatus attached to the chamber, using 1 liter of water of ammonia to each liter of formalin ; or compressed ammonia gas may be used.

NOTE.—The special apparatus must consist of a generator, constructed of copper, for evolving formaldehyde gas from its solutions, and a similar one of iron for evolving ammonia gas from neutralization.

39. The disinfection of iron vessels shall be as follows, as may be required :—

(*a.*) *Holds*—After mechanical cleansing, the hold to be thoroughly washed with an acid solution of mercuric chloride, 1 to 800 (mercuric chloride 1 part, hydrochloric acid 2 parts, water 800 parts), applied to all surfaces by means of a hose. If danger is apprehended from the poisonous effects of the mercury deposited on the surfaces, they can be subsequently washed down with clean water. Fumigation by sulphur dioxide or by formaldehyde may also be employed ;

(*b.*) *Steerage*—The same treatment should be given the steerage as the hold, but when there is a steam pipe provided for each compartment (for the prevention of fire), steam disinfection of the steerage should be practised. The temperature in all parts of each compartment to be not less than 100° C. (212° Fahr.) ;

(*c.*) *The forecastle or apartment for crew*—After mechanical cleansing the application of mercuric chloride in the manner hereinbefore prescribed, or sulphur dioxide or formaldehyde or steam disinfection, if facilities are provided for the same, should be employed ;

(*d.*) *Officers' quarters, cabin, state rooms, &c.*—Each compartment to receive the same treatment, under the same conditions as hereinbefore specified, it being borne in mind that the decorative metal work in cabins, saloons, &c., would be injured by the use of the mercuric chloride solution, and therefore in such cases other forms of disinfection are to be used as determined by the quarantine officer.

40. The disinfection of wooden vessels shall be as follows, as may be required :—

(*a.*) Fumigation by sulphur dioxide made by burning not less than 3 pounds of rolled sulphur to each 1,000 cubic feet of space ; or by the use of liquid sulphur dioxide in the same proportionate strength ; and the period of exposure to be not less than 24 hours.

(*b*.) Or fumigation by formaldehyde as above described.

(*c*.) Washing or flushing with acid solution of mercuric chloride (1 to 800). Cabins, forecastle and other apartments to be thoroughly washed with mercuric solution.

41. In all classes of vessels all clothing, bedding, curtains, &c., to be subjected to steam for 30 minutes at from 100° C. (212° Fahr.) to 115° C. (239° Fahr.)

42. In all classes of vessels, the bilges to be first flushed with sea or river water, pumped out, and then treated with acid solution of mercuric chloride in large quantity, and allowed to remain in long contact.

(*a*.) In the event of a vessel arriving at an unorganized maritime quarantine station with quarantinable disease on board, the master shall pay a fee of $4 for each medical inspection ordered by the quarantine officer, and such fee or fees must be paid before customs clearance is granted;

(*b*.) If no disease is found on board a vessel arriving at an unorganized maritime quarantine station and ordered to be inspected by the quarantine officer, the cost of such inspection shall not be a charge against the vessel, but will be defrayed by the Government.

(*c*.) If the disease found on board a vessel, or the history, conditions, or circumstances of a vessel be such as may seem to the collector or sub-collector of customs to be beyond the capabilities for isolation or disinfection existing at an unorganized maritime quarantine station, he shall at once report the same to the Minister of Agriculture, who may, at his discretion, order that the vessel proceed to an organized quarantine station for quarantine clearance, before being allowed to make customs entry. And in such case the expense of the transfer of the vessel to the organized maritime quarantine station shall be a charge against the vessel.

(*a*.) And such quarantine officer is empowered to detain such car, carriage, vehicle, boat or thing, until such medical inspection shall have been made to his satisfaction;

(*b*.) A medical man making such inspection by order of the quarantine officer shall, while engaged in such service, be the quarantine medical officer.

50. The fee payable to such quarantine medical officer for each such inspection shall not exceed the sum of $4, and in the event of any quarantinable disease being found, such fee shall be payable by the company or owner of the car, carriage, vehicle, boat or thing, bringing such disease.

51. The customs collector or sub-collector in his quality of quarantine officer shall, on the report of the quarantine medical officer, in a time of epidemic disease, in the event of any of the graver quarantinable diseases being found, cause the detention of the car, carriage, vehicle, boat or thing, bringing any person ill with such infectious disease until the requirements of these Regulations are in his judgment satisfied;

(*a*.) Any such person shall not be allowed to enter Canada until in the opinion of the quarantine medical officer he or she can safely do so;

(*b*.) Any car, carriage, vehicle, boat or thing, bringing such person to the frontier shall have the option of returning as an alternative to quarantine detention; or

(*c*.) The customs collector or sub-collector in his quality of quarantine officer shall in his discretion, on the report of the quarantine medical office, cause the removal and isolation of such person in any car or boat, set apart for the purpose, or in any suitable building sufficiently separated from other buildings to prevent contact or infection;

(*d*.) And such quarantine officer may cause the disinfection of the car, carriage, vehicle, boat or thing bringing such person, by means of sulphurous fumes, or any other mode of disinfection prescribed in these Regulations adapted to the circumstances of the particular case.

52. In the event of cholera or other epidemic disease prevailing in any part of the United States through which a railway crossing the frontier of Canada runs, the Governor in Council may, on an order published in the *Canada Gazette* or in an extra of the *Canada Gazette*, made on a report of the Minister of Agriculture, and where there may not happen to be at that point of the frontier any adequate quarantine arrangements and apparatus to cope with an inroad of such epidemic disease, direct the complete cessation of passenger traffic at such point; or such restriction thereof as may, in the circumstances, be deemed advisable.

Quarantine Officers give all Necessary Orders—Prohibited from Receiving Fees or Gratuities.

53. Every quarantine officer is empowered to give any necessary order, or do any necessary act, to enforce these regulations, and it is his duty to report immediately to the Minister of Agriculture any breach or attempted breach of them.

(*a*.) JOHN J. McGEE,
Clerk of the Privy Council.

—

REGULATIONS governing the Administration of Dominion Lands in the Provisional District of the Yukon.

1. All applications for the purchase of land received by the Crown Timber and Land Agent shall, before being acted upon, be submitted to the Commissioner of the Yukon Territory who is empowered to dispose of any public lands by sale at a price not less than ten dollars per acre, payable in cash at the time of sale, and the maximum area so sold to the same applicant in the same locality shall not exceed forty acres. Such sale shall be subject to the reservation to the Crown of all minerals which may be found to exist within, upon or under such lands, together with full power to work the same, and for this purpose to enter upon and use and occupy the said lands or so much thereof and to such extent as may be necessary for the effectual working of such minerals.

2. If at any time subsequent to the date of sale any land so sold should be shown to be of value as a town site, and if the owner thereof decides to survey it into town lots, or if the same within ten years from the date of sale is used or occupied as a town site by the residence thereon upon a tract not exceeding one mile square of two hundred persons or upwards, then it is a condition of the original sale that the Government of Canada shall own absolutely for its own use or sale, one-third of the blocks of lots in such town site, that is to say, the owner will hold two blocks and the Government one block in turn on an arrangement to be approved by the Commissioner of the District, and the sale of such Government Blocks shall be by public auction at such time as may be determined by the Commissioner.

3. The Commissioner of the Territory is empowered and instructed to locate town sites where in his opinion it is likely the business of the locality may require them, and shall particularly at once proceed to locate such town sites at the following places:—Dawson City, Fort Selkirk or thereabouts, the Mouth of the Stewart River, as well as other places as aforesaid. The area of such sites shall be of such dimensions as the Commissioner of the Territory may deem advisable and shall be divided into lots of 50

feet frontage by 120 feet in depth, with streets 66 feet in width, unless there be circumstances which prevent the surveying of the lots and streets to the size and width named, in which case the Commissioner may alter these regulations to suit the necessities of the case.

4. At all important points a reserve for public purposes of 40 acres, or more, if deemed necessary, shall be made.

5. No land shall be sold within a distance of one hundred feet of the water's edge of a navigable steam.

6. The first sale of the lots shall be at public auction and shall take place at the town site after a notice thereof has been published in one or more of the newspapers published in the Yukon District and in such other papers as the Minister of the Interior may direct, for a period of not less than thirty days. The notice advertising the sale shall fix an upset price for the lots, which price shall be graded according to the location of the lots.

7. After the first sale by auction the Commissioner may hold other sales by auction in his discretion. Lots undisposed of by auction may be sold by private sale at prices fixed by the Commissioner and approved by the Minister of the Interior.

8. All sale of lots shall be on the following terms, namely :—One-third of the purchase price to be paid in cash at the time of sale, and the balance in two equal payments at six and twelve months respectively after the date of the sale, together with interest upon the unpaid balance at the rate of six per cent per annum.

9. The Commissioner shall have the power, when directing the survey of a town site, to reserve a reasonable number of lots as sites for market places, jails, court-houses, places of public worship, and squares. The Commissioner is also empowered to set apart sufficient blocks of land to be used for burying grounds.

10. All applications for coal lands shall be made to the Crown Timber and Land Agent who will be empowered to sell such lands, subject to the approval of the Commissioner, at forty dollars per acre cash if the coal is anthracite, and twenty dollars per acre cash for any other class of coal. The sale of such lands to be subject to the other conditions imposed in the sale of other public lands, with reference to their maintenance or town site purposes.

11. Licenses and permits for hay and grazing lands shall be granted by the Crown Timber and Land Agent subject to the general authorization of the Commissioner and the regulations of the Department in that behalf.

12. Where land is deemed to be especially valuable the Minister may authorize the Commissioner to have the same surveyed into blocks of such size as may be thought advisable and sold by public auction. 10–4

NOTICE TO MARINERS.

No. 47 of 1898.

DOMINION OF CANADA—ONTARIO.

ENTRANCE TO OWEN SOUND HARBOUR.

Removal of old pier.—The cribwork pier on which the front range light at the entrance to Owen Sound Harbour, Georgian Bay, Ontario, originally stood, on the west side of the channel, 900 feet N. 29° 30' E. from the outer extremity of the west breakwater pier, has been removed by the Government dredge, in the course of work in progress in widening the entrance to the harbour. This is the pier referred to in Notice to Mariners No. 61 of 1897.

Buoyage of channel.—It is understood that the edges of the dredged channel leading from the deep water of Owen Sound to the opening between the Government breakwaters have been well marked by spar buoys, established by the Corporation of the Town of Owen Sound. There is said to be two distinct rows of buoys, red on the starboard and black on the port side of the channel, but no particulars have reached this Department respecting their number and positions.

NOTICE TO MARINERS.

No. 48 of 1898.

DOMINION OF CANADA.—NOVA SCOTIA.

I.—BUOY ON JERSEYMAN ISLAND SHOAL.

A conical steel buoy, painted red, has been established by the Government of Canada off the outer end of the shoal extending westerly from Jerseyman Island, on the southern side of Crid Pass, entrance to Arichat Harbour, South coast of Cape Breton.

Lat. N. 45° 29' 85"
Long. W. 61° 4' 0"

The buoy is moored in 6 fathoms water. From it Jerseyman island light bears E. by N., distant ¾ mile.

This notice affects Admiralty charts Nos. 2342 and 2756.

II.—CHANGE IN CHETICAMP LIGHTHOUSE.

In 1896 a change was made in the lighthouse building near the south-west end of Cheticamp Island, on the Gulf of St. Lawrence coast of Cape Breton Island, which somewhat altered its appearance and slightly changed the position of the light. The tower, which rose from the roof on the western face of the low white wooden dwelling, was removed, and a new tower was built on the north side of the dwelling and connected therewith by a short covered passage way.

The new tower is a square wooden building with sloping sides, painted white, surmounted by a polygonal iron lantern painted red. The height from the base of the building to the vane on the lantern is 36 feet.

The light remains as heretofore, a revolving white catoptric light, the flashes attaining their greatest brilliancy every 45 seconds. It is elevated 149 feet above high water mark, and should be visible 18 miles from all points of approach by water except where shut in by the high land of Cheticamp Island.

This notice affects Canadian List of Lights and Fog Signals, No. 312.

III.—ROCK NORTHWARD OF COAL POINT.

Information, dated 21st June, 1898, has been received from Commander H. E. Purey-Cust, H.M.S. "Rambler," that the rock locally known as Davis head shoal, on which the S.S. "Ailsa Craig" struck in 1897, lies N. ¾ W. 8 cables from Coal point, Indian bay, Cape Breton island.

Lat. N. 46° 15' 30"
Long. W. 60° 2' 10"

This rock is of small extent, with 12 feet least water on it; there is deeper water between the rock and the shore. As far as the examination showed, this is the outside danger, but vessels should give Coal point, as well as the other points in this locality, a berth of one mile in passing.

This notice affects Admiralty charts Nos. 232a and 2727, and St. Lawrence Pilot, vol. ii., 1895, page 296.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 22nd August, 1898.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

Referring to Notice to Mariners No. 61 of 1895, further notice is hereby given that the Government breakwater at Andersons Hollow, Chignecto Channel, County of Albert, New Brunswick, has been repaired and a new lighthouse tower has been erected on it near its outer end.

Lat. N. 45° 37' 30"
Long. W. 64° 49' 45"

The light is a fixed red light elevated 23 feet above high water mark, and should be visible 6 miles from all points of approach by water. The illuminating apparatus is dioptric of the 7th order.

The tower is an enclosed wooden building, square in plan, with sloping sides, surmounted by a square wooden lantern, and is painted white throughout. It is 24 feet high from the pier to the vane on the lantern.

This notice affects Admiralty charts Nos. 353, 2516 and 2617, and Canadian List of Lights and Fog Signals No. 77.

NOTICE TO MARINERS.

No. 50 of 1898.

NEWFOUNDLAND.

I.—Improvement of light and establishments of fog signal on Channel head.

The Acting Minister of Marine and Fisheries of the Colony of Newfoundland has given notice to mariners that the light and fog signal on Channel head, referred to in Canadian Notice to Mariners No. 4 of 1898, part II, are completed and were to be put in operation on the 25th July last, as follows :—

The fixed red light heretofore shown from a wooden tower has been replaced by a fixed red fourth order dioptric light, exhibited from a circular iron tower, painted white. The focal plane of the light is 101⅓ feet above water, and 29⅓ feet above the base of the tower, and the light should be visible 15½ miles from all points seaward.

A fog signal structure has been established 60 feet south of the light tower, from which a 4-ounce cotton-powder cartridge will be fired automatically every 8 minutes.

The fog signal structure, lighthouse and keeper's dwelling are connected by covered ways, the side of which are painted white, roof black. A red brick magazine stands 30 feet north-east from the light tower.

II.—Buoyage of Baldwin rocks.

Further, that to indicate the position of Baldwin rocks, entrance to Port aux Basques three spar buoys have been moored, one on the Western Baldwin, in 3½ fathoms, painted black and white in horizontal bands ; one on the Eastern Baldwin, in 3½ fathoms, painted red ; one on a shoal lying between the Eastern Baldwin and Road island, in 3½ fathoms, painted white " luminous " paint.

III.—Range lights at Port aux Basques.

Further, that the proposed range lights to mark the channel between Baldwin rock, entrance to Port aux Basques were to be put in operation on the 28th July last, as follows :—

Front light.—An occulting white light, giving equal periods of light and darkness of 1½ seconds' duration, elevated 22½ feet above water. The structure is erected on the extreme south-west point of Road island and is a square pyramidal tower, surmounted by a square lantern, with a single window, and is painted white.

Rear light.—An occulting white light, giving equal periods of light and darkness of 1 seconds' duration, elevated 81 feet above water. The structure, 15 feet high from base to window, is similar to the front range building, and stands on the mainland 490 yards N. W. by N. ¼ N. from the front light.

These notices affect Admiralty charts Nos. 232*a*, 302 and 2828.

IV.—Shoals between Snap rock and Ireland rocks.

Information dated 3rd July, 1898, has been received from Staff Commander W. Tooker, of the surveying vessel *Gulnare*, that an examination confirmed the existence of shoals reported between Snap rock and Ireland rocks in the approach to Notre Dame Bay, in the east coast of Newfoundland, the details of which are as follows :—

Cromwell ledge is about ¾ mile in extent, with irregular rocky bottom ; the least depth ascertained was 6 fathoms at low water springs. Two patches with this depth were found (North *true*), N.E. by N. *mag.* ½ mile apart, the approximate position of the southern 6-fathom patch being latitude N. 49° 50' 00", longitude W. 53° 51' 00".

Jacobs ledge is a patch of small extent with 5½ fathoms on it, lying about 1½ miles easward of Ireland rocks, in approximately latitude N. 49° 52' 10", longitude W. 53° 59' 40".

During bad weather these shoals break heavily.

It is considered that the shoals formerly reported are identical with these, but the bottom in this locality is so foul and irregular that it is quite possible that other rocks may exist.

This notice affects Admiralty charts Nos. 293 and 232*b*.

Justice, Canada.

ATTENDU que par et en vertu du chapitre 32 des Statuts Revisés du Canada, désigné et connu comme "l'Acte des Douanes," il est entre autres choses statué que toutes les factures de marchandises seront faites en cours monétaires du pays d'où elles sont importées, et contiendront un exposé véridique de la valeur de ces marchandises, et en computant la valeur de ce cours monétaire pour établir les droits, le taux adopté sera celui qui aura été prescrit et promulgué de temps à autre par le Gouverneur en conseil, qui est par le présent autorisé à rendre un arrêté à cet effet ; et le taux prescrit sera basé sur la valeur réelle de la monnaie ou du cours monétaire étalon de tel pays comparé à la piastre étalon du Canada, autant que cette valeur comparative sera connue.

Et attendu que notre Gouverneur en conseil a ordonné qu'une proclamation soit émise prescrivant que la valeur du cours monétaire des pays étrangers comparé à la piastre étalon du Canada tel qu'indiqué dans la cédule ci-annexée et marquée "Cédule A" sur la valeur de tel cours monétaire étranger pour fins de douanes, et que toutes les factures de marchandises étrangères faites d'après tels cours monétaires, seront réduites au cours monétaire canadien aux taux qui leur sont assignés dans cette cédule.

Sachez maintenant que par les présentes, par et avec l'avis de Notre Conseil privé pour le Canada, Nous proclamons et déclarons que la valeur des cours monétaires étrangers comparée à la piastre étalon du Canada telle qu'indiquée dans la cédule ci-annexée et marquée "Cédule A" sera la valeur pour établir les droits de tels cours monétaires étrangers et que toutes les factures de marchandises étrangères faites d'après tels cours monétaires seront réduites au cours monétaire canadien aux taux qui leur sont assignés dans cette cédule.

De ce qui précède Nos féaux sujets et tous ceux que les présentes peuvent concerner, sont par les présentes requis d'en prendre avis et d'agir en conséquence.

EN FOI DE QUOI, Nous avons fait émettre Nos présentes Lettres Patentes et à icelles fait apposer le Grand Sceau du Canada. TÉMOIN, Notre Très-fidèle et Bien-aimé Cousin et Conseiller le Très-honorable Sir JOHN CAMPBELL HAMILTON-GORDON, Comte d'Aberdeen ; Vicomte Formartine, Baron Haddo, Methlic, Tarves et Kellie, dans la pairie d'Ecosse ; Vicomte Gordon d'Aberdeen, comté d'Aberdeen, dans la pairie du Royaume-Uni, Baronnet de la Nouvelle-Ecosse, Chevalier Grand-croix de Notre Ordre Très-distingué de Saint-Michel et Saint-George, etc., etc., Gouverneur Général du Canada.

A Notre Hôtel du Gouvernement, en Notre CITÉ d'OTTAWA, ce SIXIÈME jour d'AOUT, dans l'année de Notre-Seigneur, mil huit cent quatre-vingt-dix-huit, et de Notre Règne la soixante-deuxième.

ARRETÉS EN CONSEIL.

[2059]

HOTEL DU GOUVERNEMENT À OTTAWA.

Jeudi, le 1er jour de septembre 1898.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport, daté le 16 juillet 1898, du Ministre de l'Intérieur, déclarant que le conseil de la municipalité de Lansdowne a adopté un règlement, No. 189, ouvrant un chemin sur la demi-nord de la section 11, township 15, rang 14 à l'ouest du 1er méridien, et que par un arrêté du Conseil Exécutif de la province du Manitoba, daté le 28 juin 1898, le dit règlement a été approuvé et confirmé.

Le Ministre déclare de plus que la municipalité a demandé que le terrain couvrant le dit chemin, colorié en rose sur le plan annexé, et d'une étendue de 8·08 acres, lui soit octroyé. Cette section 11 est un terrain d'école vacant, et la requête de la municipalité ne peut en conséquence être accordée, mais le chemin étant représenté comme une nécessité publique le Ministre recommande que l'étendue en question de 8·08 acres soit réservée de la vente et tenue pour les fins d'un chemin public.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

JOHN J. McGEE,
Greffier du Conseil privé.

12-4

REGLEMENTS DE QUARANTAINE.

Par arrêté en conseil daté le 18 d'août 1898, en vertu du chapitre 68, Statuts revisés, intitulé : "Acte concernant la quarantaine."

Tout le service quarantenaire du Canada est sous le contrôle du Ministre de l'Agriculture.

Il y a un officier médical comme Surintendant général des Quarantaines Canadiennes.

Sur la côte du Pacifique il y a un Surintendant médical des quarantaines pour la Colombie-Britannique.

Chaque station de quarantaine est sous la charge immédiate d'un officier médical de quarantaine spécialement nommé.

A chaque station de quarantaine maritime non organisée ou station de quarantaine de l'intérieur, le percepteur des douanes de l'endroit est l'officier de quarantaine pour les fins des présents règlements.

Stations de quarantaine.

Les stations de quarantaine du Canada, sont :—

1. Sur la côte de l'Atlantique,—

(*a.*) Grosse-Ile, dans le fleuve Saint-Laurent, avec Rimouski, la levée Louise et le quai du Grand-Tronc à Lévis, comme stations auxiliaires, province de Québec ;

(*b.*) Halifax, le havre et l'île Lawlor, dans la province de la Nouvelle-Ecosse ;

(*c.*) Saint-Jean, le havre et l'île aux Perdrix, dans la province du Nouveau-Brunswick ;

(*d.*) Sydney, Cap-Breton, dans la province de la Nouvelle-Ecosse ;

(*e.*) Chatham, dans la province du Nouveau-Brunswick ;

(*f.*) Charlottetown, dans la province de l'Ile du Prince-Edouard.

2. Sur la côte du Pacifique,—

(*a.*) William Head, y compris Albert Head, dans le détroit de Fuca, province de la Colombie-Britannique, et comprenant aussi le port de Victoria comme station auxiliaire ; et

(*b.*) Vancouver.

3. Tout autre port, sur les deux côtes, chaque tel port étant désigné comme Station de quarantaine maritime non organisée.

4. Et tout port douanier intérieur sur la frontière canadienne, entre les océans Pacifique et Atlantique, chaque tel port étant désigné comme Station de quarantaine intérieure non organisée.

5. Tout officier de quarantaine à une station de quarantaine en Canada, et tout percepteur des douanes en sa capacité d'officier de quarantaine, seront, pour les fins des présents règlements, juges de paix en vertu des dispositions de l'article 5 de l'*Acte concernant la quarantaine*, chap. 68 des Statuts revisés.

Dispositions générales.

6. Tout navire arrivant d'un port en dehors du Canada à une station de quarantaine organisée sera inspecté par un officier de quarantaine dûment nommé, à l'endroit dûment fixé pour cette inspection, et il ne lui sera pas permis de faire une déclaration à la douane à aucun port du Canada tant qu'il n'aura pas reçu une patente de santé.

(*a.*) Si un navire venant d'un port infecté et en destination d'un port en Canada qui est une station de quarantaine non organisée, a à passer une station de quarantaine organisée, il lui faudra arrêter à cette dernière station avant de continuer sa route.

7. Il ne sera permis à aucune personne de débarquer d'un navire tant que cette personne n'aura pas été déclarée par un officier de quarantaine exempte de maladie contagieuse, ni tant que cet officier ne sera pas satisfait que ce débarquement peut s'effectuer sans danger pour la salubrité publique.

8. Tout navire venant d'un port en dehors du Canada, et ayant besoin d'une inspection quarantenaire, devra, en arrivant à un port quelconque du Canada hisser un pavillon jaune à l'avant comme signal distinct de quarantaine, de façon à informer l'officier de quarantaine que ses services sont requis, et tout navire arrivant la nuit exhibera un feu rouge à l'avant comme tel signal.

9. Les cabotiers de Terreneuve et de ports des Etats-Unis contigus au Canada, et exempts de maladie contagieuse pourront, de temps à autre, être exemptés des présents règlements par ordre du Ministre de l'Agriculture.

10. Tout navire de guerre de Sa Majesté ou tout transport portant des troupes de Sa Majesté, accompagné d'un médecin, et n'ayant pas de maladie à bord, est exempt de l'inspection et de la détention quarantenaires.

Détention quarantenaire.

11. Chaque officier de quarantaine devra s'assurer de la présence ou de l'absence d'une maladie infectieuse par une inspection personnelle des personnes à bord, ou par la déclaration assermentée du capitaine ou du chirurgien, en la formule ci-jointe, ou par les deux.

12. Tout navire ayant de la maladie contagieuse à bord, ou venant d'un port ou pays infecté, sera sujet à être détenu à une station de quarantaine pour y être désinfecté, ainsi que ses passagers, son équipage et son pilote, et le bagage des passagers et la cargaison.

(*a.*) Un navire pourra être détenu à la quarantaine, pour être désinfecté, pendant tout le temps que la chose sera nécessaire ;

(*b.*) Le temps pendant lequel un navire pourra être détenu en quarantaine d'observation, est la période acceptée de l'incubation de la maladie contre laquelle l'on se garde à compter de la date constatée de la dernière exposition possible.

13. Tout navire ainsi détenu par ordre de l'officier de quarantaine sera sans délai ancré ou mouillé à l'endroit que fixera l'officier de quarantaine.

14. Et tant que ce navire est ainsi détenu, personne ne quittera le navire, ni n'aura de communication avec tel navire, sans la permission de l'officier de quarantaine.

15. L'officier de quarantaine qui détiendra un navire comme susdit, devra immédiatement avertir le Ministre de l'Agriculture, et donner la cause de cette détention.

16. D'après l'interprétation des présents règlements, un port ou pays infecté est un port ou pays où le choléra asiatique ou autre maladie épidémique a été communiqué à une ou plusieurs personnes par la voie d'une personne ou d'effets d'habillement infectés ou autrement. Un port ou pays n'est pas considéré infecté lorsqu'il ne s'est déclaré qu'un simple cas ou un petit nombre de cas et que la maladie n'a pas été communiqué par ces cas.

Heures d'inspection—Retour en mer—Frais.

17. Tout navire pourra être inspecté en tout temps pendant les vingt-quatre heures.

(*a.*) Sauf que dans les temps d'épidémie le Ministre de l'Agriculture pourra ordonner que l'inspection ne se fasse que pendant les heures de jour ;

(*b.*) Toutes les inspections quarantenaires, à l'exception de celles faites en vertu de l'article 46 (*a*), seront faites sans frais contre le navire.

18. Tout navire aura le droit, avant de rompre son chargement, de retourner en mer au lieu de se mettre en quarantaine, tel que prévu par l'article 9 de l'acte intitulé *Acte concernant la quarantaine*, chap. 68, Statuts revisés.

19. Tous les frais encourus pour l'entretien des personnes en santé qui pourraient avoir été exposées à l'infection, et sont détenues en quarantaine d'observation, seront à la charge du navire.

(*a.*) Et le capitaine d'un navire pourra faire des arrangements avec l'officier de quarantaine pour débarquer les provisions nécessaires et les serviteurs ou économes pour les distribuer à l'endroit où les passagers sont débarqués ;

(*b.*) Les personnes actuellement malades seront traitées et soignées dans les hôpitaux de quarantaine, aux frais du gouvernement ;

(*c.*) S'il est permis à un navire de continuer en route et de laisser ses passagers en quarantaine, le transport subséquent de tels passagers de la quarantaine au port de destination sera à la charge du navire ;

(*d.*) Les appareils, les matériaux et la main-d'œuvre pour désinfection sont fournis par le gouvernement sans frais contre le navire.

Maladies quarantenaires.

20. Les principales maladies quarantenaires sont : le choléra asiatique, la petite vérole, le typhus, la fièvre jaune et la peste. Les maladies secondaires, sont la fièvre scarlatine, les fièvres entériques (typhoïdes), la diphtérie, la rougeole et la varicelle (petite vérole volante).

(*a.*) En sus de ce qui précède il est du devoir de tout officier de quarantaine de s'assurer de la présence ou de l'absence de toute autre maladie contagieuse ou infectieuse ;

(*b.*) Et quant à la lèpre, il est du devoir de chaque officier de quarantaine, surtout sur la côte du Pacifique, de bien s'assurer de la présence ou de l'absence de cette maladie parmi les passagers ; et advenant la découverte de quelque cas de cette maladie, la personne atteinte n'aura pas la permission de descendre à terre, mais elle devra être ramenée par le navire à l'endroit d'où elle vient.

Les pilotes fourniront les règlements.

21. Chaque pilote devra fournir au capitaine de tout navire arrivant à un port en Canada, un exemplaire des présents règlements sous peine de l'amende ci-après prescrite.

Vaccination.

22. Chaque passager sera tenu de prouver à la satisfaction de l'officier de quarantaine qu'il a été vacciné ou qu'il a déjà eu la petite vérole.

23. La production d'un certificat par le chirurgien du navire, appelé "Carte de protection," et sa déclaration sous serment à l'appui de la vérité de ce certificat, seront considérées par l'officier de quarantaine comme preuve de cette vaccination et de cette protection. Toutefois, l'officier de quarantaine pourra, de temps à autre, faire un examen personnel des porteurs de ces certificats, afin de s'assurer de la manière que ces certificats ont été émis.

24. Toute personne qui ne donnera pas une preuve satisfaisante d'avoir été vaccinée ou d'avoir eu la petite vérole, sera vaccinée par un officier de quarantaine, ou, dans le cas de refus, sera débarquée à la station de quarantaine, pour y subir une quarantaine d'observation ; et les frais d'entretien de cette personne pendant cette quarantaine d'observation seront une dette sur le navire.

(*a.*) Un navire qui arrive à une station de quarantaine en Canada sera moins sujet d'être détenu si la vaccination de tous les passagers d'entrepont qui n'offrent aucune preuve d'avoir été vaccinés dans les derniers sept ans, est exigée avant l'embarquement. Le chirurgien du navire devrait s'assurer du fait vis-à-vis de chaque passager au début de la traversée, ou au temps de l'embarquement si possible, afin d'être en état de répondre aux questions que lui posera l'officier de quarantaine.

25. Si la petite vérole s'est déclarée sur un navire, chaque passager à bord qui n'offre aucune preuve satisfaisante d'avoir été vacciné dans le cours des derniers sept ans, ou d'avoir eu la petite vérole durant cette période, sera vacciné par ou sous la surveillance de l'officier de quarantaine ; ou, dans le cas de refus, il sera débarqué à la station de quarantaine, sujet à la détention pour observation, et les frais d'entretien de cette personne ou de ces personnes pendant cette détention sera une dette sur le navire.

Examen.

26. L'officier de quarantaine examinera le chirurgien ou tout officier d'un navire, sous serment, touchant l'état de santé de ce navire et de chaque personne à bord, dans la forme de questions annexées aux présents règlements.

Isolement.

27. Tout navire muni d'un hôpital isolé pour les hommes, et un autre pour les femmes, sur le pont supérieur, ventilé d'en haut et non par la porte seulement, pourra, s'il est prouvé à la satisfaction de l'officier de quarantaine que cet hôpital a été promptement et intelligemment employé, continuer sa route après avoir mis à terre les malades, et après la désinfection de l'hôpital qui aura servi ; néanmoins, tout navire qui arrivera avec quelque maladie infectieuse, sans être muni de ces hôpitaux spéciaux isolés et ventilés, ou, étant muni de ces hôpitaux, sans preuve satisfaisante qu'ils ont été promptement ou intelligemment employés, sera sujet à être détenu pour être désinfecté à une station de quarantaine.

Malles à Rimouski.

28. Dans le cas d'un navire portant les malles de Sa Majesté et arrivant par la voie du Saint-Laurent, le certificat d'acquit sera accordé par un officier de quarantaine à Rimouski ou Grosse-Ile, et dans le cas de tout autre navire à la Grosse-Ile seulement, à moins qu'une permission spéciale au contraire ne soit obtenue du ministre de l'Agriculture.

(*a.*) Sauf que durant un temps de choléra ou autre épidémie, la permission accordée à un paquebot-poste venant d'un port ou pays infecté, de débarquer des passagers à Rimouski, pourra être suspendue par ordre du ministre de l'Agriculture ;

(*b.*) Et dans ces conditions les malles seules seront débarquées à Rimouski, le navire continuant sa route à la Grosse-Ile pour inspection ;

(*c.*) Si le choléra s'était déclaré à bord de ce navire dans le cours de la traversée, les sacs extérieurs contenant les matières postales seront laissés à bord du vapeur pour être désinfectés à la Grosse-Ile.

Désinfection du bagage.

29. En temps de choléra ou autre épidémie, le bagage des immigrants ou passagers sur un navire arrivant à un port du Canada, que ce navire vienne ou non d'un port ou pays infecté, pourra, par ordre du Ministre de l'Agriculture, être désinfecté dans chaque cas.

(*a.*) Lorsque cette désinfection est faite à une station auxiliaire, subséquemment à l'inspection et acquit à la station principale, l'acquit accordé par l'officier quarantenaire portera comme condition que les immigrants et leur bagage seront débarqués pour être désinfectés.

(*b.*) L'officier surveillant cette désinfection comptera les immigrants à mesure qu'ils débarquent, et s'il trouve que le nombre s'accorde avec le nombre marqué sur l'acquit de l'officier de quarantaine, et a une preuve satisfaisante que tout leur bagage a été débarqué avec eux, il poinçonnera l'acquit à l'endroit marqué à cette fin, et cet acquit sera alors reçu à la douane.

Certificats de passage.

30. Chaque officier de quarantaine maritime poinçonnera le "Certificat de passage International" d'immigrants, quand ce certificat est en usage, de manière à faire connaître aux officiers de santé à l'intérieur le résultat de l'inspection quarantenaire, tel que prévu par cette carte ou certificat.

(*a.*) Chaque officier de quarantaine maritime poinçonnera la liste des immigrants par destination, province, (ou Etat s'ils sont en destination des Etats-Unis), quand de telles listes sont en usage, que fournira le chirurgien du navire sur des formules fournies par le gouvernement, et transmettra ces listes sans délai au secrétaire du bureau d'hygiène dans la province ou Etat où ces immigrants sont destinés.

Remorqueurs à vapeur.

31. Tout remorqueur ou autre navire à vapeur qui aura remorqué ou autrement communiqué avec un navire de la classe de ceux sujets à la quarantaine ou l'inspection quarantenaire, sera, par ce fait, soumis aux mêmes règlements et exigences qui s'appliquent au navire avec lequel il y aura eu communication.

(*a.*) Si la communication entre le navire et le remorqueur à vapeur se borne à l'amarrage d'un câble, qui est ensuite relâché, l'officier de quarantaine pourra décider d'exempter ce remorqueur de la détention quarantenaire.

Guenilles.

32. Les guenilles venant d'un port ou pays où sévit une maladie infectieuse, pourront être prohibées, et le nom de tout port ou pays ainsi infecté sera, de temps à autre, publié dans la *Gazette du Canada*.

(*a.*) Les guenilles venant de ports prohibés à une station de quarantaine, seront sujettes à être brûlées ou autrement traitées sur l'ordre du ministre de l'Agriculture basé sur un rapport de l'officier de quarantaine.

Nouvelles marchandises.

33. Les nouvelles marchandises en général pourront être acceptées sans question.

Périodes d'épidémie.

34. Pendant une période de maladie épidémique les passagers devraient être avertis par les agents de vapeurs de se dispenser, autant que possible, de bagage que l'eau pourrait gâter, dans le cas où il leur faudrait subir la désinfection—tels que les tissus dont les couleurs pourraient déteindre—vu que les propriétaires seront obligés de supporter tous les risques de dommages.

35. Durant une période de maladie épidémique les navires devraient se dispenser, autant que possible, des tentures, rideaux, tapis, etc., de laine, et y substituer des couvertures non absorbantes.

36. Chaque navire portant cargaison, et sujet à être désinfecté, devrait être muni d'un conduit en charpente uni, donnant un espace libre de 12 pouces partout à l'intérieur, placé dans la grande écoutille, pour un navire à voiles ; et un dans chaque écoutille d'un vapeur, divisé par des cloisons. La charpente de ce conduit serait posée avant le chargement, et s'étendrait de l'écoutille au fond de cale. Ce simple arrangement recevrait le tuyau de fumigation et éviterait de déranger la cargaison.

Passagers.

37. Pour les fins des présents règlements, les passagers sont divisés en deux classes : cabine et entrepont. Les passagers d'entrepont sont ceux qui occupent des compartiments autres que ceux de premières et de secondes.

Méthodes de désinfection.

38. Les méthodes de désinfection aux stations de quarantaine du Canada seront comme suit :—

(*a.*) Exposition à la vapeur pas moins que 30 minutes, température de la vapeur pas moindre que 100° centigrade (212° Fahrenheit) ni plus élevée que 115° centigrade (239° Fahrenheit) ;

(*b.*) Les articles susceptibles d'être détruits par la susdite méthode seront désinfectés en les mouillant parfaitement avec une solution de chlorure mercurique, dans la proportion d'une partie dans mille, ou disons un drachme dans un gallon, mesure de vin, ce qui peut se faire par le moyen d'une brosse, ou par l'arrosage ou le trempage ; ou,

(*c.*) Si l'on emploie du dioxyde de soufre, on l'obtient en brûlant pas moins de 3 livres de soufre en canon par 1,000 pieds cubes d'espace, ou si on l'emploie sous forme liquide, de la même force proportionnée, et la période d'exposition sera d'au moins 6 heures.

(*d*) Lorsque l'on se sert du gaz formaldehyde, il doit être employé à une force d'au moins 2 pour cent par volume, la durée de l'exposition n'étant pas moins que douze heures. Le gaz peut être produit par une des méthodes suivantes :

(1.) De l'alcool méthylique (de bois) au moyen de lampes spéciales, employant pas moins de 600 grammes (750 centimètres cubes, 1⅘ chopine) d'alcool méthylique pour chaque 25.5 mètres cubes (1,000 pieds cubes) d'espace, la durée de l'exposition étant d'au moins douze heures.

Les lampes qui servent à dégager le gaz formaldehyde de l'alcool méthylique devraient changer au moins 1 litre (1.0 pinte) de l'alcool dans une heure.

(2.) D'une solution aqueuse, contenant 40 pour cent du gaz, appelé formaline, formol ou formalose. Le gaz est mieux dégagé de ces solutions par l'addition de 10 à 30 pour 100 d'un sel neutre, chlorure de calcium ou nitrate de soude préféré, et en chauffant le mélange dans une chaudière spéciale. Un litre d'une solution de 40 pour 100 de gaz formaldehyde dégage environ 1,425 litres (50.1 pieds cubes) du gaz à 20° C. (68° F.) et suffira pour 71 mètres cubes (2,505·5 pieds cubes) d'espace.

Après la désinfection des appartements (d'entrepont, de cabines ou du gaillard d'avant) au moyen du gaz formaldehyde, ce dernier devrait être neutralisé par du gaz ammoniacal produit de l'eau d'ammoniaque par la chaleur, ou par l'évaporation de l'eau d'ammoniaque arrosée sur le plancher.

Note.—La quantité d'eau d'ammoniaque requise pour la neutralisation après chacune des susdites méthodes est comme suit : Après la méthode (1) (1.01 pinte) d'eau d'ammoniaque par chaque 1,000 centimètres cubes (1.01 pinte) d'alcool de bois employé ; après la méthode (2) 1¼ litre (1.26 pinte) d'eau d'ammoniaque pour chaque litre (1.01) pinte de formaline ; après la méthode (3) 1 litre d'eau d'ammoniaque pour chaque 150 grammes (5 onces) de trioxyméthylène.

Le formaldehyde peut aussi être employé dans la chambre ordinaire de désinfection à la vapeur, où elle est munie d'un appareil pour créer le vide et d'un appareil spécial pour dégager et appliquer le gaz. Le gaz devrait être appliqué sec dans au moins 20 pour 100 de force par volume, la durée de l'exposition étant d'au moins une heure. Les hardes, literies, etc., ainsi désinfectés devraient être exposées *in situ* à une égale somme de gaz ammoniacal produit par l'appareil spécial attaché à la chambre, employant 1 litre d'eau d'ammoniaque pour chaque litre de formaline ; ou bien l'on peut employer du gaz ammoniacal comprimé.

Note.—L'appareil spécial doit consister en un générateur construit en cuivre rouge, pour dégager le gaz formaldehyde de ses solutions, et d'un autre générateur en fer pour dégager le gaz ammoniacal de la neutralisation.

9. La désinfection des navires en fer se fera comme suit, selon le cas :—

(*a.*) *Cales.*—Après le nettoyage mécanique, la cale sera parfaitement lavée avec une solution acidique de chlorure mercurique, 1 dans 800 (chlorure mercurique, 1 partie, acide hydrochlorique 2 parties, eau 800 parties), appliquée à toutes les surfaces au moyen d'un boyau. Si l'on redoute les effets dangereux du mercure déposé sur les surfaces, on pourra les laver plus tard avec de l'eau nette ; on peut aussi faire la fumigation au moyen du dioxyde de soufre ou du formaldehyde ;

(*b.*) *Entrepont.*—Le même traitement devrait être appliqué à l'entrepont qu'à la cale, mais quand le navire est muni d'un tuyau à vapeur pour chaque compartiment (en cas d'incendie), la désinfection à la vapeur de l'entrepont sera pratiquée. La température dans toutes les parties de chaque compartiment ne sera pas moindre que 100° C. (212° Fahr.) ;

(*c.*) *Gaillard d'avant ou département de l'équipage.*—Après le nettoyage mécanique, l'application du chlorure mercurique de la manière ci-dessus décrite, ou le dioxyde de soufre ou formaldehyde, ou la désinfection à la vapeur, si des facilités sont fournies à cette fin :

(*d.*) *Quartiers des officiers, cabines, etc.*—Chaque compartiment recevra le même traitement, dans les mêmes conditions que ci-dessus, mais il faudra se rappeler que les décorations en métal dans les cabines, salons, etc., seraient gâtées par l'usage de la solution de chlorure mercurique, et en conséquence, il faudra employer d'autres formes de désinfection, selon que le décidera l'officier de quarantaine.

40. La désinfection des navires de bois se fera comme suit, selon le cas :—

(*a.*) Fumigation au moyen de dioxyde de soufre obtenu en brûlant pas moins que 3 livres de soufre en canon pour chaque 1,000 pieds cubes d'espace ; ou au moyen du dioxyde de soufre liquide dans la même proportion ; et la durée de l'exposition sera d'au moins 24 heures ;

(*b.*) Ou la fumigation par le formaldehyde, tel que dit ci-dessus :

(*c.*) Lavage ou arrosage avec une solution acidique de chlorure mercurique (1 dans 800). Cabines, gaillard d'avant et autres appartements seront parfaitement lavés avec une solution mercurique.

41. Dans toutes les catégories de navires, tous les vêtements, literie, rideaux, etc., seront exposés à la vapeur pendant 30 minutes, a une température de 100° C. (212° Fahr.) à 115° C. (239° Fahr.)

42. Dans toutes les classes de navires les fonds de cales seront d'abord remplis d'eau de mer ou de rivière, vidés par les pompes et ensuite traités d'une solution de chlorure mercurique en grande quantité, laissée en contact longtemps.

Stations de quarantaine maritime non organisées.

43. A tout port où il n'y aura pas de station de quarantaine régulière, le percepteur des douanes sera

l'officier de quarantaine pour les fins des présents règlements ; et dans le cas de maladie, ce percepteur pourra, pour les fins des présents règlements, appeler un médecin, qui sera, tant qu'il sera ainsi employé, censé être un officier de quarantaine ; et chaque tel port sera désigné comme station de quarantaine maritime non organisée.

44. Tout navire arrivant d'un port infecté à une station de quarantaine maritime non organisée, ou à bord duquel serait survenu quelque décès d'une maladie infectieuse ou se serait déclarée quelque maladie infectieuse pendant la traversée, restera au large jusqu'à ce qu'il reçoive de l'officier de quarantaine la permission d'entrer.

45. Tous les règlements applicables aux stations de quarantaine maritime régulièrement organisées s'appliqueront aussi à chaque station de quarantaine maritime non organisée en tant que les circonstances le permettront, et surtout les dispositions touchant l'inspection, l'ancrage et le mouillage, la désinfection, les acquits de douane, le retour en mer avant de rompre le chargement, les questions au chirurgien ou aux officiers du navire, et les amendes.

46. Tout percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine à une station de quarantaine maritime non organisée en Canada, qui apprend ou a raison de soupçonner la présence d'aucune des principales maladies quarantenaires citées à l'article 20 des présents règlements, ordonnera qu'il soit fait une inspection médicale du navire apportant cette maladie ;

(*a.*) Si un navire arrive à une station de quarantaine maritime non organisée avec de la maladie sujette à quarantaine à bord, le capitaine paiera un honoraire de $4 pour chaque inspection médicale ordonnée par l'officier de quarantaine, et cet honoraire devra être payé avant que l'acquit de douane ne soit accordé ;

(*b.*) S'il ne se trouve pas de maladie à bord d'un navire arrivant à une station de quarantaine maritime non organisée et que l'officier de quarantaine a ordonné d'inspecter, les frais de cette inspection ne seront pas une charge contre le navire, mais seront défrayés par le gouvernement.

(*c.*) Si la maladie trouvée à bord d'un navire, ou l'historique, les conditions, ou les circonstances d'un navire sont telles qu'il paraîtrait au percepteur ou sous-percepteur des douanes que les capacités d'isolation ou de désinfection existant à une station de quarantaine maritime non organisée, sont insuffisantes pour faire face à cette maladie, il en fera rapport immédiatement au ministre de l'Agriculture, lequel pourra, à sa discrétion, ordonner que le navire se rende à une station de quarantaine organisée afin d'obtenir une patente de santé avant de pouvoir faire une déclaration en douane. Et dans ce cas les frais de transfert du navire à la station de quarantaine maritime sera une dette sur le navire.

Stations de quarantaine non organisées de l'intérieur.

47. Chaque port de l'intérieur, sur la frontière du Canada, entre les océans Atlantique et Pacifique, où il se trouve un percepteur ou un sous-percepteur des douanes, sera, pour les fins des présents règlements constitué en station de quarantaine non organisée de l'intérieur.

48. Chaque percepteur ou sous-percepteur des douanes à tout tel port de frontière, sera l'officier de quarantaine.

49. Tout percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine à une station de quarantaine non organisée de l'intérieur en Canada, s'il est informé ou s'il a raison de soupçonner la présence d'une des principales maladies quarantenaires citées à l'article 20 des présents règlements, devra, en temps de choléra ou autre maladie épidémique, faire faire une inspection médicale du char, wagon, véhicule, bateau ou chose apportant cette maladie ;

(*a.*) Et cet officier de quarantaine est autorisé à détenir ce char, wagon, véhicule, bateau ou chose, jusqu'à ce que cette inspection médicale ait été faite à sa satisfaction ;

(*b.*) Tout médecin faisant cette inspection par ordre de l'officier de quarantaine, sera, tant qu'il sera ainsi engagé, le médecin de quarantaine.

50. L'honoraire payable à ce médecin de quarantaine pour chaque telle inspection n'excèdera pas la somme de $4, et dans le cas où il se découvrirait une maladie sujette à la quarantaine, cet honoraire sera payable par la compagnie ou propriétaire du char, wagon, véhicule, bateau ou chose apportant la maladie.

51. Le percepteur ou sous-percepteur des douanes en sa capacité d'officier de quarantaine devra, sur le rapport du médecin de quarantaine, dans un temps de maladie épidémique, s'il découvrait quelqu'une des principales maladies quarantenaires, faire détenir le char, wagon, véhicule, bateau ou chose apportant une personne atteinte de cette maladie infectieuse, jusqu'à ce que les exigences des présents règlements aient été remplies à sa satisfaction ;

(*a.*) Toute telle personne malade ne pourra pas entrer au Canada tant que le médecin de quarantaine ne jugera pas sûr de le lui permettre ;

(*b.*) Tout char, wagon, vehicule, bateau ou chose apportant cette personne malade à la frontière pourra s'en retourner plutôt que de subir la détention quarantenaire ; ou

(*c.*) Le percepteur ou sous-percepteur des douanes, en sa capacité d'officier de quarantaine devra, à sa discrétion sur le rapport du médecin de quarantaine, faire enlever et isoler cette personne malade dans un char ou bateau mis à part dans ce but, ou dans une bâtisse convenable, assez éloignée des autres bâtiments pour prévenir tout contact ou infection ;

(*d.*) Et cet officier de quarantaine pourra faire désinfecter le char, wagon, véhicule, bateau ou chose apportant cette personne malade, au moyen des fumées sulfureuses, ou tout autre mode de désinfection prescrite par les présents règlements adapté aux circonstances du cas.

52. Dans le cas où le choléra ou autre maladie épidémique sévirait dans une partie des Etats-Unis par où passe une voie ferrée qui traverse la frontière du Canada le Gouverneur en conseil pourra, par arrêté publié dans la *Gazette du Canada*, ou dans un extra de la *Gazette du Canada*, basé sur un rapport du Ministre de l'Agriculture, et dans le cas où il n'y aurait pas à ce point de la frontière d'arrangements et d'appareils propices pour enrayer la marche de cette maladie épidémique, ordonner la cessation complète du trafic des passagers à cet endroit ; ou y apporter telle restriction que les circonstances justifieront.

Les officiers de quarantaine donneront les ordres nécessaires —ne pourront recevoir d'honoraire ou de gratification.

53. Chaque officier de quarantaine est autorisé à donner tout ordre nécessaire, ou faire tout acte nécessaire pour l'exécution des présents règlements, et il est de son devoir de signaler toute infraction à ces règlements, immédiatement au ministre de l'Agriculture ;

(*a.*) Aucun officier de quarantaine ni autre personne employée au service quarantenaire du Canada ne devra, directement ou indirectement, recevoir ou prendre d'honoraire ou de gratification ou récompense pour services rendus à toute compagnie, ou propriétaire, capitaine, ou équipage, passagers ou autre personne détenue à une quarantaine, soit maritime soit de l'intérieur ;

(*b.*) Toute personne qui connaîtra de quelque infraction aux présents règlements devrait de suite en faire rapport au ministre de l'Agriculture.

Amendes imposées aux officiers de douanes, pilotes, capitaines, chirurgiens et officiers de navires, etc.

54. Chaque pilote sera muni d'exemplaires imprimés des présents règlements, et il en donnera un au capitaine de tout navire venant d'un port en dehors du Canada, aussitôt en montant à bord, sous peine d'une amende de $50.

55. Chaque percepteur des douanes, ou officier des douanes, sera passible d'une amende de $400, et de l'emprisonnement pendant six mois, s'il permet la déclaration en douane d'un navire qui n'aura pas un acquit de quarantaine conformément aux prescriptions des présents règlements.

56. Chaque capitaine d'un navire sera passible d'une amende de $400 et d'un emprisonnement de six mois, s'il contrevient à aucun des susdits règlements. Le navire répondra de l'amende imposée au capitaine.

57. Tout chirurgien de navire ou autre officier qui manquera de répondre avec exacte vérité aux questions contenues dans la formule ci-jointe, sera passible d'une amende de $400, ou d'un emprisonnement de six mois.

58. Toute infraction au paragraphe *a* de l'article 53 des présents règlements sera considérée être un manquement de devoirs entraînant la démission, l'amende ou l'emprisonnement.

Questions posées sur les officiers de quarantaine, auxquelles les capitaines, chirurgiens ou officiers de navires devront répondre sous serment.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du paragraphe "*h*" de l'article 90 de "l'Acte des terres fédérales," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements ci-joints soient et ils sont par le présent confirmés et déclarés être les règlements qui régissent les terres fédérales dans le territoire du Yukon.

JOHN J. McGEE,
Greffier du Conseil privé.

—

RÈGLEMENTS pour l'administration des terres fédérales dans le district provisoire du Yukon.

1. Toutes demandes d'achat de terre reçues par l'agent des bois et des terres de la Couronne, avant de leur donner suite, seront soumises au commissaire du territoire du Yukon qui est autorisé à disposer de toutes terres publiques par la vente à un prix d'au moins dix piastres par acre, payables comptant lors de la vente, et l'étendue maximum ainsi vendue à la même personne dans la même localité n'excèdera pas quarante acres. Cette vente sera sujette à la réserve à la Couronne de tous les minéraux qui se trouveront dans, sur ou au dessous de ces terres, avec plein pouvoir de les exploiter, et à cette fin d'entrer sur et occuper les dites terres ou telles parties d'icelles et sur telle étendue qui sera nécessaire pour exploiter effectivement ces minéraux.

2. Si en aucun temps après la date de la vente, une terre ainsi vendue se trouve de valeur comme emplacement de ville, et si le propriétaire d'icelle se décide de l'arpenter en lots de ville, ou si dans le cours de dix ans à compter de la date de la vente cette terre est utilisée ou occupée comme emplacement de ville par le fait que deux cents personnes ou plus résident sur icelle dans un rayon d'un mille carré, alors la condition de la vente primitive est que le gouvernement du Canada possèdera absolument pour son propre usage ou vente, un tiers des blocs ou lots dans cet emplacement de ville, c'est-à-dire le propriétaire possèdera deux blocs et le gouvernement un bloc alternativement d'après un arrangement que devra approuver le commissaire du district, et la vente de ces blocs du gouvernement aura lieu à l'enchère publique à l'époque que fixera le commissaire.

3. Le commissaire du territoire est autorisé et chargé de localiser des emplacements de ville aux endroits qu'ils jugera les plus convenables pour le commerce, et il commencera immédiatement à localiser ces emplacement de ville aux endroits suivants :—Dawson-City, Fort Selkirk ou les environs, l'embouchure de la rivière Stewart, ainsi qu'à d'autres endroits comme susdit. Ces emplacements auront les dimensions que le commissaire du territoire jugera convenable, et seront divisés en lots de 50 pieds de front sur 120 pieds de profondeur, avec des rues de 66 pieds de largeur, à moins que certaines circonstances n'empêchent l'arpentage des lots et rues de la dimension nommée, auquel cas le commissaire pourra changer les présents règlements de manière à faire face aux nécessités du cas.

4. A tous les points importants, il sera réservé pour les fins publiques 40 acres, ou plus, si la chose est jugée nécessaire.

5. Aucune terre ne sera vendue plus près que cent pieds du bord d'un cours d'eau navigable.

6. La première vente des lots sera faite à l'enchère publique, et aura lieu sur l'emplacement de ville après qu'avis de cette vente aura été publié dans un ou des papiers-nouvelles publiés dans le district du Yukon, et dans tels autres papiers-nouvelles que le ministre de l'Intérieur décidera, pendant au moins trente jours. L'avis annonçant la vente fixera une mise à l'enchère pour les lots, et ce prix sera gradué selon la situation des lots.

7. Après la première vente à l'enchère, le commissaire pourra faire d'autres ventes à l'enchère à son choix. Les lots non vendus à l'enchère pourront être vendus privément à des prix fixés par le commissaire et approuvés par le ministre de l'Intérieur.

8. Toute vente de lots le sera aux conditions suivantes :—Un tiers du prix d'achat sera payé comptant au temps de la vente, et la balance en deux paiements égaux six et douze mois respectivement après la date de la vente, avec intérêt au taux de six pour cent sur la balance qui restera due.

9. Le commissaire aura le pouvoir en faisant faire l'arpentage d'un emplacement de ville, de réserver un nombre raisonnable de lots comme emplacements pour places de marché, prisons, palais de justice, endroits de culte public, et carrés. Le commissaire est aussi autorisé à mettre à part des blocs de terrain pour servir de cimetières.

10. Toutes demandes pour terrains houillers seront adressées à l'agent des bois et terres de la Couronne, qui sera autorisé à vendre ces terrains, avec l'approbation du commissaire, à quarante piastres l'acre au comptant si la houille est anthracite, et vingt piastres l'acre au comptant pour toute autre espèce de houille. La vente de ces terrains sera soumise aux autres conditions imposées dans la vente des autres terres publiques, relativement à leur entretien pour des fins d'emplacements de ville.

11. Les licences et permis pour des terres à foin ou à pâturage seront accordés par l'agent des bois et terres de la couronne, avec l'autorisation générale du commissaire et conformément aux règlements du département à cet égard.

12. Là où la terre est réputée d'une valeur spéciale le Ministre pourra autoriser le commissaire à la faire arpenter en blocs de dimensions jugées convenables, et les vendre à l'enchère publique. 11-4

Lundi, le 18e jour de juillet 1898.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plait à Son Excellence, en vertu des dispositions du chapitre 6 de l'acte 61 Victoria, intitulé "Acte du Territoire du Yukon," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'émettre et de donner les instructions suivantes, et elles sont par le présent émises et données comme instructions pour l'administration du gouvernement du territoire du Yukon par le commissaire ou le commissaire en conseil du dit territoire :—

Des réunions du conseil auront lieu aux époques et auront la durée qui seront prescrites par des ordonnances du commissaire en conseil, et en sus des réunions régulières du conseil, le commissaire pourra en tout temps convoquer le conseil en en donnant avis aux membres du conseil, selon qu'il le jugera nécessaire. Le lieu de réunion du conseil sera fixé par le commissaire de temps à autre.

Toutes les ordonnances passées par le commissaire en conseil seront, avant de devenir exécutoires, signées par le commissaire, qui est autorisé à réserver toute ordonnance qu'il considérera n'être pas dans l'intérêt du public d'approuver.

Chaque fois que le commissaire réservera une ordonnance il en transmettra, à la première occasion, une copie au ministre de l'Intérieur, et en même temps il énoncera ses raisons pour ne pas l'approuver, après quoi l'ordonnance et l'explication du commissaire seront soumises au Gouverneur général en conseil, pour que ce dernier en dispose selon qu'il le jugera convenable.

Les nominations à des charges créées par ordonnances du commissaire en conseil et les autres nominations de fonctionnaires qui sont payés à même les revenus locaux du territoire, ou au moyen d'honoraires exigés en conformité de ces ordonnances ou autrement, seront dans tous les cas faites par le commissaire.

Sous un délai raisonnable après la date où un fonctionnaire est nommé, le commissaire fera communiquer le fait de cette nomination au ministre de l'Intérieur.

Une nomination faite par le commissaire aura force et effet jusqu'à ce qu'elle soit désapprouvée par le Gouverneur en conseil. Si la nomination d'un fonctionnaire est désapprouvée par le Gouverneur en conseil, cette nomination sera réputée être annulée depuis le jour où le commissaire aura reçu avis de cette désapprobation.

Tous les revenus provenant de sources locales en vertu d'ordonnances du commissaire en conseil, seront administrés en conformité d'ordonnances passées à leur sujet par le commissaire en conseil. Ces revenus seront déposés au crédit conjoint du commissaire et du contrôleur, et ils ne seront déboursés que sur des comptes appuyés de pièces justificatives, au moyen d'un chèque du contrôleur contresigné par le commissaire.

Toutes pièces justificatives pour la dépense de ces revenus seront transmises à l'auditeur général du Canada à la fin de chaque trimestre, accompagnées d'un état financier signé par le contrôleur et contresigné par le commissaire.

Greffier du Conseil privé.

AVIS AUX MARINS.

No. 43 de 1898.

CANADA—QUÉBEC.

I. CHANGEMENTS DANS LES AIDES À LA NAVIGATION DANS LA RIVIÈRE SAGUENAY.

Les changements suivants ont été apportés aux aides à la navigation dans l'abord à Chicoutimi, rivière Saguenay, province de Québec :—

1. La bouée rouge qui marque le bord extérieur des battures de sable, Anse au Foin, sur la côte nord du chenal, a été reculée 2,640 pieds S. 50° E. à l'extrémité la plus dangereuse de la batture.

2. Une bouée-boîte noire a été ancrée dans 12 pieds d'eau sur le côté sud du chenal, dans le nouvel alignement des feux du Poste St. Martin, pour mieux marquer la courbe entre les alignements des feux du Poste St. Martin et les feux de la rivière à Valin.

3. Le feu d'avant du Poste St. Martin a été reculé 14½ pieds au sud de son ancienne position de manière à jeter l'alignement à 1° 5' au sud.

Le nouvel alignement conduit par le milieu du chenal à eau profonde loin des battures vis-à-vis l'Anse au Foin, et évite l'extrémité est de la Batture aux Loups-Marins.

4. La bouée à carreaux ancrée dans le milieu de la traverse marquée par les feux d'alignement de la rivière à Valin, étant une bouée de tribord, a été peinturée en rouge.

5. La bouée-boîte rouge au centre de l'alignement marqué par les feux de la rivière Caribou, a été reculée 500 pieds S. 64° E. pour marquer un endroit de 9 pieds.

6. Une bouée-espar noire a été ancrée sur le côté sud à la courbe de la rivière Caribou pour indiquer la limite du chenal au sud à cet endroit.

Les orientations et distances suivantes entre les feux dans cette partie du chenal sont prises d'une étude faite en 1897, sous le contrôle du ministère des Travaux Publics, par M. F. W. Cowie, aide-ingénieur :—

Du feu d'avant du Poste St. Martin dans sa nouvelle position, le feu d'avant de la rivière à Valin est dans une direction N. 3° 30' E., à une distance de 6,530 pieds, et le feu d'arrière du Poste St. Martin est dans une direction N. 52° 45' O. à une distance de 830 pieds.

Du feu d'avant de la rivière à Valin, le feu d'avant de Savard est dans une direction N. 71° 30' O. à une distance de 5,740 pieds, et le feu d'arrière de la rivière à Valin est dans une direction N. 25° O., à une distance de 710 pieds.

Du feu d'avant de Savard, le feu d'avant de la rivière Caribou est dans une direction S. 79° 30' O., à une distance de 3,145 pieds, et le feu d'arrière de Savard est dans une direction N. 48° O., à une distance de 490 pieds.

Du feu d'avant de la rivière Caribou, le feu d'avant de la rivière du Moulin est dans une direction S. 44° O., à une distance de 7,385 pieds, et le feu d'arrière de la rivière Caribou est dans une direction N. 62° 30' O., à une distance de 720 pieds.

Du feu d'avant de la rivière du Moulin, le feu du quai de Chicoutimi est dans une direction N. 82° 15' O., à une distance de 6,945 pieds, et le feu d'arrière de la rivière du Moulin est dans une direction S. 55° 30' O., à une distance de 400 pieds.

II. Feux sur le lac Saint-Jean.

1. Il n'est pas entretenu de feux maintenant à l'embouchure de la rivière Metabetchouan, ou sur l'île aux Serpents, dans le lac Saint-Jean, et ces feux Nos. 597 et 600 devraient être rayés de la Liste des phares et signaux de brume canadiens.

2. En juin dernier, les feux d'alignement dans le village de Roberval ont été rétablis, et convertis en feux électriques. Le feu d'avant est posé sur la grève à la marque des hautes eaux. Il consiste en une lumière incandescente électrique renfermée dans une lanterne carrée, et renforcée dans l'alignement par un réflecteur. Il est exhibé du haut d'un poteau de 16 pieds, et le feu est à 15 pieds au-dessus de la marque des hautes eaux.

Le poteau du feu d'arrière est à 95 pieds de celui d'avant ; il est haut de 25 pieds, et le feu, qui est semblable à celui d'avant, est à 30 pieds au-dessus de la marque des hautes eaux. Les feux devraient être visibles à 5 milles, et sont destinés à guider les vaisseaux dans le chenal jusqu'au quai de Roberval.

3. Un feu a été établi à l'extrémité de la Pointe Bleue. C'est un feu blanc fixe, à 28 pieds au-dessus de la marque des hautes eaux, et devrait être visible de tous les points d'approche par eau. Il est exhibé dans une lanterne avec des lentilles pressées, hissée sur un poteau blanc haut de 25 pieds, et ayant un petit hangar peinturé en rouge à sa base.

Ce feu devrait être inscrit dans la Liste des phares et signaux de brume canadiens sous le No. 596.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:—

REGULATIONS RESPECTING FOREIGN ORDERS.

1. No subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a warrant under Her Royal Sign-Manual.

2. "Unless the Foreign Decoration shall have been conferred in consequence of active and distinguished service, either at Sea or in the Field, such permission will not be given to any subject of Her Majesty, except in the following cases, if recommended specially by the Secretary of State for Foreign Affairs:—

"(1) The Chief of a Complimentary Mission from Her Majesty.

"(2) A Military or Naval Attaché on the termination of his appointment.

"(3) Any person, not at the time in the service of Her Majesty, who has rendered valuable service to the Sovereign bestowing the Order outside Her Majesty's dominions, or in an Embassy or Legation of that Sovereign in this country."

3. The intention of a Foreign Sovereign to confer upon a British subject the Insignia of an Order must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited to the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the notification required by the preceding clause must be made

not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the notification must be made within two years after the date of such service.

5. After such notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from Naval or Military services before the enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-chief if the application relates to an Officer in the Army, or to the Lords of the Admiralty if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the warrant required by clause 1 to be prepared for the Royal Sign-Manual.

When such warrant shall have been signed by the Queen, a notification thereof shall be inserted in the "Gazette," stating the service for which the Foreign Order has been conferred.

7. The warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such warrant as aforesaid shall contain a clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a Higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding clause shall not be taken to apply to Decorations of the Guelphic Order, which were bestowed on British subjects by Her Majesty's predecessors, King George IV and King William IV, on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Foreign Office, June 23, 1898.

Regulations respecting Foreign Medals.

1. Applications for permission to accept and wear Medals which, not being the Decoration of any Foreign Order, are conferred by a Foreign Sovereign on British subjects in the Army or Navy, should be addressed to the Commander-in-chief or the Lords of the Admiralty, as the case may be, who, if they see fit, may submit the same for Her Majesty's sanction, upon obtaining which they may grant such permission without other formality.

2. Any other British subject, having obtained Her Majesty's permission, is at liberty to accept and wear a Foreign Medal, not being the Decoration of a Foreign Order.

3. No permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

SALISBURY.

JOHN J. McGEE,
Clerk of the Privy Council.

—

REGULATIONS governing the Administration of Dominion Lands in the Provisional District of the Yukon.

1. All applications for the purchase of land received by the Crown Timber and Land Agent shall, before being acted upon, be submitted to the Commissioner of the Yukon Territory who is empowered to dispose of any public lands by sale at a price not less than ten dollars per acre, payable in cash at the time of sale, and the maximum area so sold to the same applicant in the same locality shall not exceed forty acres. Such sale shall be subject to the reservation to the Crown of all minerals which may be found to exist within, upon or under such lands, together with full power to work the same, and for this purpose to enter upon and use and occupy the said lands or so much thereof and to such extent as may be necessary for the effectual working of such minerals.

2. If at any time subsequent to the date of sale any land so sold should be shown to be of value as a town site, and if the owner thereof decides to survey it into town lots, or if the same within ten years from the date of sale is used or occupied as a town site by the residence thereon upon a tract not exceeding one mile square of two hundred persons or upwards, then it is a condition of the original sale that the Government of Canada shall own absolutely for its own use or sale, one-third of the blocks of lots in such town site, that is to say, the owner will hold two blocks and the Government one block in turn on an arrangement to be approved by the Commissioner of the District, and the sale of such Government Blocks shall be by public auction at such time as may be determined by the Commissioner.

3. The Commissioner of the Territory is empowered and instructed to locate town sites where in his opinion it is likely the business of the locality may require them, and shall particularly at once proceed to locate such town sites at the following places :—Dawson City, Fort Selkirk or thereabouts, the Mouth of the Stewart River, as well as other places as aforesaid. The area of such sites shall be of such dimensions as the Commissioner of the Territory may deem advisable and shall be divided into lots of 50 feet frontage by 120 feet in depth, with streets 66 feet in width, unless there be circumstances which prevent the surveying of the lots and streets to the size and width named, in which case the Commissioner may alter these regulations to suit the necessities of the case.

4. At all important points a reserve for public purposes of 40 acres, or more, if deemed necessary, shall be made.

5. No land shall be sold within a distance of one hundred feet of the water's edge of a navigable steam.

6. The first sale of the lots shall be at public auction and shall take place at the town site after a notice thereof has been published in one or more of the newspapers published in the Yukon District and in such other papers as the Minister of the Interior may direct, for a period of not less than thirty days. The notice advertising the sale shall fix an upset price for the lots, which price shall be graded according to the location of the lots.

7. After the first sale by auction the Commissioner may hold other sales by auction in his discretion. Lots undisposed of by auction may be sold by private sale at prices fixed by the Commissioner and approved by the Minister of the Interior.

8. All sale of lots shall be on the following terms, namely :—One-third of the purchase price to be paid in cash at the time of sale, and the balance in two equal payments at six and twelve months respectively after the date of the sale, together with interest upon the unpaid balance at the rate of six per cent per annum.

9. The Commissioner shall have the power, when directing the survey of a town site, to reserve a reasonable number of lots as sites for market places, jails, court-houses, places of public worship, and squares. The Commissioner is also empowered to set apart sufficient blocks of land to be used for burying grounds.

10. All applications for coal lands shall be made to the Crown Timber and Land Agent who will be empowered to sell such lands, subject to the approval of the Commissioner, at forty dollars per acre cash if the coal is anthracite, and twenty dollars per acre cash for any other class of coal. The sale of such lands to be subject to the other conditions imposed in the sale of other public lands, with reference to their maintenance or town site purposes.

11. Licenses and permits for hay and grazing lands shall be granted by the Crown Timber and Land Agent subject to the general authorization of the Commissioner and the regulations of the Department in that behalf.

12. Where land is deemed to be especially valuable the Minister may authorize the Commissioner to have the same surveyed into blocks of such size as may be thought advisable and sold by public auction. 10-4

NOTICE TO MARINERS.

No. 51 of 1898.

DOMINION OF CANADA—BRITISH COLUMBIA.

I. ROCKS IN TEMPLAR CHANNEL.

Captain J. T. Walbran, master of the D. G. S. "Quadra," reports that the shoal shown on Admiralty chart No. 584, north of Village island, and on the starboard side of the dotted track in Templar channel, Clayoquot sound, west coast of Vancouver island, is actually further west than shown and on the port side of the steamboat track.

It is a rock of small extent, slightly marked by kelp, and has a depth of 4 feet on it at low water spring tides. There is a depth of 4 fathoms close to it on each side, except to the southward, where a ledge exists with 2¼ fathoms on it.

He further reports the existence of two rocks off the eastern shore of Wakennenish island, on the port side of the fairway. The more southerly rock has 4 feet on it at low water springs, the more northerly dries 2 feet. Both these rocks are marked by kelp. Midway between them is a small patch with 12 feet on it, 3 and 4 fathoms on each side of it.

Captain Foot, master of the steamer "Willapa," reports that the large bank extending into Disappointment inlet, from its east shore, extends farther north than shown on the chart, and that a channel with 2½ fathoms runs close to the islands on the west shore.

This notice affects Admiralty chart No. 584 and British Columbia Pilot, 1888, pages 295 and 298.

II. DENNY ROCK REPORTED NOT DANGEROUS.

Captain Walbran reports having sounded over the position of Denny rock, near Egg island, Queen Charlotte sound, as given on Admiralty chart No. 2448, with the result that he could find nowhere less water than 7 fathoms. As the rock often breaks and as a lighthouse is being erected in the vicinity, opportunity will be taken to fix the position by the breaker, and to make a further examination for the least depth of water.

This notice affects Admiralty charts Nos. 1923 B. and 2448.

III. POSITION OF MOUSE ROCK.

Captain Walbran has located Mouse rock, off Ivory island, junction of Seaforth channel and Milbank sound, about ½ cable west of the position shown on Admiralty chart No. 2449. This rock is of very small extent, has a depth of 5 feet on it at extreme low water, and is marked by kelp.

IV. PERRIN ANCHORAGE.

Captain Walbran reports that the water between Ivory island and Watch island forms a good anchorage, which he has examined and named "Perrin anchorage."

V. NEW LIGHTHOUSES IN COURSE OF ERECTION.

Lighthouses are in course of erection by the Dominion Government at the following points in the inside channels of British Columbia. Fuller particulars respecting each will be given when the buildings are ready to be put in operation.

1. On Fiddle reef, Mayor channel, between Discovery island and Vancouver island, replacing a day beacon.
2. On Prospect point, or Observation point, First narrows, or Burrard inlet, at the entrance to Vancouver harbour.
3. On the east Sister rock, Stevens passage, Strait of Georgia, replacing a day beacon.
4. On Cape Mudge, south end of Valdes island, Discovery passage.
5. On the rock attached to the west shore of Egg island, Queen Charlotte sound.
6. On the rock known as Surf islet, off the south shore of Ivory island, Seaforth passage and Milbank sound. As Surf islet is really a peninsula of Ivory island, it is proposed in future to call it Surf point and the light will be known as Ivory island light.

F. GOURDEAU,

DÉPÊCHE.

(Circulaire.)

DOWNING STREET,
17 août 1898.

MONSIEUR,—Vu la dépêche circulaire de lord Granville, du 1er mars 1886, j'ai l'honneur de vous transmettre, pour être publiées dans la colonie que vous administrez, copies des Règlements de la Reine touchant les ordres et médailles récemment revisées au sujet des ordres étrangers, et je suis chargé de vous prier de les substituer aux règlements jusqu'ici en force.

Vous observerez que les exceptions dans la règle II des règlements de 1886, ont été étendues.

J'ai l'honneur d'être,
Monsieur,
Votre très humble serviteur,
J. CHAMBERLAIN.

A l'administrateur
du Gouvernement du Canada.

—

Il a plu à la Reine d'ordonner que les règlements suivants concernant les ordres et médailles étrangères soient substitués à ceux qui sont aujourd'hui en force :—

RÈGLEMENTS CONCERNANT LES ORDRES ÉTRANGERS.

1. Nul sujet de Sa Majesté n'acceptera, du souverain d'un pays étranger, un ordre étranger ni ne portera l'insigne de tel ordre, sans avoir d'abord obtenu

de Sa Majesté permission à cet effet, signifié par un mandat sous son seing manuel royal.

2. A moins que la décoration étrangère n'ait été conférée pour service actif et distingué, soit sur mer ou sur terre, cette permission ne sera pas donnée à aucun sujet de Sa Majesté, sauf dans les cas suivants, s'ils sont spécialement recommandés par le Secrétaire d'Etat pour les affaires étrangères :—

"(1) Le chef d'une mission complimentaire de Sa Majesté.

"(2) Un attaché militaire ou naval à l'expiration de sa nomination.

"(3) Toute personne, n'étant pas alors au service de Sa Majesté, qui a rendu de grands services au souverain qui confère l'ordre en dehors des possessions de Sa Majesté, ou dans une ambassade ou légation de ce souverain dans ce pays."

3. L'intention d'un souverain étranger de conférer à un sujet britannique l'insigne d'un ordre, doit être signifiée au principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères, soit par le canal du ministre britannique près la cour de ce souverain étranger, ou par le canal de son ministre près la cour de Sa Majesté.

4. Si le service pour lequel il est proposé de conférer l'ordre a été rendu en temps de guerre, la signification requise par la clause précédente doit être faite pas plus tard que deux ans après l'échange des ratifications d'un traité de paix.

Si le service a été rendu en temps de paix, la signification doit être faite sous deux ans après la date de ce service.

5. Après que cette notification a été reçue, le principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères, si le cas tombe sous les conditions prescrites par les présents règlements, et provient de services navals ou militaires devant l'ennemi, la soumettra au principal secrétaire d'Etat pour la guerre avant de la présenter à Sa Majesté, afin de s'assurer s'il n'existe pas quelque objection à ce que la permission de Sa Majesté soit accordée.

Un semblable renvoi sera aussi fait au commandant en chef si la requête concerne un officier de l'armée, ou aux lords de l'Amirauté si elle concerne un officier de la marine.

6. Lorsque le principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères aura reçu le plaisir de la Reine quant à cette demande, et aura obtenu de Sa Majesté permission pour la personne en faveur de laquelle elle aura été faite, d'accepter l'ordre étranger et porter l'insigne de cet ordre, il signifiera cette permission au principal secrétaire d'Etat de Sa Majesté pour l'Intérieur, afin qu'il fasse préparer pour la signature royale le mandat requis par la clause 1.

Lorsque ce mandat aura été signé par la Reine, la chose sera insérée dans la "Gazette" énonçant le service pour lequel l'ordre étranger a été conféré.

7. Le mandat signifiant la permission de Sa Majesté pourra, à la requête et aux frais de la personne qui l'a obtenue être enregistré au Collège des Armes.

8. Chaque tel mandat comme susdit contiendra une clause prescrivant que la licence et permission de Sa Majesté n'autorisent pas l'assomption d'aucun style, appellation, rang, préséance ou privilège appartenant à un bachelier du royaume de Sa Majesté.

9. Lorsqu'un sujet britannique a reçu la permission royale d'accepter un ordre étranger il lui sera permis, en tout temps après, d'accepter la décoration d'une classe plus élevée du même ordre, à laquelle il pourra être devenu éligible par augmentation de grade dans le service étranger, ou dans le service de son propre pays : ou toute autre marque distinctive d'honneur strictement conséquente avec l'acceptation de l'ordre original, et commune à toute personne à laquelle cet ordre est conféré.

10. La clause précédente ne sera censée s'appliquer aux décorations de l'Ordre de Guelfe, qui furent conférées aux sujets britanniques par les prédécesseurs de Sa Majesté le roi George IV et le roi Guillaume IV, sur les têtes desquels les couronnes de la Grande-Bretagne et du Hanovre furent réunies.

Les décorations ainsi conférées ne peuvent à proprement parler être considérées comme des récompenses conférées par un souverain étranger pour services rendus suivant l'intention de la clause 2 des présents règlements. Elles doivent plutôt être considérées comme des faveurs personnelles accordées à des sujets britanniques par des souverains britanniques, et n'ayant aucun rapport à des services rendus à la Couronne étrangère du Hanovre.

Foreign Office, 23 juin 1898.

RÈGLEMENTS CONCERNANT LES MÉDAILLES ÉTRANGÈRES.

1. Les demandes pour permission d'accepter et de porter des médailles qui, n'étant pas la décoration d'un ordre étranger, sont conférées par un souverain étranger à des sujets britanniques dans l'armée ou la marine, devraient être adressées au commandant en chef ou aux lords de l'Amirauté, selon le cas, qui, s'ils le jugent à propos, peuvent les soumettre à la sanction de Sa Majesté, et en l'obtenant ils peuvent accorder cette permission sans autre formalité.

2. Tout autre sujet britannique, ayant obtenu la permission de Sa Majesté, est libre d'accepter et de porter une médaille étrangère, n'étant pas la décoration d'un ordre étranger.

3. Nulle nécessité d'obtenir permission d'accepter une médaille étrangère, si cette médaille ne doit pas être portée.

(Signé) SALISBURY.

RÈGLEMENTS pour l'administration des terres fédérales dans le district provisoire du Yukon.

1. Toutes demandes d'achat de terre reçues par l'agent des bois et des terres de la Couronne, avant de leur donner suite, seront soumises au commissaire du territoire du Yukon qui est autorisé à disposer de toutes terres publiques par la vente à un prix d'au moins dix piastres par acre, payables comptant lors de la vente, et l'étendue maximum ainsi vendue à la même personne dans la même localité n'excèdera pas quarante acres. Cette vente sera sujette à la réserve à la Couronne de tous les minéraux qui se trouveront dans, sur ou au dessous de ces terres, avec plein pouvoir de les exploiter, et à cette fin d'entrer sur et occuper les dites terres ou telles parties d'icelles et sur telle étendue qui sera nécessaire pour exploiter effectivement ces minéraux.

2. Si en aucun temps après la date de la vente, une terre ainsi vendue se trouve de valeur comme emplacement de ville, et si le propriétaire d'icelle se décide de l'arpenter en lots de ville, ou si dans le cours de dix ans à compter de la date de la vente cette terre est utilisée ou occupée comme emplacement de ville par le fait que deux cents personnes ou plus résident sur icelle dans un rayon d'un mille carré, alors la condition de la vente primitive est que le gouvernement du Canada possèdera absolument pour son propre usage ou vente, un tiers des blocs ou lots dans cet emplacement de ville, c'est-à-dire le propriétaire possèdera deux blocs et le gouvernement un bloc alternativement d'après un arrangement que devra approuver le commissaire du district, et la vente de ces blocs du gouvernement aura lieu à l'enchère publique à l'époque que fixera le commissaire.

3. Le commissaire du territoire est autorisé et chargé de localiser des emplacements de ville aux endroits qu'ils jugera les plus convenables pour le commerce, et il commencera immédiatement à localiser ces emplacement de ville aux endroits suivants :—Dawson-City, Fort Selkirk ou les environs, l'embouchure de la rivière Stewart, ainsi qu'à d'autres endroits comme susdit. Ces emplacements auront les dimensions que le commissaire du territoire jugera convenable, et seront divisés en lots de 50 pieds de front sur 120 pieds de profondeur, avec des rues de 66 pieds de largeur, à moins que certaines circonstances n'empêchent l'arpentage des lots et rues de la dimension nommée, auquel cas le commissaire pourra changer les présents règlements de manière à faire face aux nécessités du cas.

4. A tous les points importants, il sera réservé pour les fins publiques 40 acres, ou plus, si la chose est jugée nécessaire.

5. Aucune terre ne sera vendue plus près que cent pieds du bord d'un cours d'eau navigable.

6. La première vente des lots sera faite à l'enchère publique, et aura lieu sur l'emplacement de ville après qu'avis de cette vente aura été publié dans un ou des papiers-nouvelles publiés dans le district du Yukon, et dans tels autres papiers-nouvelles que le ministre de l'Intérieur décidera, pendant au moins trente jours. L'avis annonçant la vente fixera une mise à l'enchère pour les lots, et ce prix sera gradué selon la situation des lots.

7. Après la première vente à l'enchère, le commissaire pourra faire d'autres ventes à l'enchère à son choix. Les lots non vendus à l'enchère pourront être vendus privément à des prix fixés par le commissaire et approuvés par le ministre de l'Intérieur.

8. Toute vente de lots le sera aux conditions suivantes :—Un tiers du prix d'achat sera payé comptant au temps de la vente, et la balance en deux paiements égaux six et douze mois respectivement après la date de la vente, avec intérêt au taux de six pour cent sur la balance qui restera due.

9. Le commissaire aura le pouvoir en faisant faire l'arpentage d'un emplacement de ville, de réserver un nombre raisonnable de lots comme emplacements pour places de marché, prisons, palais de justice, endroits de culte public, et carrés. Le commissaire est aussi autorisé à mettre à part des blocs de terrain pour servir de cimetières.

10. Toutes demandes pour terrains houillers seront adressées à l'agent des bois et terres de la Couronne, qui sera autorisé à vendre ces terrains, avec l'approbation du commissaire, à quarante piastres l'acre au comptant si la houille est anthracite, et vingt piastres l'acre au comptant pour toute autre espèce de houille. La vente de ces terrains sera soumise aux autres conditions imposées dans la vente des autres terres publiques, relativement à leur entretien pour des fins d'emplacements de ville.

11. Les licences et permis pour des terres à foin ou à pâturage seront accordés par l'agent des bois et terres de la couronne, avec l'autorisation générale du commissaire et conformément aux règlements du département à cet égard.

12. Là où la terre est réputée d'une valeur spéciale le Ministre pourra autoriser le commissaire à la faire arpenter en blocs de dimensions jugées convenables, et les vendre à l'enchère publique. 11-4

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plait à Son Excellence, en vertu des dispositions du chapitre 6 de l'acte 61 Victoria, intitulé " Acte du Territoire du Yukon," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'émettre et de donner les instructions suivantes, et elles sont par le présent émises et données comme instructions pour l'administration du gouvernement du territoire du Yukon par le commissaire ou le commissaire en conseil du dit territoire :—

Des réunions du conseil auront lieu aux époques et auront la durée qui seront prescrites par des ordonnances du commissaire en conseil, et en sus des réunions régulières du conseil, le commissaire pourra en tout temps convoquer le conseil en en donnant avis aux membres du conseil, selon qu'il le jugera nécessaire. Le lieu de réunion du conseil sera fixé par le commissaire de temps à autre.

Toutes les ordonnances passées par le commissaire en conseil seront, avant de devenir exécutoires, signées par le commissaire, qui est autorisé à réserver toute ordonnance qu'il considérera n'être pas dans l'intérêt du public d'approuver.

Chaque fois que le commissaire réservera une ordonnance il en transmettra, à la première occasion, une copie au ministre de l'Intérieur, et en même temps il énoncera ses raisons pour ne pas l'approuver, après quoi l'ordonnance et l'explication du commissaire seront soumises au Gouverneur général en conseil, pour que ce dernier en dispose selon qu'il le jugera convenable.

Les nominations à des charges créées par ordonnances du commissaire en conseil et les autres nominations de fonctionnaires qui sont payés à même les revenus locaux du territoire, ou au moyen d'honoraires exigés en conformité de ces ordonnances ou autrement, seront dans tous les cas faites par le commissaire.

Sous un délai raisonnable après la date où un fonctionnaire est nommé, le commissaire fera communiquer le fait de cette nomination au ministre de l'Intérieur.

Une nomination faite par le commissaire aura force et effet jusqu'à ce qu'elle soit désapprouvée par le Gouverneur en conseil. Si la nomination d'un fonctionnaire est désapprouvée par le Gouverneur en conseil, cette nomination sera réputée être annulée depuis le jour où le commissaire aura reçu avis de cette désapprobation.

Tous les revenus provenant de sources locales en vertu d'ordonnances du commissaire en conseil, seront administrés en conformité d'ordonnances passées à leur sujet par le commissaire en conseil. Ces revenus seront déposés au crédit conjoint du commissaire et du contrôleur, et ils ne seront déboursés que sur des comptes appuyés de pièces justificatives, au moyen d'un chèque du contrôleur contresigné par le commissaire.

Toutes pièces justificatives pour la dépense de ces revenus seront transmises à l'auditeur général du Canada à la fin de chaque trimestre, accompagnées d'un état financier signé par le contrôleur et contresigné par le commissaire.

DEMANDES AU PARLEMENT.

RÈGLES *in re* AVIS DE BILLS PRIVÉS.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

RÈGLE SPÉCIALE DU SÉNAT.

49. (*c.*) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

ORDRE PERMANENT.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

RÈGLES ADDITIONNELLES DE LA CHAMBRE DES COMMUNES CONCERNANT LES BILLS PRIVÉS.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a.*) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

ORDRE SPÉCIAL DE LA CHAMBRE DES COMMUNES.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session ; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

DESPATCHES.

[*Extract from* NEW ZEALAND GAZETTE, 18*th August*, 1898.]

PROHIBITING THE INTRODUCTION OF SCALE-INFESTED PLANTS, AND APPOINTING PORTS OF ENTRY FOR PLANTS, ETC. NOTICE No. 513.

RANFURLY, GOVERNOR.

A PROCLAMATION.

WHEREAS it has been made to appear to my satisfaction that considerable quantities of fruit trees and plants infested with various species of scale insects have been and are still imported into New Zealand, to the danger and detriment of the fruit plantations of this colony; and whereas it is expedient to prohibit the introduction of such fruit trees and plants to this colony:

Now, therefore, I, Uchter John Mark, Earl of Ranfurly, the Governor of the Colony of New Zealand, by virtue of the power and authority conferred upon me by the third section of "The Orchard and Garden Pests Act, 1896" (hereinafter termed "the said Act"), do hereby proclaim and declare that the introduction into New Zealand of any fruit or other trees or plants (including cuttings, buds, or any other portion of a plant except fruit infested with any species of scale insect (coccid), or in or on which there are traces that any such pest is or has been present in any form or stage of development, is hereby absolutely prohibited; and, if any fruit tree, plant, or portion thereof respectively hereby prohibited is imported into this colony, then such trees or plants, and the packages containing the same, shall be dealt with in the manner provided by section six of the said Act with respect to plants and other things unlawfully introduced in the colony; and for the purposes of the said Act I hereby appoint the Ports of Auckland and Wellington to be the only ports of entry for plants, as defined by the said Act.

Given under the hand of His Excellency the Right Honourable Uchter John Mark, Earl of Ranfurly; Knight Commander of the Most Distinguished Order of Saint Michael and Saint George; Governor and Commander-in-Chief in and over Her Majesty's Colony of New Zealand and its Dependencies; and issued under the Seal of the said Colony, at the Government House, at Wellington, this tenth day of August, in the year of Our Lord one thousand eight hundred and ninety-eight.

JOHN McKENZIE,
Minister for Agriculture.

GOD Save The QUEEN! 14-3

(Circular.) DOWNING STREET,
17th August, 1898.

SIR,—With reference to Lord Granville's Circular despatch of the 1st March, 1886, I have the honour to transmit to you, for information in the Colony under your Government, copies of the Queen's Regulations respecting Foreign Orders and Medals recently revised as regards Foreign Orders, and I have to request that they may be substituted for the copies of those previously in force.

It will be observed that the exceptions under Rule II. of the Regulations of 1886 have been extended.

I have the honour to be,
Sir,
Your most obedient, humble Servant,
J. CHAMBERLAIN.

The Officer Administering
the Government of Canada.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force:—

REGULATIONS RESPECTING FOREIGN ORDERS.

1. No subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a warrant under Her Royal Sign-Manual.

2. "Unless the Foreign Decoration shall have been conferred in consequence of active and distinguished service, either at Sea or in the Field, such permission will not be given to any subject of Her Majesty, except in the following cases, if recommended specially by the Secretary of State for Foreign Affairs:—

"(1) The Chief of a Complimentary Mission from Her Majesty.

"(2) A Military or Naval Attaché on the termination of his appointment.

"(3) Any person, not at the time in the service of Her Majesty, who has rendered valuable service to the Sovereign bestowing the Order outside Her Majesty's dominions, or in an Embassy or Legation of that Sovereign in this country."

3. The intention of a Foreign Sovereign to confer upon a British subject the Insignia of an Order must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited to the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the notification required by the preceding clause must be made

not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the notification must be made within two years after the date of such service.

5. After such notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from Naval or Military services before the enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-chief if the application relates to an Officer in the Army, or to the Lords of the Admiralty if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the warrant required by clause 1 to be prepared for the Royal Sign-Manual.

When such warrant shall have been signed by the Queen, a notification thereof shall be inserted in the "Gazette," stating the service for which the Foreign Order has been conferred.

7. The warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such warrant as aforesaid shall contain a clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a Higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding clause shall not be taken to apply to Decorations of the Guelphic Order, which were bestowed on British subjects by Her Majesty's predecessors, King George IV and King William IV, on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Foreign Office, June 23, 1898.

REGULATIONS RESPECTING FOREIGN MEDALS.

1. APPLICATIONS for permission to accept and wear Medals which, not being the Decoration of any Foreign Order, are conferred by a Foreign Sovereign on British subjects in the Army or Navy, should be addressed to the Commander-in-chief or the Lords of the Admiralty, as the case may be, who, if they see fit, may submit the same for Her Majesty's sanction, upon obtaining which they may grant such permission without other formality.

2. Any other British subject, having obtained Her Majesty's permission, is at liberty to accept and wear a Foreign Medal, not being the Decoration of a Foreign Order.

3. No permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

(Signed)
SALISBURY.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

ON a Report, dated 16th July, 1898, from the Minister of the Interior, stating that the Council of the Municipality of Lansdowne has passed a By-law, No. 189, opening up a new road through the north half of Section 11, in Township 15, Range 14, west of the 1st Meridian, and that by an Order of the Executive Council of the Province of Manitoba, dated the 28th June, 1898, the said by-law was approved and confirmed.

The Minister further states that the municipality have made application for a grant of the land covered by the said road, coloured pink on the annexed plan, and containing an area of 8·08 acres. This Section 11 is vacant School land, and the request of the municipality cannot therefore be complied with, but the road being represented as a public necessity, the Minister recommends that the area in question of 8·08 acres be reserved from sale and held for the purposes of a public highway.

NOTICE TO MARINERS.

No. 54 of 1898.

DOMINION OF CANADA—ONTARIO.

IMPROVEMENTS IN THE ENTRANCE TO PARRY SOUND.

I. Old, or north, channel adopted.

In consequence of the greatly increased draft of steamers now navigating Parry Sound, the Government has decided to efficiently mark the old or north channel, south of Pancake island and north of McClelland rock and Carling rock, and to abandon the marking of the new or south channel, north of Gordon rocks and south of Nias islands and Carling rock. Masters are therefore advised to use the old or north channel, which is shorter, straighter and carries better water than the new channel.

II. Gas buoy on Hooper island shoal.

As an aid to the navigation of the old channel, a steel gas buoy, painted red, with the words "Hooper island shoal" in white letters on the sides, surmonted by a red conical slatwork and a red lantern, was, on or about the 15th instant, moored in 3 fathoms water, in the axis of the Jones island range lights, on the 15-foot patch north of Hooper island, replacing the red spar buoy now marking that point.

Lat. N. 45° 19' 49"
Long. W. 80° 18' 37"

The buoy will show a fixed white light elevated 7 feet above the water, from a small dioptric lantern. The light should be visible 3 miles, all around the horizon.

From the buoy the south point of Pancake island bears E.N.E. ½ E., distant 4000 feet.

The substance of this notice should be inserted in the Canadian List of Lights and Fog Signals next after No. 1038.

III. Gas buoy on Spruce island shoal.

As a further aid to the navigation of the old channel, a steel gas buoy, painted black, with the words "Spruce island shoal" in white letters on the sides, surmounted by a black conical slatwork and a red lantern was, on the 9th instant, moored in 4 fathoms water, on the south extremity of the shoal extending south from Spruce island.

Lat. N. 45° 19' 52"
Long. W. 80° 15' 48"

The buoy shows a fixed white light, elevated 7 feet above the water, from a small dioptric lantern, and should be visible 3 miles all around the horizon.

From the buoy McClelland rock beacon bears S.W. by W., distant 1300 feet, the summit of Carling rock bears E. ½ N., distant 5800 feet, and the south extremity of Spruce island bears N.E. ¾ N., distant 2400 feet.

The substance of this notice should be inserted in the Canadian List of Lights and Fog Signals after the description of Hooper island shoal gas buoy.

IV. Gas buoy on Seguin bank.

On or about the 19th instant, the platform buoy described in Part I of Notice to Mariners No. 15 of 1898, marking the south end of Seguin bank, will be replaced by a gas buoy, painted black, with the words "Seguin bank" in white letters on the sides, surmounted by a black conical slatwork cage and by a red lantern. The buoy will be moored in 4 fathoms water, immediately south of the shoalest spot.

Lat. N. 45° 19' 21"
Long. W. 80° 31' 30"

The buoy will show a fixed white light elevated 10 feet above the water, from a small dioptric lantern. The light should be visible 4 miles, all around the horizon.

The substance of this notice should be inserted in the Canadian List of Lights and Fog Signals between Nos. 1033 and 1034.

The three gas buoys above described will be removed from their stations every autumn as soon as their safety is threatened by ice, and will be replaced as soon as danger from ice is past in the spring.

V. Probable improvement of buoy on Knight shoal.

If practicable, the spar buoy marking Knight shoal will be replaced by the platform buoy removed from Seguin bank.

VI. Removal of lighthouse from Hugh rock to Carling rock and establishment of lighthouse on Cousin island.

It is proposed to remove the lighthouse now maintained on Hugh rock to the north portion of the highest part of Carling rock, during the present season of navigation, and to erect a lighthouse on the south extreme of Cousin island. These lighthouses will mark the channel south of Pancake island and will lead from Hooper island shoal gas buoy to Spruce island shoal gas buoy and will also designate the turning points at Carling rock and Cousin island.

VII. Proposed buoys off Carling rock and on Davy rock.

It is proposed to mark Davy rock by a black spar buoy, and the north end of the shoal off Carling rock by a red spar buoy.

VIII. Discontinuance of temporary range lights marking south channel.

The temporary range lights established last spring to mark the south channel, described in Notice to Mariners No. 21 of 1898, viz: two to mark the channel at Gordon rock and two on Harold point to mark the channel between Carling rock and Cameron island, will not be maintained after the 20th instant.

IX. Lighthouse on Depot island.

The lighthouse on Depot island, referred to in Part III of Notice to Mariners No. 15 of 1898, is completed, and will be put in operation this week. It stands on the beach of the island, at its western extremity, and is a square wooden building, with sloping walls, surmounted by a square wooden lantern, the whole painted white. The height from base to vane on the lantern is 28 feet.

Lat. N. 45° 19' 6"
Long. W. 80° 7' 10"

The light will be a fixed white light, elevated 25 feet above the level of the water, and should be visible 10 miles over an arc of about 180° from S. through E. to N. The illuminating apparatus is dioptric, of the seventh order.

The substance of this notice should be entered in the Canadian List of Lights and Fog Signals after No. 1039.

X. Sailing directions.

Amended sailing directions, to replace those printed in Notices to Mariners Nos. 15 and 21 of 1898, will be published when the improvements indicated in this notice have been completed. Vessels entering by the North channel will leave the Jones Island range alignment at the red gas buoy and steer directly for the black one, leaving it 200 feet on the port hand. They will then shape their course to leave Carling rock beacon or lighthouse 800 to 1,000 feet on the starboard hand. Inside of Carling rock Davy rock is the only hidden danger.

The above notices affect Admiralty charts Nos. 327, 678 and 1731, and Georgian Bay Pilot, supplement of 1893.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 16th September, 1898.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

NOTICE TO MARINERS.

No. 55 of 1898.

DOMINION OF CANADA—PRINCE EDWARD ISLAND.

Annandale Range Lights.

Two range lights, established by the Government of Canada at Annandale, Grand (Boughton) River, Kings County, Prince Edward Island, were put in operation on the 26th ultimo.

The front range building stands in the Village of Annandale, 220 feet north from the shore of the river, and 312 feet N. 70° E. from the head of the public wharf.

Lat. N. 46° 15' 55"
Long. W, 62° 25' 0"

It is a square wooden enclosed tower with sloping sides, surmounted by a square wooden lantern, the whole painted white, and is 13 feet high from its base to the vane on the lantern.

The light is a fixed white light, elevated 28 feet above high water, and should be visible 10 miles in, and over a small arc on each side of, the line of range. The illuminating apparatus is catoptric.

The back light building stands upon a point locally known as Juniper Point, N.W. by N. 5,640 feet from the front one.

It is an open framed wooden square tower with sloping sides, surmounted by an enclosed wooden lantern. The side of the tower facing the channel is slatted to make it more conspicuous, and the whole structure is framed white. The height of the tower, from base to vane, is 56 feet.

The light is a fixed white light, elevated 72 feet above high water mark, and should be visible 14 miles in the line of range. The illuminating apparatus is catoptric.

Annandale Wharf Light.

A fixed red light, elevated 11 feet above high water mark, and visible 1 mile from all points of approach by water is shown from a small lantern hoisted upon a mast erected on the north-west corner of Annandale Wharf. The mast is 8 feet high.

Annandale Day Beacon.

A diamond shaped beacon, of slabwork painted white, stands upon a ballasted timber platform on a sand bank on the north side of the channel south-east of the front range light building. The bank covers at high water, so that the beacon is surrounded by water for three or four hours at every high tide. It is 13 feet high above high water.

Sailing Directions.

A vessel entering the river should bring the range lights in one bearing N. W. by N., and keep them on, past the outer and inner bar cask buoys, until the day beacon is about 50 feet distant on the starboard bow, and until the back light is being obscured by the high land in front of the front range tower. She must then change her course to N.W. by W. ½ W. and continue on that course until the wharf light and back light are in one, N.W. by N. ½ N., which range leads to Annandale Wharf. Care must be taken not to overrun this last range, as there is a middle ground in the harbour south of the wharf. On the course marked by the white range lights the alignment should be carefully kept, as the fairway inside the bar is very narrow at some points. There is good anchorage inside the bar in the line of range. Depth on the bar at high tide, 11 feet; rise of tide, 5 feet. With an on-shore breeze, which makes a breaking sea on the bar, strangers should not attempt the entrance.

This notice affects Admiralty charts Nos. 1651, 2005, 2034 and 2666, St. Lawrence Pilot, Vol. 2; and the details respecting the three lights should be entered in the Canadian List of Lights and Fog Signals between Nos. 350 and 352.

DOMINION OF CANADA—ONTARIO.

Range lights at South Baymouth.

Two range lights, established by the Dominion of Canada at South Baymouth, to lead into the entrance to South bay (Manitoulin gulf), on the south-east shore of Manitoulin island, lake Huron, will be put in operation on or about the 26th instant.

The front range light building stands upon the south-east end of a bare limestone island lying on the north side of the mouth of the bay.

Lat. N. 45° 30' 25"
Long. W. 81° 58' 25"

It is a square wooden tower, with sloping sides, surmounted by a square wooden lantern, the whole painted white. The tower 28 is feet high from the ground to the vane of the lantern.

The light will be a fixed white light, elevated 28 feet above the level of the lake, and visible ten miles from all points of approach by water. The illuminating apparatus will be dioptric of the 7th order.

The back range light building stands upon the main land of Manitoulin island, in the woods behind the village of South Baymouth, 772 feet N. 28° E. from the front tower.

It is similar to the front tower, but is 40 feet high. The light will be a fixed white catoptric light, elevated 46 feet above the level of the lake, and should be visible twelve miles in, and over a small arc on each side of, the line of range.

To enter South bay vessels may bring the lights in one well off the shore line, and keep the alignment, N. 28° E., until within 600 feet of the front light, or until the rock next south of the lighthouse rock on the west side of the mouth is almost abeam, when they should haul sharply round and steer N. 77° E. until they are clear of the south end of the village wharf, behind which there is good shelter. This track carries 20 feet water. When about half a mile outside the outer lighthouse, and just east of the range, a rock with 15 feet least water on it may be found, and should be carefully guarded against, as it usually breaks in a southerly sea.

This notice affects Admiralty charts Nos. 519 and 678, and the substance of it should be entered in the Canadian List of Lights and Fog Signals under the numbers 1004 and 1005.

NOTICE TO MARINERS.

No. 51 of 1898.

DOMINION OF CANADA—BRITISH COLUMBIA.

I. Rocks in Templar Channel.

Captain J. T. Walbran, master of the D. G. S. "Quadra," reports that the shoal shown on Admiralty chart No. 584, north of Village island, and on the starboard side of the dotted track in Templar channel, Clayoquot sound, west coast of Vancouver island, is actually further west than shown and on the port side of the steamboat track.

It is a rock of small extent, slightly marked by kelp, and has a depth of 4 feet on it at low water spring tides. There is a depth of 4 fathoms close to it on each side, except to the southward, where a ledge exists with 2¼ fathoms on it.

He further reports the existence of two rocks off the eastern shore of Wakennenish island, on the port side of the fairway. The more southerly rock has 4 feet on it at low water springs, the more northerly dries 2 feet. Both these rocks are marked by kelp. Midway between them is a small patch with 12 feet on it, 3 and 4 fathoms on each side of it.

Captain Foot, master of the steamer "Willapa," reports that the large bank extending into Disappointment inlet, from its east shore, extends farther north than shown on the chart, and that a channel with 2½ fathoms runs close to the islands on the west shore.

This notice affects Admiralty chart No. 584 and British Columbia Pilot, 1888, pages 295 and 298.

II. Denny rock reported not dangerous.

Captain Walbran reports having sounded over the position of Denny rock, near Egg island, Queen Charlotte sound, as given on Admiralty chart No. 2448, with the result that he could find nowhere less water than 7 fathoms. As the rock often breaks and as a lighthouse is being erected in the vicinity, opportunity will be taken to fix the position by the breaker, and to make a further examination for the least depth of water.

This notice affects Admiralty charts Nos. 1923 B. and 2448.

III. Position of Mouse rock.

Captain Walbran has located Mouse rock, off Ivory island, junction of Seaforth channel and Milbank sound, about ½ cable west of the position shown on Admiralty chart No. 2449. This rock is of very small extent, has a depth of 5 feet on it at extreme low water, and is marked by kelp.

IV. Perrin anchorage.

Captain Walbran reports that the water between Ivory island and Watch island forms a good anchorage, which he has examined and named "Perrin anchorage."

V. New Lighthouses in course of erection.

Lighthouses are in course of erection by the Dominion Government at the following points in the inside channels of British Columbia. Fuller particulars respecting each will be given when the buildings are ready to be put in operation.

1. On Fiddle reef, Mayor channel, between Discovery island and Vancouver island, replacing a day beacon.
2. On Prospect point, or Observation point, First narrows, or Burrard inlet, at the entrance to Vancouver harbour.
3. On the east Sister rock, Stevens passage, Strait of Georgia, replacing a day beacon.
4. On Cape Mudge, south end of Valdes island, Discovery passage.
5. On the rock attached to the west shore of Egg island, Queen Charlotte sound.
6. On the rock known as Surf islet, off the south shore of Ivory island, Seaforth passage and Milbank sound. As Surf islet is really a peninsula of Ivory island, it is proposed in future to call it Surf point and the light will be known as Ivory island light.

DÉFENSE D'INTRODUIRE DES PLANTES INFESTÉES DU KERMÈS, ET PORTS D'ENTRÉE POUR LES PLANTES, ETC. AVIS No. 513.

RANFURLY, GOUVERNEUR.

PROCLAMATION.

CONSIDÉRANT qu'il nous a été démontré que des quantités considérables d'arbres fruitiers et de plantes infestés de diverses espèces de kermès (coccidés) ont été et sont encore importés dans la Nouvelle-Zélande, au danger et détriment des plantations de fruits de cette colonie ; et considérant qu'il est à propos de prohiber l'introduction de ces arbres fruitiers et plantes dans cette colonie ;

Sachez donc que je, Uchter John Mark, comte de Ranfurly, Gouverneur de la colonie de la Nouvelle-Zélande, en vertu du pouvoir et de l'autorité qui me sont conférés par le troisième article de "l'*Orchard and Garden Pests Act*, 1896" (ci-après appelé "le dit acte"), proclame et déclare par le présent que l'introduction dans la Nouvelle-Zélande d'arbres fruitiers ou autres plantes (y compris les boutures, bourgeons, ou autre partie d'une plante sauf le fruit infesté d'aucune espèce de kermès (coccidés), ou dans ou sur lesquels existent des traces qu'aucune telle peste est ou a été présente sous une forme quelconque ou à aucune phase de développement, est par le présent absolument défendue ; et si un arbre fruitier, plante, ou une partie de cet arbre ou plante respectivement prohibé par le présent est importé dans cette colonie, alors ces arbres ou plantes, et les colis les contenant, seront traités de la manière prescrite par l'article six du dit acte au sujet des plantes et autres choses illégalement introduites dans la colonie ; et pour les fins du dit acte, je désigne les ports d'Auckland et de Wellington les seuls ports d'entrée pour les plantes, tel que défini par le dit acte.

Donné sous le seing de Son Excellence le Très-honorable Uchter John Mark, comte de Ranfurly, Chevalier Commandeur de l'Ordre Très-distingué de Saint-Michel et Saint-George, Gouverneur et commandant en chef dans et sur la colonie impériale de la Nouvelle-Zélande et ses dépendances ; et émis sous le sceau de la dite colonie, à l'Hôtel du Gouvernement, à Wellington, ce dixième jour d'août dans l'année de Notre Seigneur mil huit cent quatre-vingt-dix-huit.

JOHN McKENZIE,
Ministre de l'Agriculture.

DIEU Sauve la REINE ! 14-3

(Circulaire.)

DOWNING STREET,
17 août 1898.

MONSIEUR,—Vu la dépêche circulaire de lord Granville, du 1er mars 1886, j'ai l'honneur de vous transmettre, pour être publiées dans la colonie que vous administrez, copies des Règlements de la Reine touchant les ordres et médailles récemment revisées au sujet des ordres étrangers, et je suis chargé de vous prier de les substituer aux règlements jusqu'ici en force.

Vous observerez que les exceptions dans la règle II des règlements de 1886, ont été étendues.

J'ai l'honneur d'être,
Monsieur,
Votre très humble serviteur,
J. CHAMBERLAIN.

A l'administrateur
du Gouvernement du Canada.

Il a plu à la Reine d'ordonner que les règlements suivants concernant les ordres et médailles étrangères soient substitués à ceux qui sont aujourd'hui en force :—

RÈGLEMENTS CONCERNANT LES ORDRES ÉTRANGERS.

1. Nul sujet de Sa Majesté n'acceptera, du souverain d'un pays étranger, un ordre étranger ni ne portera l'insigne de tel ordre, sans avoir d'abord obtenu de Sa Majesté permission à cet effet, signifié par un mandat sous son seing manuel royal.

2. A moins que la décoration étrangère n'ait été conférée pour service actif et distingué, soit sur mer ou sur terre, cette permission ne sera pas donnée à aucun sujet de Sa Majesté, sauf dans les cas suivants, s'ils sont spécialement recommandés par le Secrétaire d'Etat pour les affaires étrangères :—

"(1) Le chef d'une mission complimentaire de Sa Majesté.

"(2) Un attaché militaire ou naval à l'expiration de sa nomination.

"(3) Toute personne, n'étant pas alors au service de Sa Majesté, qui a rendu de grands services au souverain qui confère l'ordre en dehors des possessions de Sa Majesté, ou dans une ambassade ou légation de ce souverain dans ce pays."

3. L'intention d'un souverain étranger de conférer à un sujet britannique l'insigne d'un ordre, doit être signifiée au principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères, soit par le canal du ministre britannique près la cour de ce souverain étranger, ou par le canal de son ministre près la cour de Sa Majesté.

4. Si le service pour lequel il est proposé de conférer l'ordre a été rendu en temps de guerre, la signification requise par la clause précédente doit être faite pas plus tard que deux ans après l'échange des ratifications d'un traité de paix.

Si le service a été rendu en temps de paix, la signification doit être faite sous deux ans après la date de ce service.

5. Après que cette notification a été reçue, le principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères, si le cas tombe sous les conditions prescrites par les présents règlements, et provient de services navals ou militaires devant l'ennemi, la soumettra au principal secrétaire d'Etat pour la guerre avant de la présenter à Sa Majesté, afin de s'assurer s'il n'existe pas quelque objection à ce que la permission de Sa Majesté soit accordée.

Un semblable renvoi sera aussi fait au commandant en chef si la requête concerne un officier de l'armée, ou aux lords de l'Amirauté si elle concerne un officier de la marine.

6. Lorsque le principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères aura reçu le plaisir de la Reine quant à cette demande, et aura obtenu de Sa Majesté permission pour la personne en faveur de laquelle elle aura été faite, d'accepter l'ordre étranger et porter l'insigne de cet ordre, il signifiera cette permission au principal secrétaire d'Etat de Sa Majesté pour l'Intérieur, afin qu'il fasse préparer pour la signature royale le mandat requis par la clause 1.

Lorsque ce mandat aura été signé par la Reine, la chose sera insérée dans la "Gazette" énonçant le service pour lequel l'ordre étranger a été conféré.

7. Le mandat signifiant la permission de Sa Majesté pourra, à la requête et aux frais de la personne qui l'a obtenue être enregistré au Collège des Armes.

8. Chaque tel mandat comme susdit contiendra une clause prescrivant que la licence et permission de Sa Majecté n'autorisent pas l'assomption d'aucun style, appellation, rang, préséance ou privilège appartenant à un bachelier du royaume de Sa Majesté.

9. Lorsqu'un sujet britannique a reçu la permission royale d'accepter un ordre étranger il lui sera permis, en tout temps après, d'accepter la décoration d'une classe plus élevée du même ordre, à laquelle il pourra être devenu éligible par augmentation de grade dans le service étranger, ou dans le service de son propre pays : ou toute autre marque distinctive d'honneur strictement conséquente avec l'acceptation de l'ordre original, et commune à toute personne à laquelle cet ordre est conféré.

10. La clause précédente ne sera censée s'appliquer aux décorations de l'Ordre de Guelfe, qui furent conférées aux sujets britanniques par les prédécesseurs de Sa Majesté le roi George IV et le roi Guillaume IV, sur les têtes desquels les couronnes de la Grande-Bretagne et du Hanovre furent réunies.

Les décorations ainsi conférées ne peuvent à proprement parler être considérées comme des récompenses conférées par un souverain étranger pour services rendus suivant l'intention de la clause 2 des présents règlements. Elles doivent plutôt être considérées comme des faveurs personnelles accordées à des sujets britanniques par des souverains britanniques, et n'ayant aucun rapport à des services rendus à la Couronne étrangère du Hanovre.

Foreign Office, 23 juin 1898.

RÈGLEMENTS CONCERNANT LES MÉDAILLES ÉTRANGÈRES.

1. Les demandes pour permission d'accepter et de porter des médailles qui, n'étant pas la décoration d'un ordre étranger, sont conférées par un souverain étranger à des sujets britanniques dans l'armée ou la marine, devraient être adressées au commandant en chef ou aux lords de l'Amirauté, selon le cas, qui, s'ils le jugent à propos, peuvent les soumettre à la sanction de Sa Majesté, et en l'obtenant ils peuvent accorder cette permission sans autre formalité.

2. Tout autre sujet britannique, ayant obtenu la permission de Sa Majesté, est libre d'accepter et de porter une médaille étrangère, n'étant pas la décoration d'un ordre étranger.

3. Nulle nécessité d'obtenir permission d'accepter une médaille étrangère, si cette médaille ne doit pas être portée.

(Signé) SALISBURY.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 6 de l'acte 61 Victoria, intitulé "Acte du Territoire du Yukon," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'émettre et de donner les instructions suivantes, et elles sont par le présent émises et données comme instructions pour l'administration du gouvernement du territoire du Yukon par le commissaire ou le commissaire en conseil du dit territoire :—

Des réunions du conseil auront lieu aux époques et auront la durée qui seront prescrites par des ordonnances du commissaire en conseil, et en sus des réunions régulières du conseil, le commissaire pourra en tout temps convoquer le conseil en en donnant avis aux membres du conseil, selon qu'il le jugera nécessaire. Le lieu de réunion du conseil sera fixé par le commissaire de temps à autre.

Toutes les ordonnances passées par le commissaire en conseil seront, avant de devenir exécutoires, signées par le commissaire, qui est autorisé à réserver toute ordonnance qu'il considérera n'être pas dans l'intérêt du public d'approuver.

Chaque fois que le commissaire réservera une ordonnance il en transmettra, à la première occasion, une copie au ministre de l'Intérieur, et en même temps il énoncera ses raisons pour ne pas l'approuver, après quoi l'ordonnance et l'explication du commissaire seront soumises au Gouverneur général en conseil, pour que ce dernier en dispose selon qu'il le jugera convenable.

Les nominations à des charges créées par ordonnances du commissaire en conseil et les autres nominations de fonctionnaires qui sont payés à même les revenus locaux du territoire, ou au moyen d'honoraires exigés en conformité de ces ordonnances ou autrement, seront dans tous les cas faites par le commissaire.

Sous un délai raisonnable après la date où un fonctionnaire est nommé, le commissaire fera communiquer le fait de cette nomination au ministre de l'Intérieur.

Une nomination faite par le commissaire aura force et effet jusqu'à ce qu'elle soit désapprouvée par le Gouverneur en conseil. Si la nomination d'un fonctionnaire est désapprouvée par le Gouverneur en conseil, cette nomination sera réputée être annulée depuis le jour où le commissaire aura reçu avis de cette désapprobation.

Tous les revenus provenant de sources locales en vertu d'ordonnances du commissaire en conseil, seront administrés en conformité d'ordonnances passées à leur sujet par le commissaire en conseil. Ces revenus seront déposés au crédit conjoint du commissaire et du contrôleur, et ils ne seront déboursés que sur des comptes appuyés de pièces justificatives, au moyen d'un chèque du contrôleur contresigné par le commissaire.

Toutes pièces justificatives pour la dépense de ces revenus seront transmises à l'auditeur général du Canada à la fin de chaque trimestre, accompagnées d'un état financier signé par le contrôleur et contresigné par le commissaire.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du paragraphe "*h*" de l'article 90 de "l'Acte des terres fédérales," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements ci-joints soient et ils sont par le présent confirmés et déclarés être les règlements qui régissent les terres fédérales dans le territoire du Yukon.

JOHN J. McGEE,
Greffier du Conseil privé.

Règlements pour l'administration des terres fédérales dans le district provisoire du Yukon.

1. Toutes demandes d'achat de terre reçues par l'agent des bois et des terres de la Couronne, avant de leur donner suite, seront soumises au commissaire du territoire du Yukon qui est autorisé à disposer de toutes terres publiques par la vente à un prix d'au moins dix piastres par acre, payables comptant lors de la vente, et l'étendue maximum ainsi vendue à la même personne dans la même localité n'excèdera pas quarante acres. Cette vente sera sujette à la réserve à la Couronne de tous les minéraux qui se trouveront dans, sur ou au dessous de ces terres, avec plein pouvoir de les exploiter, et à cette fin d'entrer sur et occuper les dites terres ou telles parties d'icelles et sur telle étendue qui sera nécessaire pour exploiter effectivement ces minéraux.

2. Si en aucun temps après la date de la vente, une terre ainsi vendue se trouve de valeur comme emplacement de ville, et si le propriétaire d'icelle se décide de l'arpenter en lots de ville, ou si dans le cours de dix ans à compter de la date de la vente cette terre est utilisée ou occupée comme emplacement de ville par le fait que deux cents personnes ou plus résident sur icelle dans un rayon d'un mille carré, alors la condition de la vente primitive est que le gouvernement du Canada possèdera absolument pour son propre usage ou vente, un tiers des blocs ou lots dans cet emplacement de ville, c'est-à-dire le propriétaire possèdera deux blocs et le gouvernement un bloc alternativement d'après un arrangement que devra approuver le commissaire du district, et la vente de ces blocs du gouvernement aura lieu à l'enchère publique à l'époque que fixera le commissaire.

3. Le commissaire du territoire est autorisé et chargé de localiser des emplacements de ville aux endroits qu'ils jugera les plus convenables pour le commerce, et il commencera immédiatement à localiser ces emplacement de ville aux endroits suivants :—Dawson-City, Fort Selkirk ou les environs, l'embouchure de la rivière Stewart, ainsi qu'à d'autres endroits comme susdit. Ces emplacements auront les dimensions que le commissaire du territoire jugera convenable, et seront divisés en lots de 50 pieds de front sur 120 pieds de profondeur, avec des rues de 66 pieds de largeur, à moins que certaines circonstances n'empêchent l'arpentage des lots et rues de la dimension nommée, auquel cas le commissaire pourra changer les présents règlements de manière à faire face aux nécessités du cas.

4. A tous les points importants, il sera réservé pour les fins publiques 40 acres, ou plus, si la chose est jugée nécessaire.

5. Aucune terre ne sera vendue plus près que cent pieds du bord d'un cours d'eau navigable.

6. La première vente des lots sera faite à l'enchère publique, et aura lieu sur l'emplacement de ville après qu'avis de cette vente aura été publié dans un ou des papiers-nouvelles publiés dans le district du Yukon, et dans tels autres papiers-nouvelles que le ministre de l'Intérieur décidera, pendant au moins trente jours. L'avis annonçant la vente fixera une mise à l'enchère pour les lots, et ce prix sera gradué selon la situation des lots.

7. Après la première vente à l'enchère, le commissaire pourra faire d'autres ventes à l'enchère à son choix. Les lots non vendus à l'enchère pourront être vendus privément à des prix fixés par le commissaire et approuvés par le ministre de l'Intérieur.

8. Toute vente de lots le sera aux conditions suivantes :—Un tiers du prix d'achat sera payé comptant au temps de la vente, et la balance en deux paiements égaux six et douze mois respectivement après la date de la vente, avec intérêt au taux de six pour cent sur la balance qui restera due.

9. Le commissaire aura le pouvoir en faisant faire l'arpentage d'un emplacement de ville, de réserver un nombre raisonnable de lots comme emplacements pour places de marché, prisons, palais de justice, endroits de culte public, et carrés. Le commissaire est aussi autorisé à mettre à part des blocs de terrain pour servir de cimetières.

10. Toutes demandes pour terrains houillers seront adressées à l'agent des bois et terres de la Couronne, qui sera autorisé à vendre ces terrains, avec l'approbation du commissaire, à quarante piastres l'acre au comptant si la houille est anthracite, et vingt piastres l'acre au comptant pour toute autre espèce de houille. La vente de ces terrains sera soumise aux autres conditions imposées dans la vente des autres terres publiques, relativement à leur entretien pour des fins d'emplacements de ville.

11. Les licences et permis pour des terres à foin ou à pâturage seront accordés par l'agent des bois et terres de la couronne, avec l'autorisation générale du commissaire et conformément aux règlements du département à cet égard.

12. Là où la terre est réputée d'une valeur spéciale le Ministre pourra autoriser le commissaire à la faire arpenter en blocs de dimensions jugées convenables, et les vendre à l'enchère publique. 11-4

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport, daté le 16 juillet 1898, du Ministre de l'Intérieur, déclarant que le conseil de la municipalité de Lansdowne a adopté un règlement, No. 189, ouvrant un chemin sur la moitié nord de la section 11, township 15, rang 14 à l'ouest du 1er méridien, et que par un arrêté du Conseil Exécutif de la province du Manitoba, daté le 28 juin 1898, le dit règlement a été approuvé et confirmé.

Le Ministre déclare de plus que la municipalité a demandé que le terrain couvrant le dit chemin, colorié en rose sur le plan annexé, et d'une étendue de 8·08 acres, lui soit octroyé. Cette section 11 est un terrain d'école vacant, et la requête de la municipalité ne peut en conséquence être accordée, mais le chemin étant représenté comme une nécessité publique le Ministre recommande que l'étendue en question de 8·08 acres soit réservée de la vente et tenue pour les fins d'un chemin public.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

JOHN J. McGEE,
Greffier du Conseil privé.

DEMANDES AU PARLEMENT.

Règles *in re* Avis de bills privés.

Dans le cas de toute demande de bills privés, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, ayant pour objet la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, ou le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande (sauf s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français, du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Dans la *Gazette du Canada*, et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie. La publication de ces avis durera, dans chaque cas, la période de deux mois au moins pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Des exemplaires marqués de tous les numéros des journaux reproduisant la première et la dernière insertion de l'avis, devront être transmis au greffier de chaque Chambre, et porter à l'endos "Demande de bill privé."

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, les pétitionnaires devront aussi, en même temps et de la même manière, donner avis du taux de péages projeté, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piles pour le passage des radeaux et des navires ; et, si c'est un pont mobile, quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours au moins qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Après la seconde lecture et avant la prise en considération du bill par tout comité, le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) un honoraire de $200, plus une somme suffisante pour défrayer le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé.

L'honoraire de $200 payable sur tout bill privé, ne sera payé que dans la Chambre où ce bill a pris naissance ; mais les frais de réimpression et de traduction nécessités par ce bill seront payés dans la Chambre où ces frais sont encourus.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par le Sénat ou par la Chambre des Communes, après les premières trois semaines de la session.

Aucun bill privé ne pourra être présenté au Sénat ou à la Chambre des Communes après les premières quatre semaines de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

JOHN GEORGE BOURINOT,
Greffier des Communes.

Règle spéciale du Sénat.

49. (*c*.) Chaque fois qu'un bill doit opérer dans plus d'une province, territoire ou district, l'avis sera publié dans la *Gazette du Canada* et dans un journal bien établi publié dans chaque province, territoire ou district où le bill doit opérer.

Ordre permanent.

Lorsqu'un bill confirmant un bail, une convention ou toute autre espèce de contrat, sera reçu ou présenté au Sénat, ce bail, cette convention ou cette autre espèce de contrat sera exposé dans un appendice ou autrement.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b.*) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets;

(*c.*) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(*a.*) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait;

(*b.*) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Ordre spécial de la Chambre des Communes.

Résolu,—Que le greffier de la Chambre adresse une copie de la Règle 49 modifiée aux personnes qui signifient dans la *Gazette du Canada* leur intention de s'adresser au parlement pour la passation d'un bill privé, ainsi qu'un avis portant que la dite Règle sera strictement appliquée à l'avenir :—

49. Les pétitions pour bills privés ne seront reçues par la Chambre que pendant les trois premières semaines de la session, et les bills privés ne pourront être présentés à la Chambre que pendant les quatre premières semaines de la session; et tout comité auquel aura été renvoyé un bill privé devra le prendre en considération et en faire rapport à la Chambre avec toute la diligence convenable.

2. Qu'il soit enjoint à tous les comités sur bills privés, dans le cas où les promoteurs ne seraient point prêts à procéder avec leurs mesures quand celles-ci auront été appelées deux fois en deux occasions différentes devant le comité pour y être considérées, de rapporter ces mesures à la Chambre sans délai, faisant connaître les faits, et avec la recommandation que ces bills soient retirés."

JOHN GEORGE BOURINOT,
Greffier des Communes.

Substance des règles et formes de procéder du Sénat concernant les bills de divorce.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré durant six mois avant la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique, ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district : autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire faite en vertu de "l'Acte de la preuve en Canada, 1893."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

PROHIBITING THE INTRODUCTION OF SCALE-INFESTED PLANTS, AND APPOINTING PORTS OF ENTRY FOR PLANTS, ETC. NOTICE No. 513.

RANFURLY, GOVERNOR.

A PROCLAMATION.

WHEREAS it has been made to appear to my satisfaction that considerable quantities of fruit trees and plants infested with various species of scale insects have been and are still imported into New Zealand, to the danger and detriment of the fruit plantations of this colony ; and whereas it is expedient to prohibit the introduction of such fruit trees and plants to this colony ;

Now, therefore, I, Uchter John Mark, Earl of Ranfurly, the Governor of the Colony of New Zealand, by virtue of the power and authority conferred upon me by the third section of "The Orchard and Garden Pests Act, 1896" (hereinafter termed "the said Act"), do hereby proclaim and declare that the introduction into New Zealand of any fruit or other trees or plants (including cuttings, buds, or any other portion of a plant except fruit infested with any species of scale insect (coccid), or in or on which there are traces that any such pest is or has been present in any form or stage of development, is hereby absolutely prohibited ; and, if any fruit tree, plant, or portion thereof respectively hereby prohibited is imported into this colony, then such trees or plants, and the packages containing the same, shall be dealt with in the manner provided by section six of the said Act with respect to plants and other things unlawfully introduced in the colony ; and for the purposes of the said Act I hereby appoint the Ports of Auckland and Wellington to be the only ports of entry for plants, as defined by the said Act.

JOHN McKENZIE,
Minister for Agriculture.

GOD Save The QUEEN ! 14–3

(Circular.) DOWNING STREET,
17th August, 1898.

SIR,—With reference to Lord Granville's Circular despatch of the 1st March, 1886, I have the honour to transmit to you, for information in the Colony under your Government, copies of the Queen's Regulations respecting Foreign Orders and Medals recently revised as regards Foreign Orders, and I have to request that they may be substituted for the copies of those previously in force.

It will be observed that the exceptions under Rule II. of the Regulations of 1886 have been extended.

I have the honour to be,
Sir,
Your most obedient, humble Servant,
J. CHAMBERLAIN.

The Officer Administering
the Government of Canada.

The Queen has been pleased to direct that the following Regulations respecting Foreign Orders and Medals shall be substituted for those now in force :—

REGULATIONS RESPECTING FOREIGN ORDERS.

1. No subject of Her Majesty shall accept a Foreign Order from the Sovereign of any foreign country, or wear the Insignia thereof, without having previously obtained Her Majesty's permission to that effect, signified by a warrant under Her Royal Sign-Manual.

2. "Unless the Foreign Decoration shall have been conferred in consequence of active and distinguished service, either at Sea or in the Field, such permission will not be given to any subject of Her Majesty, except in the following cases, if recommended specially by the Secretary of State for Foreign Affairs :—

"(1) The Chief of a Complimentary Mission from Her Majesty.

"(2) A Military or Naval Attaché on the termination of his appointment.

"(3) Any person, not at the time in the service of Her Majesty, who has rendered valuable service to the Sovereign bestowing the Order outside Her Majesty's dominions, or in an Embassy or Legation of that Sovereign in this country."

3. The intention of a Foreign Sovereign to confer upon a British subject the Insignia of an Order must be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the British Minister accredited to the Court of such Foreign Sovereign, or through His Minister accredited at the Court of Her Majesty.

4. If the service for which it is proposed to confer the Order has been performed during War, the notification required by the preceding clause must be made

not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the service has been performed in time of Peace, the notification must be made within two years after the date of such service.

5. After such notification shall have been received, Her Majesty's Principal Secretary of State for Foreign Affairs shall, if the case comes within the conditions prescribed by the present Regulations, and arises from Naval or Military services before the enemy, refer it to Her Majesty's Principal Secretary of State for the War Department, previously to taking Her Majesty's pleasure thereupon, in order to ascertain whether there be any objection to Her Majesty's permission being granted.

A similar reference shall also be made to the Commander-in-chief if the application relates to an Officer in the Army, or to the Lords of the Admiralty if it relates to an Officer in the Navy.

6. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken the Queen's pleasure on any such application, and shall have obtained Her Majesty's permission for the person in whose favour it has been made to accept the Foreign Order, and wear the Insignia thereof, he shall signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that he may cause the warrant required by clause 1 to be prepared for the Royal Sign-Manual.

When such warrant shall have been signed by the Queen, a notification thereof shall be inserted in the "Gazette," stating the service for which the Foreign Order has been conferred.

7. The warrant signifying Her Majesty's permission may, at the request and at the expense of the person who has obtained it, be registered in the College of Arms.

8. Every such warrant as aforesaid shall contain a clause providing that Her Majesty's licence and permission does not authorize the assumption of any style, appellation, rank, precedence, or privilege appertaining to a Knight Bachelor of Her Majesty's Realms.

9. When a British subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Decoration of a Higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

10. The preceding clause shall not be taken to apply to Decorations of the Guelphic Order, which were bestowed on British subjects by Her Majesty's predecessors, King George IV and King William IV, on whose heads the Crowns of Great Britain and of Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of clause 2 of these Regulations. They must be rather considered as personal favours bestowed on British subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

Foreign Office, June 23, 1898.

Regulations respecting Foreign Medals.

1. Applications for permission to accept and wear Medals which, not being the Decoration of any Foreign Order, are conferred by a Foreign Sovereign on British subjects in the Army or Navy, should be addressed to the Commander-in-chief or the Lords of the Admiralty, as the case may be, who, if they see fit, may submit the same for Her Majesty's sanction, upon obtaining which they may grant such permission without other formality.

2. Any other British subject, having obtained Her Majesty's permission, is at liberty to accept and wear a Foreign Medal, not being the Decoration of a Foreign Order.

3. No permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

(Signed)
SALISBURY.

NOTICE TO MARINERS.

No. 54 of 1898.

DOMINION OF CANADA—ONTARIO.

IMPROVEMENTS IN THE ENTRANCE TO PARRY SOUND.

I. Old, or north, channel adopted.

In consequence of the greatly increased draft of steamers now navigating Parry Sound, the Government has decided to efficiently mark the old or north channel, south of Pancake island and north of McClelland rock and Carling rock, and to abandon the marking of the new or south channel, north of Gordon rocks and south of Nias islands and Carling rock. Masters are therefore advised to use the old or north channel, which is shorter, straighter and carries better water than the new channel.

II. Gas buoy on Hooper island shoal.

As an aid to the navigation of the old channel, a steel gas buoy, painted red, with the words "Hooper island shoal" in white letters on the sides, surmounted by a red conical slatwork and a red lantern, was, on or about the 15th instant, moored in 3 fathoms water, in the axis of the Jones island range lights, on the 15-foot patch north of Hooper island, replacing the red spar buoy now marking that point.

Lat.	N.	45°	19'	49"
Long.	W.	80°	18'	37"

The buoy will show a fixed white light elevated 7 feet above the water, from a small dioptric lantern. The light should be visible 3 miles, all around the horizon.

From the buoy the south point of Pancake island bears E.N.E. ½ E., distant 4000 feet.

The substance of this notice should be inserted in the Canadian List of Lights and Fog Signals next after No. 1038.

III. Gas buoy on Spruce island shoal.

As a further aid to the navigation of the old channel, a steel gas buoy, painted black, with the words "Spruce island shoal" in white letters on the sides, surmounted by a black conical slatwork and a red lantern was, on the 9th instant, moored in 4 fathoms water, on the south extremity of the shoal extending south from Spruce island.

Lat.	N.	45°	19'	52"
Long.	W.	80°	15'	48"

The buoy shows a fixed white light, elevated 7 feet above the water, from a small dioptric lantern, and should be visible 3 miles all around the horizon.

From the buoy McClelland rock beacon bears S.W. by W., distant 1300 feet, the summit of Carling rock bears E. ½ N., distant 5800 feet, and the south extremity of Spruce island bears N.E. ¾ N., distant 2400 feet.

The substance of this notice should be inserted in the Canadian List of Lights and Fog Signals after the description of Hooper island shoal gas buoy.

IV. Gas buoy on Seguin bank.

On or about the 19th instant, the platform buoy described in Part I of Notice to Mariners No. 15 of 1898, marking the south end of Seguin bank, will be replaced by a gas buoy, painted black, with the words "Seguin bank" in white letters on the sides, surmounted by a black conical slatwork cage and by a red lantern. The buoy will be moored in 4 fathoms water, immediately south of the shoalest spot.

Lat.	N.	45°	19'	21"
Long.	W.	80°	31'	30"

The buoy will show a fixed white light elevated 10 feet above the water, from a small dioptric lantern. The light should be visible 4 miles, all around the horizon.

The substance of this notice should be inserted in the Canadian List of Lights and Fog Signals between Nos. 1033 and 1034.

The three gas buoys above described will be removed from their stations every autumn as soon as their safety is threatened by ice, and will be replaced as soon as danger from ice is past in the spring.

V. Probable improvement of buoy on Knight shoal.

If practicable, the spar buoy marking Knight shoal will be replaced by the platform buoy removed from Seguin bank.

VI. Removal of lighthouse from Hugh rock to Carling rock and establishment of lighthouse on Cousin island.

It is proposed to remove the lighthouse now maintained on Hugh rock to the north portion of the highest part of Carling rock, during the present season of navigation, and to erect a lighthouse on the south extreme of Cousin island. These lighthouses will mark the channel south of Pancake island and will lead from Hooper island shoal gas buoy to Spruce island shoal gas buoy and will also designate the turning points at Carling rock and Cousin island.

VII. Proposed buoys off Carling rock and on Davy rock.

It is proposed to mark Davy rock by a black spar buoy, and the north end of the shoal off Carling rock by a red spar buoy.

VIII. Discontinuance of temporary range lights marking south channel.

The temporary range lights established last spring to mark the south channel, described in Notice to Mariners No. 21 of 1898, viz: two to mark the channel at Gordon rock and two on Harold point to mark the channel between Carling rock and Cameron island, will not be maintained after the 20th instant.

IX. Lighthouse on Depot island.

The lighthouse on Depot island, referred to in Part III of Notice to Mariners No. 15 of 1898, is completed, and will be put in operation this week. It stands on the beach of the island, at its western extremity, and is a square wooden building, with sloping walls, surmounted by a square wooden lantern, the whole painted white. The height from base to vane on the lantern is 28 feet.

Lat.	N.	45°	19'	6"
Long.	W.	80°	7'	10"

The light will be a fixed white light, elevated 25 feet above the level of the water, and should be visible 10 miles over an arc of about 180° from S. through E. to N. The illuminating apparatus is dioptric, of the seventh order.

The substance of this notice should be entered in the Canadian List of Lights and Fog Signals after No. 1039.

X. Sailing directions.

Amended sailing directions, to replace those printed in Notices to Mariners Nos. 15 and 21 of 1898, will be published when the improvements indicated in this notice have been completed. Vessels entering by the North channel will leave the Jones Island range alignment at the red gas buoy and steer directly for the black one, leaving it 200 feet on the port hand. They will then shape their course to leave Carling rock beacon or lighthouse 800 to 1,000 feet on the starboard hand. Inside of Carling rock Davy rock is the only hidden danger.

The above notices affect Admiralty charts Nos. 327, 678 and 1731, and Georgian Bay Pilot, supplement of 1893.

F. GOURDEAU,
Deputy-Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 16th September, 1898.

☞ All bearings, unless otherwise noted, are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notices of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters to the Chief Engineer, Department of Marine and Fisheries, Ottawa, Canada.

Long.	W.	62°	25'	0"

It is a square wooden enclosed tower with sloping sides, surmounted by a square wooden lantern, the whole painted white, and is 13 feet high from its base to the vane on the lantern.

The light is a fixed white light, elevated 28 feet above high water, and should be visible 10 miles in, and over a small arc on each side of, the line of range. The illuminating apparatus is catoptric.

The back light building stands upon a point locally known as Juniper Point, N.W. by N. 5,640 feet from the front one.

It is an open framed wooden square tower with sloping sides, surmounted by an enclosed wooden lantern. The side of the tower facing the channel is slatted to make it more conspicuous, and the whole structure is framed white. The height of the tower, from base to vane, is 56 feet.

The light is a fixed white light, elevated 72 feet above high water mark, and should be visible 14 miles in the line of range. The illuminating apparatus is catoptric.

ANNANDALE WHARF LIGHT.

A fixed red light, elevated 11 feet above high water mark, and visible 1 mile from all points of approach by water is shown from a small lantern hoisted upon a mast erected on the north-west corner of Annandale Wharf. The mast is 8 feet high.

ANNANDALE DAY BEACON.

A diamond shaped beacon, of slabwork painted white, stands upon a ballasted timber platform on a sand bank on the north side of the channel south-east of the front range light building. The bank covers at high water, so that the beacon is surrounded by water for three or four hours at every high tide. It is 13 feet high above high water.

SAILING DIRECTIONS.

A vessel entering the river should bring the range lights in one bearing N. W. by N., and keep them on, past the outer and inner bar cask buoys, until the day beacon is about 50 feet distant on the starboard bow, and until the back light is being obscured by the high land in front of the front range tower. She must then change her course to N.W. by W. ½ W. and continue on that course until the wharf light and back light are in one, N.W. by N. ½ N., which range leads to Annandale Wharf. Care must be taken not to overrun this last range, as there is a middle ground in the harbour south of the wharf. On the course marked by the white range lights the alignment should be carefully kept, as the fairway inside the bar is very narrow at some points. There is good anchorage inside the bar in the line of range. Depth on the bar at high tide, 11 feet; rise of tide, 5 feet. With an on-shore breeze, which makes a breaking sea on the bar, strangers should not attempt the entrance.

This notice affects Admiralty charts Nos. 1651, 2005, 2034 and 2666, St. Lawrence Pilot, Vol. 2; and the details respecting the three lights should be entered in the Canadian List of Lights and Fog Signals between Nos. 350 and 352.

DOMINION OF CANADA—ONTARIO.

RANGE LIGHTS AT SOUTH BAYMOUTH.

Two range lights, established by the Dominion of Canada at South Baymouth, to lead into the entrance to South bay (Manitoulin gulf), on the south-east shore of Manitoulin island, lake Huron, will be put in operation on or about the 26th instant.

The front range light building stands upon the south-east end of a bare limestone island lying on the north side of the mouth of the bay.

Lat. N. 45° 30' 35"
Long. W. 81° 58' 25"

It is a square wooden tower, with sloping sides, surmounted by a square wooden lantern, the whole painted white. The tower 28 is feet high from the ground to the vane of the lantern.

The light will be a fixed white light, elevated 28 feet above the level of the lake, and visible ten miles from all points of approach by water. The illuminating apparatus will be dioptric of the 7th order.

The back range light building stands upon the main land of Manitoulin island, in the woods behind the village of South Baymouth, 772 feet N. 28° E. from the front tower.

It is similar to the front tower, but is 40 feet high. The light will be a fixed white catoptric light, elevated 46 feet above the level of the lake, and should be visible twelve miles in, and over a small arc on each side of, the line of range.

To enter South bay vessels may bring the lights in one well off the shore line, and keep the alignment, N. 28° E., until within 600 feet of the front light, or until the rock next south of the lighthouse rock on the west side of the mouth is almost abeam, when they should haul sharply round and steer N. 77° E. until they are clear of the south end of the village wharf, behind which there is good shelter. This track carries 20 feet water. When about half a mile outside the outer lighthouse, and just east of the range, a rock with 15 feet least water on it may be found, and should be carefully guarded against, as it usually breaks in a southerly sea.

This notice affects Admiralty charts Nos. 519 and 678, and the substance of it should be entered in the Canadian List of Lights and Fog Signals under the numbers 1004 and 1005.

NOTICE TO MARINERS.

No. 51 of 1898.

DOMINION OF CANADA—BRITISH COLUMBIA.

I. ROCKS IN TEMPLAR CHANNEL.

Captain J. T. Walbran, master of the D. G. S. "Quadra," reports that the shoal shown on Admiralty chart No. 584, north of Village island, and on the starboard side of the dotted track in Templar channel, Clayoquot sound, west coast of Vancouver island, is actually further west than shown and on the port side of the steamboat track.

It is a rock of small extent, slightly marked by kelp, and has a depth of 4 feet on it at low water spring tides. There is a depth of 4 fathoms close to it on each side, except to the southward, where a ledge exists with 2¼ fathoms on it.

He further reports the existence of two rocks off the eastern shore of Wakennenish island, on the port side of the fairway. The more southerly rock has 4 feet on it at low water springs, the more northerly dries 2 feet. Both these rocks are marked by kelp. Midway between them is a small patch with 12 feet on it, 3 and 4 fathoms on each side of it.

Captain Foot, master of the steamer "Willapa," reports that the large bank extending into Disappointment inlet, from its east shore, extends farther north than shown on the chart, and that a channel with 2½ fathoms runs close to the islands on the west shore.

This notice affects Admiralty chart No. 584 and British Columbia Pilot, 1888, pages 295 and 298.

II. DENNY ROCK REPORTED NOT DANGEROUS.

Captain Walbran reports having sounded over the position of Denny rock, near Egg island, Queen Charlotte sound, as given on Admiralty chart No. 2448, with the result that he could find nowhere less water than 7 fathoms. As the rock often breaks and as a lighthouse is being erected in the vicinity, opportunity will be taken to fix the position by the breaker, and to make a further examination for the least depth of water.

This notice affects Admiralty charts Nos. 1923 B. and 2448.

III. POSITION OF MOUSE ROCK.

Captain Walbran has located Mouse rock, off Ivory island, junction of Seaforth channel and Milbank sound, about ½ cable west of the position shown on Admiralty chart No. 2449. This rock is of very small extent, has a depth of 5 feet on it at extreme low water, and is marked by kelp.

IV. PERRIN ANCHORAGE.

Captain Walbran reports that the water between Ivory island and Watch island forms a good anchorage, which he has examined and named "Perrin anchorage."

V. NEW LIGHTHOUSES IN COURSE OF ERECTION.

Lighthouses are in course of erection by the Dominion Government at the following points in the inside channels of British Columbia. Fuller particulars respecting each will be given when the buildings are ready to be put in operation.

1. On Fiddle reef, Mayor channel, between Discovery island and Vancouver island, replacing a day beacon.
2. On Prospect point, or Observation point, First narrows, or Burrard inlet, at the entrance to Vancouver harbour.
3. On the east Sister rock, Stevens passage, Strait of Georgia, replacing a day beacon.
4. On Cape Mudge, south end of Valdes island, Discovery passage.
5. On the rock attached to the west shore of Egg island, Queen Charlotte sound.
6. On the rock known as Surf islet, off the south shore of Ivory island, Seaforth passage and Milbank sound. As Surf islet is really a peninsula of Ivory island, it is proposed in future to call it Surf point and the light will be known as Ivory island light.

E. L. NEWCOMBE,
Sous-ministre de la
Justice, Canada.

ATTENDU que par et en vertu du chapitre 32 des Statuts Revisés du Canada, désigné et connu comme "l'Acte des Douanes," il est entre autres choses statué que toutes les factures de marchandises seront faites en cours monétaire du pays d'où elles sont importées, et contiendront un exposé véridique de la valeur de ces marchandises, et en computant la valeur de ce cours monétaire pour établir les droits, le taux adopté sera celui qui aura été prescrit et promulgué de temps à autre par le Gouverneur en conseil, qui est par le présent autorisé à rendre un arrêté à cet effet ; et le taux prescrit sera basé sur la valeur réelle de la monnaie ou du cours monétaire

Sachez maintenant que par les présentes, par et avec l'avis de Notre Conseil privé pour le Canada, Nous proclamons et déclarons que la valeur des cours monétaires étrangers comparée à la piastre étalon du Canada, tel qu'indiqué dans la cédule ci-annexée et marquée "Cédule A" sera la valeur pour établir les droits de tels cours monétaires étrangers, et que toutes les factures de marchandises étrangères faites d'après tels cours monétaires seront réduites au cours monétaire canadien aux taux qui leur sont assignés dans cette cédule.

De ce qui précède Nos féaux sujets et tous ceux que les présentes peuvent concerner, sont par les présentes requis d'en prendre avis et d'agir en conséquence.

En foi de quoi, Nous avons fait émettre Nos présentes Lettres Patentes et à icelles fait apposer le Grand Sceau du Canada. DÉPÊCHES.

[*Extrait de la* NEW ZEALAND GAZETTE, *du* 18 *août* 1898.]

DÉFENSE D'INTRODUIRE DES PLANTES INFESTÉES DU KERMÈS, ET PORTS D'ENTRÉE POUR LES PLANTES, ETC. AVIS No. 513.

RANFURLY, GOUVERNEUR.

PROCLAMATION.

CONSIDÉRANT qu'il nous a été démontré que des quantités considérables d'arbres fruitiers et de plantes infestés de diverses espèces de kermès (coccidés) ont été et sont encore importés dans la Nouvelle-Zélande, au danger et détriment des plantations de fruits de cette colonie ; et considérant qu'il est à propos de prohiber l'introduction de ces arbres fruitiers et plantes dans cette colonie ;

Sachez donc que je, Uchter John Mark, comte de Ranfurly, Gouverneur de la colonie de la Nouvelle-Zélande, en vertu du pouvoir et de l'autorité qui me sont conférés par le troisième article de "l'*Orchard and Garden Pests Act*, 1896" (ci-après appelé "le dit acte"), proclame et déclare par le présent que l'introduction dans la Nouvelle-Zélande d'arbres fruitiers ou autres plantes (y compris les boutures, bourgeons, ou autre partie d'une plante sauf le fruit infesté d'aucune espèce de kermès (coccidés), ou dans ou sur lesquels existent des traces qu'aucune telle peste est ou a été présente sous une forme quelconque ou à aucune phase de développement, est par le présent absolument défendue ; et si un arbre fruitier, plante, ou une partie de cet arbre ou plante respectivement prohibé par le présent est importé dans cette colonie, alors ces arbres ou plantes, et les colis les contenant, seront traités de la manière prescrite par l'article six du dit acte au sujet des plantes et autres choses illégalement introduites dans la colonie ; et pour les fins du dit acte, je désigne les ports d'Auckland et de Wellington les seuls ports d'entrée pour les plantes, tel que défini par le dit acte.

Donné sous le seing de Son Excellence le Très-honorable Uchter John Mark, comte de Ranfurly, Chevalier Commandeur de l'Ordre Très-distingué de Saint-Michel et Saint-George, Gouverneur et commandant en chef dans et sur la colonie impériale de la Nouvelle-Zélande et ses dépendances ; et émis sous le sceau de la dite colonie, à l'Hôtel du Gouvernement, à Wellington, ce dixième jour d'août dans l'année de Notre Seigneur mil huit cent quatre-vingt-dix-huit.

JOHN McKENZIE,
Ministre de l'Agriculture.

DIEU Sauve la REINE ! 14-3

(Circulaire.)

DOWNING STREET,
17 août 1898.

MONSIEUR,—Vu la dépêche circulaire de lord Granville, du 1er mars 1886, j'ai l'honneur de vous transmettre, pour être publiées dans la colonie que vous administrez, copies des Règlements de la Reine touchant les ordres et médailles récemment revisées au sujet des ordres étrangers, et je suis chargé de vous prier de les substituer aux règlements jusqu'ici en force.

Vous observerez que les exceptions dans la règle II des règlements de 1886, ont été étendues.

J'ai l'honneur d'être,
Monsieur,
Votre très humble serviteur,
J. CHAMBERLAIN.

A l'administrateur
du Gouvernement du Canada.

* * *

Il a plu à la Reine d'ordonner que les règlements suivants concernant les ordres et médailles étrangères soient substitués à ceux qui sont aujourd'hui en force :—

RÈGLEMENTS CONCERNANT LES ORDRES ÉTRANGERS.

1. Nul sujet de Sa Majesté n'acceptera, du souverain d'un pays étranger, un ordre étranger ni ne portera l'insigne de tel ordre, sans avoir d'abord obtenu de Sa Majesté permission à cet effet, signifié par un mandat sous son seing manuel royal.

2. A moins que la décoration étrangère n'ait été conférée pour service actif et distingué, soit sur mer ou sur terre, cette permission ne sera pas donnée à aucun sujet de Sa Majesté, sauf dans les cas suivants, s'ils sont spécialement recommandés par le Secrétaire d'Etat pour les affaires étrangères :—

"(1) Le chef d'une mission complimentaire de Sa Majesté.

"(2) Un attaché militaire ou naval à l'expiration de sa nomination.

"(3) Toute personne, n'étant pas alors au service de Sa Majesté, qui a rendu de grands services au souverain qui confère l'ordre en dehors des possessions de Sa Majesté, ou dans une ambassade ou légation de ce souverain dans ce pays."

3. L'intention d'un souverain étranger de conférer à un sujet britannique l'insigne d'un ordre, doit être signifiée au principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères, soit par le canal du ministre britannique près la cour de ce souverain étranger, ou par le canal de son ministre près la cour de Sa Majesté.

4. Si le service pour lequel il est proposé de conférer l'ordre a été rendu en temps de guerre, la signification requise par la clause précédente doit être faite pas plus tard que deux ans après l'échange des ratifications d'un traité de paix.

Si le service a été rendu en temps de paix, la signification doit être faite sous deux ans après la date de ce service.

5. Après que cette notification a été reçue, le principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères, si le cas tombe sous les conditions prescrites par les présents règlements, et provient de services navals ou militaires devant l'ennemi, la soumettra au principal secrétaire d'Etat pour la guerre avant de la présenter à Sa Majesté, afin de s'assurer s'il n'existe pas quelque objection à ce que la permission de Sa Majesté soit accordée.

Un semblable renvoi sera aussi fait au commandant en chef si la requête concerne un officier de l'armée, ou aux lords de l'Amirauté si elle concerne un officier de la marine.

6. Lorsque le principal secrétaire d'Etat de Sa Majesté pour les affaires étrangères aura reçu le plaisir de la Reine quant à cette demande, et aura obtenu de Sa Majesté permission pour la personne en faveur de laquelle elle aura été faite, d'accepter l'ordre étranger et porter l'insigne de cet ordre, il signifiera cette permission au principal secrétaire d'Etat de Sa Majesté pour l'Intérieur, afin qu'il fasse préparer pour la signature royale le mandat requis par la clause 1.

Lorsque ce mandat aura été signé par la Reine, la chose sera insérée dans la "Gazette" énonçant le service pour lequel l'ordre étranger a été conféré.

7. Le mandat signifiant la permission de Sa Majesté pourra, à la requête et aux frais de la personne qui l'a obtenue être enregistré au Collège des Armes.

8. Chaque tel mandat comme susdit contiendra une clause prescrivant que la licence et permission de Sa Majesté n'autorisent pas l'assomption d'aucun style, appellation, rang, préséance ou privilège appartenant à un bachelier du royaume de Sa Majesté.

9. Lorsqu'un sujet britannique a reçu la permission royale d'accepter un ordre étranger il lui sera permis, en tout temps après, d'accepter la décoration d'une classe plus élevée du même ordre, à laquelle il pourra être devenu éligible par augmentation de grade dans le service étranger, ou dans le service de son propre pays : ou toute autre marque distinctive d'honneur strictement conséquente avec l'acceptation de l'ordre original, et commune à toute personne à laquelle cet ordre est conféré.

10. La clause précédente ne sera censée s'appliquer aux décorations de l'Ordre de Guelfe, qui furent conférées aux sujets britanniques par les prédécesseurs de Sa Majesté le roi George IV et le roi Guillaume IV, sur les têtes desquels les couronnes de la Grande-Bretagne et du Hanovre furent réunies.

Les décorations ainsi conférées ne peuvent à proprement parler être considérées comme des récompenses conférées par un souverain étranger pour services rendus suivant l'intention de la clause 2 des présents règlements. Elles doivent plutôt être considérées comme des faveurs personnelles accordées à des sujets britanniques par des souverains britanniques, et n'ayant aucun rapport à des services rendus à la Couronne étrangère du Hanovre.

Foreign Office, 23 juin 1898.

RÈGLEMENTS CONCERNANT LES MÉDAILLES ÉTRANGÈRES.

1. Les demandes pour permission d'accepter et de porter des médailles qui, n'étant pas la décoration d'un ordre étranger, sont conférées par un souverain étranger à des sujets britanniques dans l'armée ou la marine, devraient être adressées au commandant en chef ou aux lords de l'Amirauté, selon le cas, qui, s'ils le jugent à propos, peuvent les soumettre à la sanction de Sa Majesté, et en l'obtenant ils peuvent accorder cette permission sans autre formalité.

2. Tout autre sujet britannique, ayant obtenu la permission de Sa Majesté, est libre d'accepter et de porter une médaille étrangère, n'étant pas la décoration d'un ordre étranger.

3. Nulle nécessité d'obtenir permission d'accepter une médaille étrangère, si cette médaille ne doit pas être portée.

(Signé) SALISBURY.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

SUR un rapport, daté le 16 juillet 1898, du Ministre de l'Intérieur, déclarant que le conseil de la municipalité de Lansdowne a adopté un règlement, No. 189, ouvrant un chemin sur la moitié nord de la section 11, township 15, rang 14 à l'ouest du 1er méridien, et que par un arrêté du Conseil Exécutif de la province du Manitoba, daté le 28 juin 1898, le dit règlement a été approuvé et confirmé.

Le Ministre déclare de plus que la municipalité a demandé que le terrain couvrant le dit chemin, colorié en rose sur le plan annexé, et d'une étendue de 8·08 acres, lui soit octroyé. Cette section 11 est un terrain d'école vacant, et la requête de la municipalité ne peut en conséquence être accordée, mais le chemin étant représenté comme une nécessité publique le Ministre recommande que l'étendue en question de 8·08 acres soit réservée de la vente et tenue pour les fins d'un chemin public.

Le comité soumet ce qui précède à l'approbation de Votre Excellence.

JOHN J. McGEE,
Greffier du Conseil privé.
